Woolwich Catastrophe Shocks Towns Far Away

EX LOSION IN ARSENAL

Woolwich, Eng., Feb. 12.—A huge hole in the ground is all that marks the site of the chemical research department of the Woolwich arsenal and the cordite magazine, which exploded early yesterday morning with such terrific force that the concussion was felt in towns forty miles away, and the whole countryside was thrown into a panic, owing to the belief that a violent earthquake had occurred.

These buildings were practically swept away, the big blocks of stone of which they were constructed being scattered for hundreds of yards on all sides. There was no night shift working, hence the absence of casualties.

The people of Baintree, forty miles away, were thrown into a panie by the shock of the explosion, while nearer towns had windows shattered and chimneys demolished. The cause of the disaster is not known

PROUD OF HAVING TRIED **CUTICURA REMEDIES**

"I had eczema on my hands for about eleven years. The hands cracked open in many places and bled. One of tay fingers was so bad that the nail came off. I had often heard of cures by the Cuticura Remedies, but had no confidence in them as I had tried so many remedies, and they all had failed to cure me. I had seen three doctors, but got no relief. Finally my husband said that we would try the Cuticura Remedies, so we got a cake of Cuticura Soap, a box of Cuticura Reisolvent Pills. Of course I keep Cuticura Soap all the time for my hands, but the one cake of Soap and half a box of Cuticura Ointment cured them. It is surely a blessing for me to have my hands well, and I am very proud of having tried Cuticura Remedies, and recommend them to all suffering with eczema. Mrs. Eliza A. Wiley, R. F. He took a good many so-called blood remedies, and nothing did him good. Then we saw in a newspaper about Cuticura Remedies, and they cured him after using in all two sets of Cuticura Soap, Cuticura Ointment, and Cuticura-Resolvent, and now I wouldn't do without Cuticura Soap. A Fatal Sicas. Hugh Miller, the Scottish geologist ind writer, was one of the most illustrious of sleepwalkers. Miller, who had been addicted to somnambulism in his youth, found his restlessness return while he was engaged upon his "Tes-timony of the Rocks." He used to wake in the morning feeling, as he said, as if he had been abroad in the said, as it he had been abroad in the night wind, dragged by some invisible power and ridden by witches. On the night of his death he slept alone. In the morning they found him stretched dead on the floor with a hullst the dead on the floor with a bullet through his breast. He had written a note to his wife: "My brain burns. I must have walked, and a fearful dream rises upon me. I cannot bear the horrible thought. My brain burns as the recollection grows." So intense had been the poor fellow's anguish that to make certain his end he had torn back shirt and vest and placed the muzzle of the pistol to his naked flesh.—St. James'

Better Than Spanking

Spanking does not cure children of bed-wettings. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, 4, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child. The chances are it can't help it. The treatment also cures adult and aged people troubled with urine difficulties by day or night.

Newchwang. Feb. 12.—M. Konovaloff, Russian commissioner of custome, has gone to Harbin to arrange for the opening of custom houses along the Russian frontier at once. The Japanese are said to be causing a delay in the collection of customs at Dainy until the port of Newchwang is opened, in order to save duty of shipments by Japanese.

Good comradeship may count for much. No man ever typified this better than the Wall street broker who said to his friend the reporter: "I did not the collection of customs at Dainy until the port of Newchwang is opened, in order to save duty of shipments by Japanese. The Obliging Bankrupt. give you the figures."

A LIVING GHOST!

What Her Friends Said About Her

Read how Mrs. James Steele, Waterville, Que., was cured by the use of MILBURN'S HEART AND NERVE

PILLS she writes: "For the past fourteen months I was nervous all the time, and became so run down I was unable to walk across the heuse without getting dizzy. My friends told me I looked like a living ghost and advised me to try Milburn's Heart and Nerve Pills. I got two boxes and within weeks I had improved wonderfully and after finishing the fourth box I was completely cured. They are the greatest pills I ever used and I can recommend them to all sufferers. "

Milburn's Heart and Nerve Pills act directly on the disordered heart and nerves, and restore them to healthy action. They have no equal for reviving and atrengthening the heart beat, invigorating the nervous system, and acting as a food for the blood, improving its quality, making it rich and red.

