FIGHTING IN COLOMBIA. News has been received from Colon that a small Government force defeated a band of guerillas at Santa Catalina, near Carthagena, killing the two leaders. An important engagement is probably being fought now at La Cienaga, where Gen. Cactillo, with a large army, has for some time past been harassing the Government forces. La Cienaga is near Santa Marta. Information has also been received here to the effect that 1,000 Government troops have safely decended the Magalena River and reached Zambrana, whence they made an overland march, eventually joining the Government river force assembled to attack Gen. Uribe-Uribe, at Teneriffe. It is reported that Gen. Perdomo is momentarily expected at Panama, and that he will have the same power as the Secretary of State at Bogota, the

NOT SO BAD. Constantinople, Sept. 30. - Diplomatic circles here do not regard the situation in Macedonia as being so serious as would appear from the Turkish Government's military preparations in calling out 40,000 men of the militia reserves. The porte's alarm is partially attributed to the maneuvers and other incidents of the Shipka Pass, fetes, the political importance of which, however, is considered to have been greatly exaggerated, in view of the approach of the winter, when the movements will necessarily be stopped. It is not thought that the threats of the Macedonian committee will prevent a general revolution or develop into anything very serious.

I have been bathing in and drinking hot water at the Hot Springs, Ark., but it seemed everything failed to do me good. After I saw your advertisement I thought I would try your pills, and have nearly used two boxes; been taking two at bedtime and one after breakfast, and they have done me more good than anything else I have used. My trouble has been with the liver. My skin and eyes were all yellow; I had sleepy, drowsy feelings; feit like a drunken man; pain right above the navel, like as if it was bile on top of the stomach. My bowels were very costive. My mouth and tongue sore most of the time. Appetite fair, but food would not digest, but settle heavy on my stomach, and some few mouthfuls of food came up again. ### NEW MANITOBA WHEAT

One of the New Turret Boats Takes a Load to Midland.

Midianu, Sept. 30. - The steamer Turret Chief, of the Canada Ocean and Lake Navigation Company, arrived in port Sunday night, and is now being unloaded at the Midland Elevator Company's elevator No. 1. She is laden with 105,094 bushels of new Manitoba wheat. It is about one-half No. 1 hard and the other half of northern. This is one of the new turret boats which have been brought on the lakes this season, and it is her first trip. They are intended to run from Fort William to Midland with grain all fall, and will be fully employed in handling grain until navigation closes. These boats will be a welcome addition to the Canadian fleets on the lakes, and in particular will add to the volume of trade at this port. The grain trade has been very favor-

able all season, and with the immense crop of this year yet to be handled, there ought to be a greater quantity of grain going through Midland than ever before. Already nearly ten million bushels have been handled through this port, and it is expected that considerably over fifteen million bushels will be handled before the close of
