Lord Northcliffe's Newfoundk nd Enterprise.

The largest pulp and paper making plant in the world was started last weeksin Newfoundland by the company of which Lord Northeliff church, schools and all other re- S andard, quisites for an ideal industrial life, from the Harmsworth point of view The cottages have grounds abou them for a garden, and the street are paved.

The Governor, a large part of the Lagislature, the Premier and some of bis ministers, bishops of the Atglican and Catholic churches, were among the guests at the opening and all spoke of the enterprise as an assured success. The visitors saw inspected the eleven fac ories built of concrete and steel, the railway to the nearest seaport, the company's was praised.

steamships and is whatves and warehouses. Of course overything Meanwhile, for some resson, the New York Herald has been taking large interest in the trans cliordays the Herald has published lorg special descriptive and critical articles, the first occupying about page and a half of that influenti ournal. The writers of the articles argue that the enter give i doomed to failure They severt that much of the Harmsworth timber eress never had much wood, while the Lortion accessible by the rivers and lakes has all been cut over, and then burned over; that the sound by Mr. Rookefeller, was a prudent standing wood is small, and the burned wood not good for pulp, and abat after the first year or two t e public bequests se a sort of advert wood supply will be very costly, and very uneatisfactory ; that the timber in that zone is of remarkable slow growth, and that in ten years there will be no raw material. Furthermore, the barber will be fregen third of the year, and the place will public opinion, which was kept be so desolate and unattractive that labor will demand extra pay to remain there. Also the property and plant has cost for too much, one exthe land at one-fourth the price paid by the Harmsworth concern. The Herald writers have explained how previous investors unloaded their unp ofitable enterprises on the much deceived English publisher, how the water powers he has bought are utequal to the work required of them how the machinery its It is unsuite to its work and far more costly the it ought to be, and how the mode towns are almost everything that model towns ought not to be. It is

the establishmen! Tole much, bowever, may be called, Mr. Hirm-worth, 8was then, considered several New Bone wick propositions. His sgen obtained offers of certain properties and limits. After having thenoptions exemined, and having mad minitar investigations it Q she n even le Mova Scotia, be come N found. He may have been influence ed by the fact that a larger extent of freehold land could be bought in that dony, and thought it harter to own tend than lyang it for it and opera-tions. No doubt it was to his show a point in favor of No-foundined too was

Troubled With Backache For Years.

Backache is the first sign of hidney trouble and should never be majected. Scorer or later the kidneys will become affected and years of suffering follow.

Mrs. W. C. Doerr, 13 Brighten St., London, Out., writes:—"It is with pleasure that I thank you for the good your Dean's Kidney Fills have done me. Have been spouthed, with backache for years, and fibthing fielped me tittil a friend brought me a box of Dean's Kidney Fills. I began to take them and took four bones. I am glad to say that I am entirely cured, can do all my own work and feel as good as I did before taken sick. I am positive Doan's Kidney Fills are all you claim them to be and I advise all kidney sufferers to give them a fair trial. You may use my name if you wish."
