and in its supposed interest, there is an equal variety of announcement. In the familiar variety of announcement. In the familiar columns of one judicious contemporary we already see the watchword " Death or Protection," and the public are assured that Lord Derby and his colleagues are prepared to risk all their magnificent prospects, re, next as well as the safety of the em

To such as are still hesitating how to greet the new administration—that is, whether with a brief tolerance or with instant defiance we beg to repeat the lustily "enough," could not "believe him- a cultivator of Canadian soil. We would irrespective of consequences; we feel no in the House, to those that know nothing up his commission, an' left him to catch extremely sickly, with the centre of these nstant dehance—we beg to views we have already expressed on this subject. There are two motives for political action, and only two, that apply to the present question—the first, political feelpresent question—the first, political feeradvantage. Now, is there a peremptory call on any man's conscience to drive the new ministers at once from their places, and th that view, to compel them to declare themselves in advance of their present conthey are likely to compromise themselves! It may be a sacred duty to answer a question; but we cannot conceive it a sacred duty to ask one; especially when the object duty to ask one; especially when the object is to make a man belie himself or hamper is to make a man belie himself taty to ask one, especially when the object is to make a man belie himself or bamper himself—to do wrong either is one was a man belie himself or bamper himself—to do wrong either is one was a man belie himself or bamper himself—to do wrong either is one were the people of Great Britain to tax them an analatture" there is some chance of induction and an annual tax for the purpose of raising a finantial transition which the proved—to consent to ext dear bread—for the benefit of their follows—thipsels in the benefit of their follows—thin wisest may find it difficult to answer, it is uses in a suspicion always attacks to gratuit-aus measures, and nothing can be a gratuit-a ing the new government from power, with-bit reasonable notice, by a species of forci-ble ejectment? Why should we grudge ble ejectment? Why should we grudge twenty or thirty new hands a little taste of course. The colonist, though in favor of the principal of protection, knows well that the time), and a little taste of course, and and the color projected in conforming a perpetual manupole on a small clique, consisting of a few landilles, respectable as they are, and the contrary, it is an advantage to the Legislature, and particularly whole of the Legislature, and particularly and particularly of the Legislature, and particularly for the Legislature, and particularly for the Legislature, and particularly for the Legislature and particularly for the Legislature and particularly for the Legislature, and particularly for the Legislature and particularly for the last few days, without the thinks it may be profitably set aside to suit projuction of the thinks it may be profitably set aside to suit projuction of the light in the own and the time), and at the time), and the contrary for the last few days, withoconsion—the last few days, without and the own and the country for the last few days, without and the time), and at the time), and at the time), and the contrary for the last few days, without and the time), and the contrary for the last few days, without and the time), and the contrary for the last few days, without and showers of snow—the sleighing is good at present.

The Colonist, though in favor of the principle is,—but the times in the times in the times and the times in the contrary and very sexing, something freend Doctor Dunlop (wha was Warden at the time), and the time), and the time), and the time), and the contrary in the time of the times in the time), and the time has a little taste of the time has been Oo the contrary, it is an advantage
