

THE HERALD

WEDNESDAY, MAY 16th, 1901. SUBSCRIPTION—\$1.00 A YEAR, PUBLISHED EVERY WEDNESDAY JAMES McISAAC, Editor & Proprietor.

Lines and misrepresentation seem to possess extraordinary attractions for the fellow who at present occupies the position of editor of the Patriot. In his bitter partisanship he gropes along as blindly as a bovine with a board over his eyes. But what better could be expected from a malignant idiot?

The Legislative Session

As will be seen by reference to another column, the Legislative Session was brought to a close with the usual formalities, on Friday afternoon last. Being assured of the additional subsidy from Ottawa the Government were in a tremendous hurry to close up the business of the session. It was all right in the opinion of the Government to waste weeks of the earlier portion of the session, in consequence of unpreparedness on their part to go on with the business of the Province; but when the windfall from Ottawa dropped in their direction, they became very courageous and everything went on with a rush. The Government's conduct towards the Opposition during the debate on the budget was, to say the least, contemptible. But it was only a repetition of the tactics of former sessions. The number of the Opposition members is only seven and it would naturally be expected that they would be afforded every reasonable measure of fair play in the discussion of public questions; but such was not the case. On the second day of the debate, after the Leader of the Opposition, Mr. A. J. McDonald and Mr. Arseneault had spoken, Mr. Simpson had the floor at six o'clock and was expected to finish his remarks during the evening sitting when he would be followed by Mr. Mathieson or Mr. McLean, who were the only members of the Opposition likely to speak. But let us see what happened. Mr. Simpson spoke a few minutes after the House met in the evening and adjourned the debate. The House then occupied itself with the consideration of some small bills. Are we to assume that the Government's case was so bad that they were afraid to hear it exposed in the presence of the spectators in attendance during the evening? Such tactics, in view of the relative strength of the Government and Opposition, are nothing short of contemptible and constitute the strongest possible argument that the Government position is untenable. Although they did shut off discussion on Wednesday night, they did not escape well merited and scathing criticism at the hands of Mr. Mathieson at a later stage of the debate.

We publish elsewhere the Premier's estimates of expenditures and receipts. He estimates the expenditures for the year at \$314,274, and the receipts at \$314,581, and thus figures out an estimated surplus of \$307. But surely the people of this Province have become so accustomed to estimated surpluses and actual deficits on the part of our Liberal friends for the past ten years that they will not take the Premier's figures seriously. The figures that he has presented constitute the strongest presumptive evidence of a very considerable deficit. To begin with he places in the estimated receipts the sum of twenty-six thousand dollars to be obtained from the sale of debentures. Now, the Government will either sell these debentures or they will not. If they sell them they will thereby add twenty-six thousand dollars to the debt of the Province. If they do not sell them they will have twenty-six thousand dollars short in the money they expect to receive; consequently whether they sell them or not they will have a shortage of \$26,000. It will thus be seen that the Government start with an admitted deficit, on the year's transactions, of \$26,000. Then the Government place in the estimates the sum of \$21,000 for roads; but it is more than likely the roads will cost at least \$35,000. That means an additional deficit of \$14,000. For bridges the Government estimate \$12,000; but this item of expenditure can scarcely fall below \$20,000. Last year very near \$20,500 were spent for bridges and it is difficult to understand how it can be less this year. The probabilities are it may be considerably more; but putting it at \$20,000,

we shall have \$3,000 more added to the deficit. In these three items alone the Government are likely to have a deficit of \$48,000. Any one can see that, judging by the past, this is a moderate estimate of what this year's deficit is likely to be. Besides these there are other items that will add to the deficit; but on these alone the Government are likely to come out all the way from forty to fifty thousand dollars short.

The hottest part of the budget debate was that which referred to the matter of debentures and the Premier's sensitiveness on this point showed that he felt he was on somewhat slippery ground. Mr. Mathieson pointed out that the Government's action in taking \$12,000 of the sinking fund and using the money as ordinary revenue, putting debentures in its place, was a very improper thing to do; that it was a breach of faith with the bond-holders. The sinking fund was a collateral security for the holders of the debentures, and the Government by removing that collateral took away an element of security which these holders supposed they had when they purchased the debentures. Mr. Mathieson pressed home this argument so strongly that the Premier was forced to make several attempts at explanation. But the explanations did not appear to make matters any clearer, and when Mr. Mathieson asked him why the sinking fund clause was put in the debentures, if as the Premier's present contention indicated, it could be ignored at pleasure, the Leader of the Government answered that it was put there "to make the debentures sell better." Are we to understand from this that the holders of these bonds were acting under a delusion when they purchased them thinking they had a collateral security in the shape of a sinking fund? The Government seem to depend on debentures to cover up all their financial short comings. When the revenue falls short of the expenditure they sell debentures to balance the account and call their product ordinary revenue. This is a most vicious principle of finance, and that the Government themselves are conscious that it is such is evidenced by the fact that in their memorial to the Federal Government the \$22,000 received last year for debentures was not included. By this disclosure the Government have unwittingly shown their hand.

