

WEATHER PERILS

may be defied if you use Peps. As a Peps tablet is dissolved in the mouth, powerful medicines are released in the form of healing fumes. These are inhaled with the breath and come into direct contact with the bronchial tubes and lungs in a way that medicine swallowed into the stomach cannot possibly do. By this direct action, Peps not only strengthens and protects any weak spot in chest or throat, but give immediate relief to those suffering from bronchitis, asthma, night cough, etc. All dealers or Peps Co., Toronto, 50c. box, 3 for \$1.25.

A Pine Forest in Every Home

PEPS

FOR COUGHS, COLDS, BRONCHITIS

THERE IS ONLY ONE GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

If you don't see the "Bayer Cross" on the tablets, refuse them—they are not Aspirin at all. Your druggist gladly will give you the genuine "Bayer Tablets of Aspirin" because genuine Aspirin now is made by Canadians—owned by a Canadian Company.

There is not a cent's worth of German interest in Aspirin, all rights being purchased from the U. S. Government. During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. But now you can get genuine Aspirin, plainly stamped with the safety "Bayer Cross." Aspirin proved safe by millions for Headache, Toothache, Earache, Rheumatism, Lumbago, Colds, Neuritis, and Pain generally. Handy tin boxes of 12 tablets—also larger "Bayer" packages.

MINARD'S "KING OF PAIN" LINIMENT

Extract from a letter of a Canadian soldier in France.

To Mrs. R. D. BAMBRICK:
The Rectory, Yarmouth, N.S.

Dear Mother:

I am keeping well, have good food and well protected from the weather, but have some difficulty keeping uninvited guests from visiting me.

Have you any patriotic druggists that would give something for a gift overseas—if so do you know something that is good for everything? I do—Old MINARD'S Liniment.

Your affectionate son,
Ron.

Minard's Liniment Co. Ltd.
Yarmouth, N.S.

Over A Billion Saved By People

The bank statement for August supplies encouraging evidence of the promising manner in which Canada is tackling her problem of economic adjustment. It shows that deposits in savings banks have gone up \$181,921,066 compared with August last year, and this notwithstanding the fact that a considerable portion of the \$600,000,000 raised by the Victory Loan last year represented savings deposits.

The figures for August show a total of \$1,196,622,931 and the depositors in savings banks are thus in the happy position of being able to subscribe the \$300,000,000 asked for during the present Victory Loan campaign almost four times over.

With such gratifying evidence of prosperity as these figures furnish the success of the new and final Victory Loan should be outstanding.

Business Grows Across Country

Indicating the growth of business in all parts of Canada, September bank clearings this year show an increase of 39.9 per cent. over September of last year. The total of September this year was \$1,361,897,712, with an increase of \$383,974,272.

Bank clearings are considered a good index of general conditions, for they may be taken as representing turnover in trade.

Winnipeg, in September, showed an increase of 92 per cent. Toronto, 37 per cent., Montreal 28 per cent., Windsor 124 per cent. Léthbridge, which is in a district suffering from a local drought was the only city to make an unfavorable showing.

The considerable increase in clearings is considered a very good token of success for the Victory Loan. Such a noteworthy improvement in business is worth maintaining, and a bumper Victory Loan would accomplish that end.

Seed Grain Distribution

The annual free distribution of samples of seed grain is being conducted at the Central Experimental Farm, Ottawa, by the Dominion Cerealist.

The following kinds of seed grain will be sent out this season:—

Spring Wheat (in about 5 lb. samples), White Oats (about 4 lb.), Barley (about 5 lb.), field peas (not garden peas) (about 5 lb.), field beans early ripening, only for districts where the season is short (about 2 lb.), flax for seed (about 2 lb.), and flax for fibre (about 2 lb.).

Only one sample can be sent to each applicant.

Applications must be on printed forms which may be obtained from the Dominion Cerealist at any time after Sept. 1st.

As the stock of seed is limited, farmers are advised to apply early to avoid disappointment. No applications forms will be furnished after Feb. 1st, 1920.

SUNNY CORNER

Sunny Corner, Oct. 18—Mr. Ross Mullin in St. John the 13th and 14th of October.

Miss Alice Burns has gone to Newcastle for a few weeks.

Mr. and Mrs. LeRoy Morrison spent Sunday at Sunny Corner the guests of the latter's parents.

Miss Mary Nolan is visiting her sister Mrs. William Nolan in Red Bank.

Mrs. George Matchett and son Courtney of Nelson are visiting friends and relatives here.

Miss Stella Mullin spent the latter part of last week in Newcastle attending the teacher's institute.

Colonel J. Sheridan was a visitor here on Thursday.

Mrs. A. McLean's many friends will be sorry to learn she is still on the sick list.

Mrs. Agnes Murphy was in Lyttleton for a few days last week.

