Lowest Scum in Europe-Indignation in Newfoundland-Serious Reprisal May Result-Piece of Follyand Injustice.

There is a law or order-in-council There is a law or order-in-council requiring immigrants to Canada to have \$50 each in the winter and \$25 in the summer. This regulation can be enforced or not, at the option of the government. It has not been generally enforced in the past, except to keep out undesirable immigrants, since Canada's immense area of uncounted land and progress in comccupied land and progress in com-nerce and industry gives room for an ever increasing number of people, and often the best sort of immigrant has only enough money to bring him to the shore of the Dominion or to the place in Canada where he intends to make his home. This regulation has never heretofore been enforced against Newfoundlanders, but only, as has been said, as a rule against the most undesirable class of foreigners.

Newfoundlanders "Foreigners."

Last week, however, the Borden government at Ottawa ordered its immigration officers to enforce this regulation against Newfoundlanders, and yesterday a party of 36 who arrived at North Sydney, coming to work at the coal mines or steel works.

This is the most extraordinary action for a Canadian government to take, and has properly caused the "The Livid Flame" a two reel Biogreatest indignation in Newfoundland. It will undoubtedly be also resented strongly by Newfoundlanders in Cape Breton, a large number of whom came here with practically nothing, but by their industry and frugality have got along comfortably and are among the best citizens in their new home. They will quite properly resent having men from their old home placed by the Borden government on the same basis as the scum and lowest dregs of the popu-

Dr. Campbell work, as usual, in Cape Breton during was called and found the patient to up for the very hard time they have had. There are not many industries in Newfoundland, and the prospect of a considerable number of the men being able to get work here during the summer has tended to lighten the very grave problem of unemployment facing the government there. If this pening is shut off, however, the Newfoundland government will have to seek some way of giving these men work, and the result undoubtedly will be the starting of public works, the revenue to pay for which will in reality come out of the steel works,

steel workers and coal miners of

An Export Tax. For if the Nfld. government is driven to it, this revenue will undoubtedly be raised by putting an export duty on iron ore. The Cape Breton steel industries depend upon ore supplies from Newfoundland, and will have to pay this export tax to get the ore. In previous pictures will be seen turn they are likely to pass on part of it to the workmen's shoulders in the

shape of a reduction in pay.

Another phase of this matter is the adverse effect it will have on the sentiment in favor of confederation with Canada, which recently has been again growing in Newfoundland. Miss Holmes was especially engaged to star in this drama and she has certainly put her best work into it.

G. M. Anderson is also on the bill to-day in "Broncho Bill Outlaw." The comedies the Crescent bills to-day are irresistably funny. Mr. Delmonico sings a pretty waltz ballad: "There's a Little Spark of Love Still Burning." The Crescent always has a good week opening bill and to-day's is one of