When the bill to ratify the payment of \$30,000 a year by the Dominion Government to the Provincial Government, in the form of an additional annual subsidy, was up for discussion the Opposition contended that the amount was not sufficient compensation for the loss sustained by the Province in consequence of the non-fulfillment of the terms of Confederation regarding winter communication. In pursuance of this contention they moved an amendment to the effect that the amount should not be accepted in full settlement; but as a payment on account. This amendment was voted down by the Government.

At the tail end of the session the Government introduced and passed a bill amending the converted elections act. The principal provisions of this enactment are that a cash deposit of \$800 shall be made with the Prothonotary when an election protest is filed, instead of a bond of \$600, as at present, and that the act in this particular, be retroactive, so as to include all election protests now pending. In these cases the protests shall be void unless within ten days from the passage of this act each of the security bonds be replaced by a cash deposit of \$800. The act would also appear to place a premium on wrong-doing by making it more difficult to discover and punish corrupt practices, as the following section shows:

"No respondent shall be unseated for corrupt practices committed by agents without his privacy or consent unless it be clearly established at the trial of the petition that a sufficient number of voters were influenced to vote for the respondent by the corrupt practices as aforesaid proved at the said trial, to have changed the result of the election of the respondent. THIS SECTION SHALL APPLY TO THE TRIAL OF ELECTIONS NOW PENDING."

The untenableness of the position assumed for the most part by the Government throughout the debates, and their inability to buy it up by any valid argument was made manifest by their propensity when put in a corner, to accuse the Opposition of equally heinous political crimes when they were in power. That is a remarkable line of argument for a Government with such a strong follow-

ing to take. It is childish and ridiculous in the extreme. It is the "you are another" style of discussion sometimes heard among school children, when they fall out. Suppose, for argument sake, we were to admit, that the Conservatives when in power were guilty of the charges against them (which we do not admit,) would that be any argument in favor of wrong-doing by their Grit successors in office? This is an admission on the part of the Government supporters that they are willing to imitate whatever they consider politically wrong in their opponents, while refusing to extol their good actions. A remarkable admission surely, for a party that claims to be possessed of all the political virtues. How long more will it take the people of this Province to penetrate the full extent of Grit political hypocrisy?

Hon. George W. Howland

We deeply regret to announce the death of Hon. George W. Howland, which occurred at the Hotel Davin on Saturday evening last. Since his return to the Island about a year ago his health had been gradually failing until the end came as above stated. The Hon. George William Howland was born in Waterford, Ireland, in 1835, and came to this Province, with his parents when still a boy. Shortly after coming to Charlottetown his father died. Notwithstanding the difficulties surrounding his young days, he secured a fair good education, terminating his school days in the Central Academy. Early in life he secured a clerkship in the store of Henry Hazzard, in this City, and was afterwards a clerk in a store at Alberton. He did business in Charlottetown for a time and subsequently carried on an extensive mercantile business at Alberton. In 1862 he was elected to the House of Assembly, and continued to occupy a seat there till 1873, when he was appointed Collector of Customs at Charlottetown. During his years in the Assembly he was for a time a member of the Ooles Government and took an active part in the settlement of the Land Question, the P. E. Island Railway and other important matters of legislation. He was sent as a delegate to Washington to settle a fishery difficulty and in 1873 was one of the delegates to Ottawa to arrange the terms upon which the Island should enter Confederation. In 1873 he resigned his position as Collector of Customs to contest Prince County for the House of Commons, at the first Dominion general election in this Province. He was defeated by a few votes, but was called to the Senate the same year. In 1894 he was appointed Lieutenant-Governor of this Province, a position he held till 1899, and the duties of which he discharged efficiently and popularly. While in the Senate he was an ardent advocate of tunneling the Straits of Northumberland, as a means of constant communication with the mainland. He persevered in the advocacy of this project until the matter was proved to be feasible, the only difficulty being the question of cost. Mr. Howland was twice married. First to Miss Oulton of St. John, who died in 1876, and in 1881 he married Miss Moran, of Kingston, Ont., who survives him. Mr. Howland was a whole-souled, sociable warm-hearted man. As a public man he had a wonderful grasp of important questions, was well-informed and was in his day one of the best orators in this Province. His interment took place at Tignish yesterday. The body was taken from the Hotel to St. Dunstan's Cathedral early in the morning, and a Solemn Mass of Requiem was celebrated at half-past six, by Rev. Dr. Morrison, assisted by Fathers Johnston and Campbell as deacon and sub-deacon and Reverend Dr. Monaghan as Master of Ceremonies. After Mass and the Libera the remains were removed to the hearse and conveyed to the railroad station, followed by a large concourse of people. The pall-bearers were, Lieutenant Governor McIntyre, the Chief Justice, Judge Warberton, Judge Rodin, Thomas Handrachs, John McEchern. The Benevolent Irish Society with band proceeded by the regular train to Summerside and thence by special train to Tignish. His Lordship the Bishop officiated at the services at Tignish. To Mrs. Howland we tender our sympathy in her sore bereavement. R. I. P.

