several very important bills. The bills introduced by Messrs. Wood and Lees, regarding the surrender of the rights of tollroad companies, were ordered to be sent out to the municipalities and companies interested in these roads for their considera tion, and if returned with general favor, legislation will follow next session in the direction of the two bills.

Mr. Waters' bill amending the Municipal Act so as to give power to councils to open up roads in municipalities where they had not been reserved in the original survey,

Mr. Bishop managed to get the committee's approval of his bill to regulate traveling on public highways and bridges. The object of the bill is to make it compulsory for persons overtaking a vehicle to turn far

enough to the left to avoid a collision. In the Private Bills Committee the bill incorporating the town of Walkerville passed. Mr. Sol. White opposed the incorporation, apparently in the interests of the town of Windsor.

Mr. Aubrey White gave evidence before the Public Accounts Committee regarding the causes which led to the defalcation of Dulmage, the Rat Portage bushranger. His evidence was substantially the same as the statement made by Mr. Hardy in the

House. At the instigation of Mr. French the committee summoned Mr. Marling, Deputy Minister of Education, the inspector of separate schools and the secretary of the Ottawa Separate School Board, to explain the method of apportioning the separate school grant. Mr. French's motive is obvious. It was clearly stated by the obvious. It was clearly stated by the Minister of Education in the House that there were no irregularities in the Ottawa separate school grant distribution but the Opposition desire to make it appear by a little fuss that there is something wrong.
