THE EXTERNAL REMEDY FOR  
Rheumatism, Sciatica and  
Nervous Diseases.  
Mention this Paper.

REV. ALEX. GILRAY,  
College Street Presbyterian Church, writes:  
Dear Sirs,—  
It is with much satisfaction that I learn that you have decided to establish a branch office in Toronto, following as I do, that the more widely your Acetic Acid remedy is made known, the greater will be the gratitude accorded to you for the relief experienced by many sufferers in Canada. We have used your Acid for over eighteen years, and are now prepared to state that it is worthy of a place in every family. We have found it thoroughly safe and effective and have commended it to many,—for which we have been thanked. We wish you success in your new quarters, as we feel sure your success will bring relief here as it has already done to large numbers in the old land and other countries. Much will depend on the patient and persevering use of the Acid as set forth in your little book.

It has been found by Saville-Kent that the pearl oyster reaches maturity in a shorter time than formerly supposed. He thinks that under favorable conditions a period not exceeding three years suffices for the shell to attain to the marketable size of eight or nine inches in diameter, and that heavy shells of five-pound or six-pound weight per pair may be the product of five years' growth.

The Massachusetts State Board of Health concludes, from investigations of artificial ice, that artificial processes of freezing concentrate the impurities of the water in the inner core or the portion last frozen, that the impurities are least, if distilled water is used, that the number of bacteria in artificial ice is insignificant, under the prevailing methods of manufacture, and that the amount of zinc found in ice is insufficient to cause injury from its use. — *Scientific American.*

## Saved Her Life.

Mrs. C. J. WOODMORRE, of Wortham, Texas, saved the life of her child by the use of Ayer's Cherry Pectoral.

"One of my children had Croup. The case was attended by our physician, and was supposed to be well under control. One night I was startled by the child's hard breathing, and on going to it found it struggling. It had nearly ceased to breathe. Realizing that the child's alarming condition had become possible in spite of the medicines given, I reasoned that such remedies would be of no avail. Having part of a bottle of Ayer's Cherry Pectoral in the house, I gave the child three doses, at short intervals, and anxiously waited results. From the moment the Pectoral was given, the child's breathing grew easier, and, in a short time, she was sleeping quietly and breathing naturally. The child is alive and well to-day, and I do not hesitate to say that Ayer's Cherry Pectoral saved her life."

A pet orang-outang is being bitterly lamented at the Paris Jardin des Plantes. Two fine specimens, Max and Maurice, recently came over from Borneo, and proved great attractions. Last week's Arctic cold gave Maurice inflammation of the lungs with fatal results, and it is feared that Max will follow his companion.

The famous revolutionary song of the French Reign of Terror—"La Carmagnole"—has been adapted by the Anarchists to present use. ### FOR BOILS AND SKIN DISEASES.

DEAR SIRS,—I have been using B.B.B. for boils and skin diseases, and I find it very good as a cure. As a dyspepsia cure I have also found it unequalled.

A novel advertisement has been hit upon by a French tea merchant. A real live prince has been engaged at a good salary to attend the counter and dispense packages of pure tea at a high price to people who worship anyone who has a title. The thrifty tea dealer has built up a lucrative trade by this great stroke of enterprise.

The Chinese Amban, who is visiting India to discuss the Sikkim-Thibet frontier, is a very gorgeous personage, indeed. He entered Darjeeling riding on a cream-colored mule and wearing an artistic costume of pearl-gray silk, with a silver chateleine dangling at the side. His suite were nearly as festive in red garments, inscribed with Chinese characters cut out in black velvet. The Amban's visiting cards are long strips of scarlet paper inscribed with huge black characters.