THE VALLEYFIELD STRIKE

On Tuesday the Valley Field strike was again before Parliament. Mr. Monk appeared with affidavits which substantiated all he said on the 3rd of April and showed ample grounds for an enquiry. There can be no doubt that a man named Bertrand employed on the canal busied himself in the election and in having the Militia called out and that there would have been no riot had not the Militia been called out; that King, the Deputy Minister of Labour went down and gave the go by to the Conservatives, but consorted with the Liberals, and generally that very bad conduct was witnessed, all motivated by a concerted plan to beat Mr. Bergeron.

WEST HASTING'S VACANCY.

No Government in a constitutional country has ever trifled to the same extent with the privileges and rights of the electorate as the present one. On the 3rd of April the Speaker informed the House that a vacancy had occurred in West Hastings. Now it is getting well into May and nothing done; on the 8th Mr. Northrup called attention to this and asked why it was that a writ had not been issued. But the only satisfaction he gets from Sir W. Laurier is the answer—that the writ will be issued without undue delay.

THE CANADIAN FLAG.

As an instance of incompetence—for ignorance is incompetence—the reply of Sir Louis Davies to Mr. Kaulback respecting the British Consul's action at Bahia, in making the Captain of the "Canada" to haul down the Canadian ensign, "takes the cake." Sir Louis did not know that there are Imperial rules and regulations respecting these matters. The ship of a colony has to fly the red ensign, but with this she can fly distinguishing flags with the badge of the colony.

LEASING RAILWAYS IN MANITOBA.

Everybody has heard the Manitoba railway deal. It is before this Parliament for approval. Puttee of Winnipeg moved the referendum to the people of Manitoba, Richardson supported him—not a member of the Government had the courage to say a word on the subject, for which their guardian friend Bourassa rated them roundly.

SUPPLEMENTARY ESTIMATES.

The Supplementary Estimates came down on Friday, to the tune of \$8,369,241, making the whole amount for the year ending 30th June, 1902, \$5,800,000. "Wait till you see us next year." When the expenditure was \$38,000,000 the people were "bied white" and in Cartwright's words it was monstrous to spend \$38,000,000 or any such sum to govern 5,000,000 people.

ITEMS OF GENERAL INTEREST.

There is \$50,000 for a branch of the Royal Mint; \$35,000 for

Dominion Parliament.

OTTAWA, May 11, 1901.—The second volume of the Cook Evidence is now out, and on Monday this Evidence will be laid on the table of the Senate. No man could have heard or even read that Evidence without coming to the conclusion that Sir Richard Cartwright was trafficking in Senatorships,—ays, and more than Sir Richard. It is very interesting and instructive to read Cook's querulous letter complaining—this was after it became known that Cook was resting his claims on past services—how coldly the Prime Minister received him. The Prime Minister's office was like an ice house; the Prime Minister was like a worldly young lady within whose hyphenal horizon a wealthy suitor has shown the sails of his galleon. The poor lover is no longer welcomed. He gets plenty of cold shoulder, and it is well if he does not get warm jaw as well. The Premier had a bite from a bigger fish. The financial whale Cox was about to yield him some of his blubber. It must be confessed Cook was a simpleton to think he could have, under the circumstances, a chance. It is quite touching how he pleads all the great services of his family for seventy years,—and of his brothers and sisters. But he really ought to have known that the gratitude of a Reform leader is either in fear or a lively sense of favours to come.

Mr. Nicholas Flood Davin, in one of his letters to the Evening News or Toronto tells how two Liberal Senators were overheard exchanging opinions as to the Cook enquiry. One said: "This Cook is a queer fellow. He does not know a good thing when he sees it. He was being let off cheap. Ten thousand dollars! Sacre! What is that to what we have had to pay?"