Miss Bernetta Johnston who is attending Harkin's Academy in Newcastle was home for the week end.

There was a worthy old priest who was noted for never giving a direct "Yes" or "No" in reply to a query. It was always, "That depends." His big hop tried to pose him one day by asking whether it was lawful to baptize with soup? But the priest was equal to the occasion. "That depends. If with soup as we are eating at your table, monsieur, it would doubtless be wrong; but if with such soups as is usually served to us poor cures, and which differs but little from water, it might be permissible."

HELPLESS WITH RHEUMATISM

Until He Took "Fruit-a-lives" The Fruit Medicine

R. R. No. 1, Loxne, Ont.
"For over three years, I was confined to bed with Rheumatism. I treated with doctors, and tried nearly everything without benefit. Finally, I tried "Fruit-a-lives". Before I had used half a box I saw improvement; the pain was easier and the swelling started to go down. I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place".

ALEXANDER MUNRO.
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

Harvesting Roots for Seed Growing

The last few years' experience has taught us that field root seed raised in Canada compares very favourably with imported root seed and under the circumstances it would be to the interest of farming, were more root seed produced in Canada than there is at present.

It should be clearly understood, though, that the value of root seed produced in this country depends to a very great extent on the quality of roots from which the seed is to be raised. The roots set aside for seed production should represent a uniform type, that is to say they should be of the same general shape and of the same colour. If they are of mixed types, as far as shape and colour are concerned, they are liable to produce a class of seed which, when sown, will in turn give rise to a crop of a mixed, and on that ground inferior, quality. It is therefore of paramount importance that roots which are to be used for seed production be as uniform as possible. They should of course also be perfectly sound and free from diseases.

It is of less importance of what size they are, but, generally, medium-sized roots are to be preferred because, as a rule, they keep better in storage during the winter and therefore are apt to produce healthier and more vigorous seed plants.

The roots which are selected for seed production should be handled very carefully and all bruised roots should be rejected. In the first place, roots that are bruised, or cut, or broken in harvesting, may not during the winter and, in doing so, may cause damage to the sound roots stored with them. And, besides, even should they come through the winter, they will most likely produce weak seed plants, unable to form and ripen seed of best quality. Roots selected for seed production must, therefore, be stored away intact; that is to say, their lower ends and rootlets must not be cut off, as is done when roots are harvested for feed.

Roots that are expected to develop seed bearing stalks after having been stored during the winter must not be topped too closely. Remember that the seed stalks sprout from the crown of the roots. It follows, then, that if the roots are topped so closely that their crowns are cut off or injured, there will be no chance of any seed stalks developing. Consequently, roots selected for seed production must have their crowns perfectly intact. And for this reason it is recommended that all roots selected for seed production be topped well above the crown, say anywhere from half an inch to two inches, so that their ability to develop vigorous seed stalks may not be impaired.

The roots selected should of course be stored in the best manner possible so that losses through rotting during the winter may be avoided. The storage methods are many and vary with the winter conditions. In case there is any doubt as to the best manner of carrying the roots through the winter in a satisfactory condition, the undersigned will be pleased to render advice based upon years of experience.

10 CENT "CASCARETS" FOR LIVER AND BOWELS

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascares. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and head clear for months. They work while you sleep.

Canada Must Rely On own Resources

The necessity of Canada relying upon her own resources in meeting the problems of the period of reconstruction, now that the money markets to which the Dominion has had resort in the past are closed, is emphasized by Sir Robert Borden in a letter he has written to Sir Henry Drayton, Minister of Finance, in connection with the Victory Loan 1919. The Premier gives unqualified endorsement to the new loan.

His letter follows:

Ottawa, Ont.,
18th September, 1919.

My dear Sir Henry Drayton:—

I hope the people of Canada will fully realize the extreme importance of making the present Victory Loan a complete success.

The necessities of the country involve a very heavy expenditure in demobilization, in the payment of the liberal war gratuity authorized last December, in carrying out the arrangements for the Civil reestablishment of returned soldiers and in providing for settlement upon the land. As Sir Thomas White pointed out in his Budget speech, the present fiscal year, for this season, is a year so far as expenditure is concerned. The exportation of our surplus food products and other staple commodities must be maintained and, pending the return of normal financial conditions, the Government is called upon to establish necessary credits for this purpose.

The money markets of the world to which we have had resort in the past are closed and it is entirely necessary to rely upon our own resources. They are ample for the purpose of providing the country with the amounts necessary to carry on its affairs. The security offered by a Canadian loan is second to none in the world; and every citizen who contributes his quota aids in stabilizing and maintaining the credit of his country.

I send you my best wishes that the loan may be highly successful.

Faithfully yours,
(signed) R. L. Borden

The Hon. Sir Henry Drayton,
Minister of Finance,
Ottawa.
