AGAINST VICE

The Movement in New York City-Mayor Held Responsible for Condition of Affairs.

New York, Nov. 27.-A great gath-ering of business men resulted from the call for a conference at the Chamber of Commerce today to plan a campaign against vice. The features of the meeting were the retirement of Bishop Fotter from the ranks of the movement; a speech by ex-Mayor Abram S. Hewitt, in which he asserted that the responsibility for the present condition of affairs in the city

rested upon the mayor. Bishop Potter wrote: "I shall not be able, owing to a trustee meeting, to attend the meeting of the Chamber of Commerce today, nor should I do so if I were free. The aim of such a meeting should be, primarily, to unify the forces on the side of law, decency and the protection of the weak in this community. The clergy may fitly exercise the prophetic office of rousing, warning, entreating, but in social and political movements their best service will be in the ranks, leaving to others the task of generalship. New York wants a strong committee of three or five trusted laymen to coordinate forces and cement pur-

If people would only treat coughs and colds in time with Dr. Wood's Norway Pine Syrup, there would be fewer homes desolate.

The severest coughs and colds, bronchitis and croup, and the first stages of consumption yield readily to this powerful, lung-

healing remedy. Read what Mrs. Thos. Carter, Northport, Ont , says: "I caught a severe cold, which settled on my throat and lungs, so that I could scarcely speak above a whisper. I also had a terrible cough which my friends thought would send me to my grave. I tried different remedies but all failed to do meany good until I took Dr. Wood's Norway Pine Syrup, and the contents of one bottle completely cured me."

WINTER'S APPROACH

Brings Duties That Every Individual Should Take Heed To:

With the approach of winter it becomes more than ever the duty of the individual to fortify the body against the attacks of such diseases as are so prevalent and easily contracted in the winter season. One of the best methods of doing so lies in the systematic and conscientious use of pure foods, and no other foods can be found so good, pure and nutritious as Granose and Granola, whose process of manu-facture retains all the food elements that are wasted and lost in other pre-parations. Not only are they a certain cure for all bowel and stomach toubles, but they so strengthen the system that the insidious attacks of other diseases are easily repelled. Parents owe it to themselves and their families to try those foods. Their low price places them within the reach of all, and their undoubted merit entitle them to the foremost place on the family table. A postcard to the manufacturers, The Battle Creek Sanitarium Health Food Company, 651 Colborne street, London, will bring samples and The full particulars of these foods.

SUFFER NO MORE .- There are housands who live miserable lives because dyspepsia dulls the faculties and shadows existence with the cloud of depression. A trial of them will prove this.

PARALYSIS CURAELE

Stricken Ones To Be Seen Everywhere -This Form of Living Death Cured by Dodd's Kidney Pills.

The most startling example of hu-

man helplessness is the paralytic. The victim excites your commisera-tion, but resents your pity. He of the palsied hand stiffly pressing the benumbed side is to be seen

everywhere we go. The most convincing proof that this pitiable condition is the outcome of kidney disease is the fact that Dodd's Kidney Pills cure it. Not generally recognized as a kidney disease, it succumbs to kidney treat-

ment. Did you ever know of a cure? Just think a moment!

If you do it must have been the work of Dodd's Kidney Pills, for no other medicine ever yet cured.
