dent to him left the hall. But Robert
is too skilled an athlete to make a
mistake. None should miss to-night's
now for it is well worth seeing.

Yesterday's Football.

A large number of spectators attended the inter-collegiate football match last evening between the Methodist and St. Bon's teams. At St. George's Field. It was expected that the contest would decide the championship. The game, however, resulted in a draw, each side scoring two goals. The line up was:—

Methodist—Ross, goal; T. Lench, F. Lench, backs; Burt, Bastow, Crum, halves; Hayward, Parsons, Stevenson, Gear, Tucker, forwards.
St. Bon's—Lundrigan, goal; Knight, Murphy, backs; Hogan, Halley, Lescuyer, halves; Rawlins, Crawford, Duchemin, Kelly, O'Hagan, forwards.
The Methodists won the toss, and playing down field with some wind in their favor secured two goals after a hard fight. Bastow secured the first after ten minutes play, and Stevenson the second. Shortly before the close of half time Rawlins secured one also for his team.

In the second half both teams put forth their best efforts and played the fastest game of the season. The ball was taken into Methodist territory by Halley who passed it to Rawlins and secured No. 2 for St. Bon's team. The cheering and enthusiasm amongst the supporters of both sides last evening exceeded all former times, and the women kept it up, cheering as well as the men and boys. The play off will take place Thursday afternoon.

Three 'Specialties.'

"STAFFORD'S LINIMENT"

For Rheumatism, Lumbago, Neuralgia, and all aches and pains, etc.

New School at Belleoram.

Editor Evening Telegram.

Dear Sir,—The Messrs. Barnes return to St. John's to-day by the s.s. Portia after spending three months and a half at Belleoram erecting the new school. The committee congratulate themselves on their having secured two such competent and faithful men as they proved themselves to be. The building is now completed and it will be opened for work as soon as the two principal rooms have received their allotted coats of paint. It is a large building of two stories, over sixty feet long, and between thirty and forty feet wide. Two schoolrooms occupy the whole of the top flat except for the spaces taken up by the two staircases. On the ground floor are two large play-rooms and a C. W. A. room. From a general viewpoint it is a magnificent structure and is a credit to the place, the people, the carpenters and the promoters. Profound gratitude from the whole place is most surely due to the Hon. John Harvey and R. G. Pike, Esq., for their great interest taken in and their more than generous help given towards the work. Of course without such valuable and practical aid as given by these gentlemen Belleoram could not possibly tackle such a task without many years of preparation beforehand.

Yours truly, G. C.
Belleoram, Nov. 4, 1911.

The Stomach Needs Help

The liver, kidneys and bowels must be kept active with DR. CHASE'S KIDNEY-LIVER PILLS.

The liver and kidneys are overworked in their efforts to remove the poisonous waste matter from the system. They fail and become torpid and clogged. The bowels become constipated and stomach derangements follow.

There is one medicine which will overcome this condition more certainly and more quickly than any other, and this is Dr. Chase's Kidney-Liver Pills.

This medicine gets the bowels in action at once and by awakening the liver and kidneys ensures the thorough cleansing of the filtering and excretory systems.

With the poisonous obstructions removed, the digestive system resumes its healthy condition, appetite improves, pains and aches disappear as well as irritability and depression.

You cannot imagine a more satisfactory treatment. One pill a dose, 25 cents a box, at all dealers, or Ed. Watson, Bates & Co., Toronto.

MILNARD'S LINIMENT CURES DIPH-
THERIA.

Freshwater Notes.

We are glad to report the safe arrival of all our Labrador folk. Although many of them met with adverse winds and were quite a long time in coming, yet they at last arrived home; and now for the few winter months they intend to enjoy the comforts provided by their hard earnings.

The Ladies' Aid Society intend holding on Wednesday, November 8th, a tea sociable in the Lecture Hall, the proceeds to go towards the church fund. It is hoped our young lads with their lassies will patronize the sociable, as it promises to be a success. In fact one of the sisters has already intimated that it will be far ahead of last year's.

