RECKLESS MOTORING

A number of automobile accidents
are reported during the week-end,
and as far as can be learned they
are all due to reckless driving. In
one case two cars were badly smash-
ed and the occupants more or less
injured, while in another the car
was a wreck, badly broken and one of
the occupants severely hurt. A
number of our citizens are beginning
to wonder if we have a Traffic
Law, because if there is, there pos-
sibly is no notice taken of it,
either by a large number of car
drivers or by the authorities who
are supposed to see that the law
is properly carried out.

It is the duty of our Police Com-
mittee to see that this reckless and
fast driving is immediately prohib-
ited, as we have arrived at the
point when it is absolutely unsafe
for our citizens to either walk or
drive on our streets.

A DANGEROUS PRACTICE

Our attention has been drawn to
the practice of a number of the pat-
rons of the Newcastle Opera House,
in lighting matches during the per-
formance. This practice is one
which should be immediately stop-
ped by the authorities, and the
guilty ones severely rebuked. This
habit is not only one of annoyance
to the audience but also one of
great danger.

It appears that if a hat, cap,
glove or any other part of wearing
apparel falls on the floor, the meth-
od of securing same is aided by the
ignition of a match which is
held close to the floor, thus provid-
ing light. Should this ignited match
come in contact with pocket bags,
or a ladies dress, the result is easily
imagined. Thoughtlessness on the
part of those who do these actions
should not be countenanced, when
the grave possibilities are so appar-
ent. Any of our citizens who have

had the unfortunate experience of
being in a public place on a theatre
when a fire occurred will readily
understand the danger which the
patrons of our local amusement
house are subject to. Many instan-
ces of large conflagrations in public
houses, resulting from an ignited
match are well known, and usually
in cases of this kind the lives of the
audience are in great peril, and very
often the loss of life is enormous.
Newcastle, so far has been fortunate
in not having any such spectacle,
but there is the possibility of its
occurring if this present habit is con-
tinued. Women and children are the
frequenters of our local Opera
House in a much larger proportion
than our male population, and it is
well known that in the event of a
fire taking place, they are very
liable to become hysterical and un-
manageable. Those who are respon-
sible for lighting matches should
take into consideration that pos-
sibly their mother, sister or child
may be in some other part of the
building, and should not place them
in the precarious position which we
have already described. We trust
that this habit will be immediately
stopped before some more unfortu-
nate accident occurs.

WHAT IS BEING DONE?

We had a call yesterday from a gen-
tleman, who is one of the largest em-
ployers of labor in the upper districts
of the Miramichi, and while con-
versing he asked us the question: "What
is being done, regarding the develop-
ment of Water Power at the White
Rapids?" It was impossible for us
to give him any information concern-
ing his question, and we thought that
possibly if we were to ask the ques-
tion in the public press, someone
who was conversant with the enter-
prise might give us the desired in-
formation. This matter affects to a
large degree, not only our own town
but the whole Miramichi district, and
is one that should not be lightly
overlooked. If anything along the
lines of development is being done
the public should be acquainted of
it, and if on the other hand, nothing
is being done, then the public should
look into the matter and ascertain
what the trouble is. If those, who
have the project in hand, do not pur-
pose completing their proposed dam,
then they should forfeit their fran-
chise and allow some one else to
take the matter up. If they intend
to continue the work to completion
then the public should be advised of
that fact and they will then feel as-
sured that the project is not being
held up.

The idea should be to waste no
further time in promoting this water
power development, because if one
party fails to perform the work,
there is no necessity for the commu-
nity to waste two or three years, be-
fore they relinquish their franchise
and thereby give an opportunity for
some other party to take the pro-
ject up. Procrastination is one of
our great troubles, and we should
endeavor to get free from this com-
munity disease. We hope some one,
who knows, will answer our ques-
tion, so we may be able to pass it
along to the anxious public.

ACTING GOVERNOR GENERAL

Charlottetown Guardian: Sir Louis
Davies has received a letter from His
Excellency the Governor General
stating that he left Ot-
tawa Tuesday, on an eight-
week's trip to the Northwest
and asking Sir Louis to assume his
duties during his absence. This
will necessitate the return of Sir
Louis to Ottawa at an early date.

OBITUARY

MRS. JAMES HARRIGAN

The death occurred at Chelmsford
on the 2nd inst. of Mrs. Jas. Harri-
gan after an illness of some months.
The deceased was in her 61st
year and was formerly Miss Casey
of Burnaby River and is survived
by three brothers and two sisters
of that place, also her husband and
the following sons and daughters,
P. Farrigan, Dauphin, Man. J. John,
Oak Point; Leonard at home and
M. B. of B. C. Mrs. John Hackett,
Miss Susie, Chelmsford; and St.
Mary Ger 11, St. Vincents Convent,
St. John.

The funeral took place on Sunday
afternoon at St. Edward's cemetery
services being conducted by Rev.
Fr. Cyr.

PRESBYTERY MEETING

The Presbytery of Miramichi meets
today in St. James' Sunday School
Hall.

