The New Ford Touring Car

For the motorist who requires a good-looking car of unusual serviceability, the new Ford Touring Car is a splendid investment.

To the sturdiness and endurance for which the Ford is universally famous have been added new features which materially enhance the appearance of the car and add to the comfort of the passengers.

The new radiator is higher, giving greater cooling efficiency—the hood and cowl are larger affording increased legroom, and the steering-post is braced for easier driving. With roomy accommodations for five passengers, the new Ford Touring Car is undoubtedly the most practical general utility car on the market.

The new Ford Runabout is as smart and businesslike a car as you will find on the road today. The new arrangement of the rear deck gives abundant storage capacity, allowing a considerable load to be carried in its lock-tight compartment.

This is the logical car for those who require a good looking, sturdy and economical car at the lowest possible cost.
