The Difference Between Expert and Unskilful Tea Blending

THE qualities of different teas prove that there is a distinct difference between expert Red Rose blending methods and the usual methods.

Several kinds of teas may be blended, but if unskilfully selected they will not combine to make a perfect blend; they will retain their original individual characteristics with their roughness and harshness emphasized.

Such tea is bitter, poorly flavored in the cup (and there is much of it in bulk and package form on the market). It emphasizes the result of inexperience, lack of knowledge of combining qualities of different teas, imperfect blending, poor selection, and the hundred and one other causes of poor tea.

But my expert Red Rose blenders select the right grades of strong, rich Indian teas and delicate fragrant Ceylon teas, and produce Red Rose Tea with entirely new characteristics-a tea with that "rich fruity flavor -a tea so exquisitely different and better than any brand of Ceylon alone, that no one who once tries it ever goes

"You have perhaps wondered how the expression 'so long' came to be so generally used by the American peo-ple," said a Columbia college lecturer the other day. "It is usually used in closing a conversation and is simply a form of 'goodby.' The Norwegians brought it to this country. In that Land of the Midnight Sun 'saa laenge' is a common form of farewell. It means the same as the 'auf wieder-sehen' of the German or the 'au revoir' of the French. Among the early set-ters in America were many Norwegians, and the phrase was picked up rom them. They pronounce it with the g softened and accompany it by a

Rest is the sweet sauce of labor.

What is an edition? Does it consist of 1,000 volumes or of 500 or 50 or 5? The word is not a technical term like "gross" or "dozen" or any like expression bearing a fixed numerical significance, and there is of course no reason why it should not mean anything from the lowest to the highest of these num bers, according to the taste and fancy, or it may be the tactics of the particular publisher who employs it. We know what is meant when we read that a new novel is "in its twentieth thousand," whereas the statement that it is "in its forty-fifth edition" conveys to us simply no information at all. PLANNING A NEW HOME

Details That Reduce the Friction of Household Machinery. Have an elevator in the back part of

the house large enough to carry a trunk. You may be saved the irritation of having a piece taken out of your new wall and the banister scratched and broken by a careless baggageman in his efforts to carry a trunk downstairs. Run by an arrangement of ropes and pulleys, it need not be an

expensive affair.

Have an "upstairs back porch" where bedding can be aired. Much back breaking work carrying blankets and pillows up and down stairs will be saved. One end screened with wire netting and furnished with a comfortable hammock or cot might mean a restful sleep on a hot summer night. Have an electric light in each clothes

closet. A press of the button will light the darkest corner. Hurried gropings in a dark closet in a frantic search for a missing garment are not conducive to a tranquil mind. Have a short carpenter put up the

hooks. Judging from the way I have had to stretch my arms to reach clothespress hooks, I am sure the tallest carpenter must always be selected to put them up.

Bureau drawers in which to keep underclothing are not ideal. They have an exasperating way of getting filled up and when pulled open carry the nicely ironed garments down behind the drawer to be forgotten perhaps, anyway to be dragged out rumhaps, anyway to be dragged out rum-pled and dusty. Have a case of shelves not too high. Have daintily padded and scented covers for the shelves, on which shall repose neatly folded garments, a glance showing just what you want. Leaded glass doors lined with silk the prevailing color of the room will keep out the dust and be the room will keep out the dust and be an ornament to the room.-Good Housekeening

shape. On to this the vest is first arranged; then the material is gathered both back and front, the prettily curved bertha collar being finally fixed in its position. At the back a V shaped piece of lace is arranged to correspond with the vest in front, the little frock fastening with hooks and eyes the center

Nut Cookies.

Cream two teacupfuls of sugar with half a teacupful of butter, add half a teacupful of milk, a teacupful of chopped hickory nut meats, two beaten eggs, a heaping teaspoonful of baking powder sifted with flour enough to make a soft dough. Roll, not too thin, cut with a small sized cutter and bake.

Curried Fish.
Free one pound of fish from skin and bones, chop an onion and put with a tablespoonful of butter in a frying pan, adding a tablespoonful of curry pow-der. As soon as the onion is cooked add the fish and cook five minutes, and serve in a border of rice.

Notes From Jewelers' Circular. One large marquise shaped diamond ornaments a diamond studded hoop in striking ring.

Not only in small, open face chatelaine watches, but in large watches, very thin, flat models are shown. A handsomely chased openwork bor-der, surrounding an oval in Roman

gold, with a diamond in the center, forms a novel pattern in sleeve links. The furore for bracelets results in extremes, so to speak, as to width. For the girl who affects the tall, svelte style there is the slightest of gold chains, with a diamond heart as a charm, or the narrowest of diamond

Rose gold is employed in new models in wide bracelets, handsomely chased and set with gems. Gold braid is simulated in half inch bands with the brace-let catch under a rosette formed of the braid, and many other novel styles are

A Use For the Tires. An automobilist traveling through Castile, in Spain, came out of an inn one day to find his automobile surrounded by the population of the whole village, who were gazing at it with much interest and examining the back wheels, out of which large lumps had just been cut. The damage had been caused by the mother of a large family, who artlessly confessed that, seeing so much rubber on the wheels, she had cut a few pieces out to make toys for her children

WEARY DAYS AND SLEEPLESS NIGHTS

Many men and women toss night after night upon sleepless beds until near dawn. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Worry or disease has so debilitated and irritated or disease has so debilitated and irritated the nervous system that it cannot be quieted. Or, again, you have heart palpitation and sensation of sinking, a feeling you are going to die; or perhaps you wake up from your sleep feeling as though you were about to choke or smother, and rest leaves you for the night. Allow these cenditions to continue and you will feel your health declining.

It is the nerves and heart that are not acting properly.

acting properly. They can be set right by the use of

MILBURN'S HEART AND NERVE PILLS

They soon induce healthful, refreshing sleep, not by deadening the nerves, but by restoring them to healthy action and removing all symptoms of heart trouble, which is often the cause of nervousness and

aleeplessness.

Mrs. Ennis Chambers, Massey Station, Ont., writes: "I was troubled with dizziness, weak spells and fluttering of the heart. I was so bad at times I could not lie down in bed at nights but would have to sit up. I doctored for a whole year and got no relief. I took three boxes of Milburn's Heart and Nerve Pills and was so completely cured I have not been troubled since. I cannot recommend them too highly."

The TERRIBLE PANGS OF DYSPEPSIA CAN BE CURED

To be dyspeptic is to be miserable, hopeless, confused and depressed in mind, forgetful, irresolute, drowsy, languid and useless.

Constipation, headache, heartburn, sour stomach, distress after eating, belching of wind, faintness, and fullness and distention of the stomach are a few of the many distressing symptoms of the poor, weary dyspeptic. Dyspepsia is a disease that in one way

or another resembles nearly every other disease, and the only way to get rid of it is to tone up the stomach, liver, bowels and blood. This will be quickly done by the use of

BURDOCK BLOOD BITTERS

It regulates the stomach, stimulates the secretion of the saliva and gastric juice to facilitate digestion, removes acidity, purifies the blood, and tones up the entire

Mrs. M. A. McNeil, Brook Village, N.S., writes: "Last winter I was very thin and was fast loosing flesh owing to the run down state of my system. I suffered from dyspapsia, loss of appetite and bad blood. I tried everything I could get but to no purpose. I finally started to use Burdock Blood Bitters, and from the first day I felt the good effects of the medicine and am strong and well again. I can eat anything now without any ill after effects. It gives me great pleasure to recommend Burdock Blood Bitters, for I feel it saved my life."