OCTOBER RACES ON CHATHAM TRACK

(St. John Standard)

One of the directors of the Chat-
ham Speedway, which holds many
Canadian records, was in the city
yesterday. He said there was a
possibility of a race meeting being
held in the North Shore town in
early October, probably after the
Charlottetown exhibition races. It
had been the original intention to
hold a meeting during Labor Day, but
this had to be cancelled. The weather
is always glorious in Chatham
during the month of October, and
the racing, if it materializes should
meet with favor from horsemen.

NEW PROFESSOR FOR THE U. N. B.

Fredericton, N. B., Sept. 11.—The ap-
pointment of Prof. P. Colomb
of France, to succeed Prof. J. A. Spauld-
ing, who retired at the close of the
last academic year as professor of
modern languages at the University
of New Brunswick, was announced
this morning.

With this appointment the facul-
ty is complete. Prof. A. K. Baird
having recently been appointed to
succeed Prof. C. B. McGinnis, who
has gone to Temple College, Philadel-
phia.

Rev. Mr. Robinson Denies Rumor of Appointment

The name of Rev. W. R. Robinson
has appeared recently in connection
with the position as chief liquor in-
spector for the province, but that
there is no foundation for this re-
port was a statement made by Rev.
Mr. Robinson on Saturday. He said
he had never intimated this and ad-
ded that he would not accept the po-
sition under any circumstances, but
in this case it had never been offer-
ed to him.

"BUY AT HOME"

COULDN'T BE HAPPY.

"Your wife says she is entirely
happy," said the spiritualistic me-
dium.
"I don't see how that can be," re-
plied the man.
"She is in heaven," replied the me-
dium. "There she would naturally be
happy."
"I don't think so," replied the man
stubbornly. "I don't see how she could
ever be entirely happy without me
being around to find fault with."

Before Starting Work.

"Well, come down to the shop to-
morrow morning and I will put you to
work."

"To-morrow? I couldn't possibly
come until the day after."

"Why?"

"Why, tomorrow I must take part
in the great demonstration of protest
of the unemployed."—Life.

The Formalities.

"Obsecrity has some slight advan-
tages."

"For instance?"

"So long as a man remains incor-
poreous he doesn't have to bother
about composing a letter of resig-
nation. He can simply quit and look
for another job."

IN DENVER
"Do you believe that anyone could
be so stupid as to believe that the
world is flat?"

Men's Fall Caps

They are here in the most select styles and patterns—the
pick of the "Eastern" and "Peck" factories. Prices are

Paris" and other domestic and American makes. All colors—all new styles and
qualities that are known everywhere to give perfect satisfaction.

Prices range at \$4.00, \$5.00, \$6.50, \$7.00 to \$10.00

J.D. Broughn & Co.
LIMITED

Sun Dance Lodge at Toronto

Toronto can always count on the
C.P.R. to provide a unique and at-
tractive exhibit for the Toronto
Fair, and this year if anything the
C.P.R. Exhibit has surpassed all
previous records for originality and
artistic execution. In order to
visualize the romance as well as the
majestic scenery of the Canadian
Pacific, a Sun Dance Lodge
based upon a Stony Indian model has
been reconstructed and decorated
with Indian relics and sporting
trophies—fine heads and priceless
skins. The exhibit is under the di-
rection of Mr. Norman Luxton,
editor of the "Crag and Canyon" of
Banff, who has spent most of his
life on the trails and passes of the
Rockies, camping, fishing and hunt-
ing, and who is also an authority on
Indian art. He is assisted by his
wife, daughter of the late Rev.
John McDougall, one of the earliest
missionaries in Western Canada, and
carrying the first white woman born
in Alberta.

The first thing noticed on enter-
ing the C.P.R. Exhibit is the huge
structure which shows its rays
around the gigantic Lodge in which
are housed the 1000-ton model
trains in miniature form some of
the gorgeous settings which make
the Canadian Pacific Rockies
one of the most beautiful and
picturesque spots in the world.
The exhibit is a masterpiece of
artistic execution and is a true
reflection of the grandeur of the
Rockies and the Canadian Pacific.

On each side of the
entrance, office accommodation has
been worked into the setting where
information of every description can
be obtained and telegraph service
is also installed. This has the types
of Indian relics and Indian relics
transported from the West for the
purpose have been used. The light-
ing effect of these interiors with
miniature Indian spears as shades
produces an effect of entrancing
beauty.

The scene from Sulphur Mountain
overlooking Banff Springs Hotel in
the foreground, and the beautiful
Rundle and Tunnel Mountains, and
the stretch of the Bow River in the
background is highly realistic. A
fine model of the C.P.R.'s famous
hostelry built specially for the oc-
casion is shown electrically illumi-
nated and gives the visitor the im-
pression that he is paying a visit
to Banff instead of sweltering under
the atmosphere of an exhibition.

The Banff Hot Springs, famous for
their health giving qualities were
known to the Red men long years
ago and accidentally discovered by
some engineers when surveying for
the C.P.R. The huge swimming tank
hidden from the view, but situated
directly in front of the hotel has a
depth of water of from three to
eight feet, and is one of the great
attractions of the Banff Hot Springs.
The Banff Hot Springs are situated
on the west side of the mountain
and are of an oval shape, the water
is green color, and is very changing
from the summer to the winter.
The scene is a true reflection of the
grandeur of the Canadian Pacific
and the Banff Hot Springs are a true
reflection of the grandeur of the
Canadian Pacific.
