To the Editor of The Advertiser: Will you allow us space in your valuable paper to make a statement of the facts regarding the trouble between the master and journeymen painters and paperhangers of London so that the public may know just ho this trouble originated. We had five members working in a local shop. There was a non-union man working there also, who refused to join the union. Our men did not take advantage of the situation during the busy season, but waited until work was getting slack, then they interviewed the boss, and finally told him if this man did not quit, they would. The boss told roy and Delaware. them they might quit (as he had a perfect right to do if he felt disposed). This boss then immediately notified the doctor's parents, Mr. and Mrs. M. the members of the Master Painters' Flaherty, Thorndale. Association, that the following men had left his employ giving their names. The Painters' Union then passed a re solution that they would not hang any he blacklist placed on these men was recalled and a copy of the resolution was sent to every member of the Master Painters' Association. A short time after this two of our members, working in different shops, were asked to hang the paper. They, n the shops where the men were discharged. The union is not asking that any of these men be reinstated, but
