owners-Prevent Loss of Time [Canadian Press.] St. Johns, Nfld., May 5 .- A novel use of the aeroplane is under consideraa result of the failure of the seal hunt this year. It is proposed that two experienced aviators be visit the east coast and the Gulf of St. Lawrence, respectively, just before the opening of the next season, and locate the herds. The information thus obtained would enable the fleet to sail directly for the scene of the hunt, in

stead of spending much time in search ng for the animals The direct cause of the lack of suc ss in the present season, which end ed May 1, was the unusually heavy amount of ice packed along the coast continuous inshore winds. sealing steamers although within to reach them. The total catch was less than 50,000 pelts, and the loss to vessel owners from the season's