Firewood seems to be the problem with which our people has to contend. They were hoping that Sir Edward Morris was going to fulfil his promise about the coal areas in Newfoundland. But happily for us Messrs. A. and F. Parsons set our minds at rest when they chartered a Halifax schooner for 190 tons of coal. She came in due time and the firm barely kept enough for their own immediate use out of the whole cargo. And yet there is room for two cargoes more, as some of our coal cellars have not yet seen a solitary piece of this "black wood."

The building committee for the proposed post office for this community met last week to consider which of the numerous places laid before the committee is the best site for the building. Their decision has not yet been made public, but we hope to see steps taken which will finalize in the long-looked for post office that has been promised by every politician that has ever canvassed this district.

On Wednesday, Oct. 31st, Miss Julia Snow, of Carbonear, and Mr. Frank Noel were united in the holy bonds of matrimony. Frank has now entered into this state for the second time, his first wife dying last May. We wish them many years of wedded bliss.

Although handicapped by not having the railway any nearer than it is, yet Freshwater can boast of two energetic firms, viz., A. & F. Parsons and W. & F. Moores, who are competing with the stores of Carbonear to such an extent that the latter has been heard to say, "Freshwater people never come to our stores now. Why is it?" Well done Parsons and Moores, keep at it and make Freshwater what it ought to be.

At the ripe age of 75 years Joseph Parsons has been called to the Great Beyond. He lived a quiet life and was respected by all who knew him. To his sorrowing relatives we extend our heartfelt sympathy.

Now, Mr. Editor, ere I close please allow me space to say a few words about the main line from here to Carbonear. The roads are hardly fit to drive a carriage over, in fact one has to be careful after dark if he doesn't want to have a broken carriage, and a head likewise. Some of our Labrador folk say they have better roads leading from their stages to their "bawns." Now, Mr. Editor, as to who is responsible for this state of affairs I am not prepared to say; but if one can rely on talk, Hon. John C. Crosbie will have to look lively if he doesn't wish to get his "dumping ticket" in 1913. And I also advise Jesse White-way to take the hint too, and be a man and not a tool in other people's hands. AN OLD SALT.

Message of Regret.

OTTAWA, Ont.

Dr. Grenfell, Labrador.

H. R. H. the Governor General desires me to express his great regret hearing of the loss of your ship, and hopes your valuable work will not be seriously interfered with thereby.

COLONEL LOATHER,
Military Secretary.

H. R. H. the Governor General de-
Ottawa.

Sincerest thanks for your kind expression of sympathy, we are still optimistic as to the future.

GRENFELL.

Purser Miller Hurt.

Mr. Frank Miller, the purser of the Portia, who since having an accident to one of his legs some time ago has a very weak knee, hurt his leg pretty badly on the way down the coast while in the chief steward's apartment. Dr. McDonald, of Hr. Breton attended him, found some of the small bones of the leg badly sprained and advised him to rest the limb. He cannot walk on the limb and drove home on arrival yesterday.

C. C. C. FAIR.—The ladies of the committee are working zealously to make the C. C. C. Fair and Concert in the British Hall, on the 14th, 15th and 16th inst., a success.

Evening Telegram Fashion Plates.

The Home Dressmaker should keep a Catalogue Scrap Book of our Pattern Cuts. These will be found very useful to refer to from time to time.

3884—A SIMPLE PRACTICAL MODEL.

Ladies' House Dress with Seven Gore Skirt.

This design will appeal to every home dressmaker who appreciates simplicity and style. The waist has a shaped side closing, and the skirt is cut with the popular inverted back plait and has a deep tuck at each seam of the front gore. The sleeve may be finished in full length or as a shorter sleeve. The pattern is cut in 4 sizes—32, 34, 36, 38, 40 and 42 inches bust measure. It requires 7 yards of 36 inch material for the 36 inch size.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

Suitable materials for any of these patterns can be procured from AYRF & SONS, Ltd. Samples on request. Mention pattern number. Mail orders promptly attended to.