THEATRICAL TEMPESTS.

The Way a Rainstorm is Produced on the Stage.

on the Stage.

Probably not more than one person m a hundred stops to consider how a rainstorm is produced on the stage. Few perhaps have ever given the subject any serious thought.

During the coming up of the storm there is seen vast clouds of dust, the wind blows a gale, and suddenly the rain comes down in torrents. It is an effect so natural that one almost imagines the elements are genuinely on

agines the elements are genuinely on the warpath. Yet, though the rain is real water, not a person is actually drenched, because the water comes fown at the very front of the stage,

from at the very front of the stage, while the players are well back and not at all exposed to its moisture.

It might be thought that to produce a storm many intricate bits of machinery would be necessary, yet such is not the case, for the simplest devices produce the effect desired. These are some gas alpos nunctured by myridds of heles. pipes punctured by myriads of holes, through which the water runs from small barrels, each about half full, at either end. The sound of the wind is made by a revolving barrel which touches a heavy piece of canvas in its rounds. The thunder effect is caused by the artistic manner in which a man beats a bass drum, and the gusts of dust are blown across the stage by an electric fan. The flashes of lightning come from an electric battery connected by wires which when placed in contact throw out the dazzling flashes. A metal plate, which had been specially prepared by first being heated to white heat and then scratched by a knife, is placed in a calcium light machine and gives the effect of lightning in the dis-

POETICAL DEATHS.

Welcoming the Grim Reaper With a Greeting in Verse.

There have been numerous instances of poetical deaths. The Emperor Adrian made a poetical address to his own soul as death was casting the seal of final silence over his lips, and Margaret of Austria while almost within the grasp of death in a terrific storm at sea calmly sat down and composed her epitaph in verse. The ship weathered the gale, however, and the epitaph was

Philip Strozzi when imprisoned and awaiting death on the gallows resolved to commit suicide. Before he killed himself he carved with the sword upon which a few minutes later he impaled himself the following verse from Virgil on the wall: "Rise some avenger" from my blood."

Patris, a poet of Caen, finding himself at the door of death, composed a poem, and De Barreaux, it is said, wrote while on his deathbed a well known sonnet which was soon afterward translated into English.

His Horse's Finish. "Dear me, cabby," said an old lady as she alighted from a four wheeler at Liverpool street station, "your horse's knees are bad."

The modern cook finds it much easier to bake than to roast. The spit dog has almost gone out of existence, and there is seldom any one in the kitchen to take its place. It follows very reasonably that any food cooked within a confined space will not be so digestible as that done before an open fire, where all gases have freedom to escape.—Country Life.

With Claw and Beak.

In a fierce fight with an American eagle, Jack Donahue and Frank Henry, two Dawson prospectors, nearly lost their lives on the Immachuck River, in the far north. The eagle was perched on a high bluff. Henry fired at it with a shotgun and the bird came tumbling down. Both men went to pick up the bird, but found it had only been stunned for a moment, and was full of fight. A terrific battle followed. The eagle took a grip of Donahue with his claws and of Henry with his beak. It bit a small piece out of Henry's breast and lacerated him in other places. Donahue had half his clothes torn from his body, and his face and body were severely clawed. Finally Henry managed to shoot the great bird dead. With Claw and Beak.

Her Sponge Cake. A young bride, after serving to her husband a Sunday dinner that was soso, said as the mince pie was brought on, "I intended, dear, to have some sponge cake, too, but it has been total failure." "How was that?" the husband asked in a disappointed tone. for he was fond of sponge cake. "The druggist," she explained, "sent me the wrong kind of sponges."
