POPULAR SCIENCE.
THE SCIENTIFIC AMERICAN
TO BE GREATLY ENLARGED.

THIS widely circulated and Popular Journal of the Industrial Arts and Sciences enters its twenty-second year on the 1st of January next, and the Publishers propose to signalize the occasion by enlarging it to the size of the most costly Scientific Journals of Great Britain, without, however, increasing the subscription price.

It is almost superfluous to speak of the great value of this Popular and Useful Journal to all classes, and especially to Mechanics, Manufacturers, Inventors, Engineers, Chemists, Agriculturists, and all who love to read of the wondrous progress which now marks every department of Mechanical Engineering and the Industrial Arts and Sciences generally.

The Editorial department is very ably conducted, and many of the best writers in this country and Europe are contributors to its pages. Many of the articles have the charm of romance about them, and inspire the mind with noble ideas.

The Scientific American has the largest circulation of any similar journal in existence, but it ought to have a million of readers in this growing country.

The engravings of New Inventions, Tools, Implements for the Farm, Workshop and Household are very numerous and are splendidly executed by the best artists in the world. This feature of the paper is very striking, and has won the praise of the united press of this country and Europe.

Another feature peculiar to the Scientific American is the official publication of every Patent granted by the Government Patent Office. Each number contains the weekly issue of Patent Claims, with copious notices of new inventions, together with Reviews of Foreign Inventions and Discoveries in every department of Science.

Whoever reads the Scientific American is instructed and entertained, without being bothered with hard words and dry details.

The American and European Patent Offices, in connection with the Scientific American, form an immense Museum of Mechanical Novelties, which furnish constant employment to a large corps of Scientific Examiners who prepare drawings and specifications for Patents.

Now is the time to send in subscriptions to the Scientific American, so as to begin with the new volume.

The numbers for a year make up a splendidly illustrated volume of 532 pages. Terms:—\$3 per annum; \$1.50 for six months; \$1 for four months; Clubs of ten and upward, \$2.50 each; Canadian subscribers, \$3.25 per annum, always in advance. Specimen numbers sent free; also, a pamphlet of advice to inventors. Address

1867 IRELAND'S 1867
FREIGHT AND PASSENGER LINE
FROM
Montreal to Kingston, Toronto, Hamilton, St. Catharines and vice versa.

ON opening of Navigation the following First Class Steamers will form a Line for the Transportation of Freight and Passengers, viz:

OSPREY.....Capt. SMITH.
AMERICA....." MOORE.
BRANTFORD....." HANNA.
Hamilton.....Capt. MALCOMSON
CITY OF LONDON....." POLLOCK.

The above steamers, having first class accommodation for passengers, will afford to families during the summer months, a cheap and comfortable mode of travelling, and give merchants quick dispatch in the transportation of Freight.

THE STEAMER CITY OF LONDON,
will be continued as last year in the Lake Erie trade, viz:—From Montreal to Ports Dover, Burwell, Ryerse, Bruce, and Stanley, calling at Hamilton and Toronto, as the trade may require.

Freights as Cheap as by any other Line.
For Freight or Passage apply to
E. D. MACKAY.....(Mackay's Wharf), Hamilton.
S. F. HOLCOMB.....Exchange, Toronto.
NORRIS & NEELON.....St. Catharines.
W. M. BOWMAN.....London.