8922—A Dainty Morning Jacket

In this dainty model for a dressing sacque, the front, back and sleeves are cut in one piece. An unusually trim, neat appearance is given at the waist line by the fullness being gathered into a smoothly fitted peplum, finished by a belt or ribbon-run beading. The style is adaptable to such materials as lawn, batiste, dotted swiss, and cotton crepe. The pattern is cut in 3 sizes—Small, Medium and Large. The Medium size requires 2 1/2 yards of 24 inch material.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

PATTERN COUPON.

Please send the above-mentioned pattern as per directions given below.

Cable News.

Special to Evening Telegram

SHANGHAI, Nov. 6.

Three Chinese gunboats, which put in here yesterday for provisions, went over to the rebels this morning. The Chinese telegraph operators here struck to-day. The cables are not molested and foreign marines are guarding the cable hut.

Special Evening Telegram.

HONG KONG, Nov. 6.

Six companies of British troops, including engineers, artillery and two regiments of Indian troops, are in readiness to proceed to Tien Tsin. There was an extraordinary outburst of joy here to-day upon the news from Shanghai of a report that the rebels had captured the native city of Peking.

Special to Evening Telegram.

SAN FRANCISCO, Nov. 6.

A cablegram in a Chinese daily paper, received here to-day, says that Peking was captured yesterday by the revolutionists after a sharp encounter. The despatch stated that all the officials in the city, including a number of official Manchus, fled in the night, leaving the rebels in peaceful possession.

Harbor Grace Notes.

Mr. M. A. Duffy, who was here last week in connection with his tobacco business, returned to St. John's on Friday evening. Mr. D., like all our other visitors, was well pleased with the exhibits in the Agricultural Exhibition lately held here.

Miss Mary Montgomery, of St. John's, who spent a few days, here the guest of Mrs. and Miss Tetford left for home Thursday. Miss E. Wareham, en route to Montreal, left for St. John's on Friday morning after an enjoyable time spent with relatives here.

Mr. John Sheppard, carman, lost a valuable cow a short time ago, the animal perishing a day or two after calving.

A large horse owned by Mr. Jordan Sheppard, and used by him in his railway transfer business, was seized with colic or something of that nature some time ago, and it seemed as if the beast would perish. Mr. William Harris, blacksmith, was called and spared no trouble to save the animal. His methods were successful, and the animal is now all right.

Whatever one's opinion of Sunday work may be, it is better to err on the right side, and strictly observe it for the sake of the young people about us. The higher our station in life the more the young around us are likely to follow our example. It is no excuse whatever to say we employed no laborer on that day, but we did the work ourselves.

Mr. C. F. Snelgrove and Master Snelgrove arrived from Catalina on a visit to Mrs. S.'s sister, Mrs. R. S. Munn. Miss Snelgrove is also here a guest at the same home.

The Agricultural Exhibition closed on Thursday night. The committee had a busy time, but carried out their work without a hitch. The prize list is a very long one.

Mrs. M. Shute left for St. John's by this morning's train, taking her little daughter Alice over to Hospital for treatment for eye trouble.

The snow and frost of Friday and Saturday it is feared will do considerable damage to the crops yet in the ground. One farmer has a large quantity of potatoes yet in the ground, but with the assistance of an improved potato digger lately imported, it is hoped they will be harvested before much frost sets in. The potato crop is thought by many to be far below the average.

The sch. R. H. Silver arrived from Boston on Saturday night with freight for several firms here.

The British Band intend holding another of their popular concerts on Tuesday, the 21st inst.

Several cases of scarlet fever were reported to the Health Authorities last week, of a rather serious type. The houses were promptly placarded, and we hope sufficiently guarded to keep people from leaving or entering, which precaution cannot fail to soon stamp out the disease.

CORRESPONDENT.

Harbor Grace, Nov. 5, 1911.

A MOTOR FISHING COMPANY.—We learn by the Portia that a company to prosecute the fishery on a large scale both winter and summer by means of motor boats is being formed up on the S. W. coast. The new venture will be capitalized at a substantial figure and the prospectus of the new company will be out in due course.
