SURGICAL

Convalescence

In convalescence after infectious
or wasting diseases, surgical
operations, etc.,

Pepto-Mangan (Gude)

exerts a strong, beneficial influence because it builds up the strength of the patient, increases the appetite and stimulates digestion, owing to its powerful reconstituent and blood forming properties. Its liquid form, lack of irritant properties, and easy assimilation, make PEPTO-MANGAN (GUDE) a rapid restorer when the organism has been reduced by infectious and wasting diseases.

The medical profession are earnestly requested to send for samples and literature, sent free of cost upon application.

M. J. BREITENBACH COMPANY,
New York, U. S. A.

To insure the proper filling of prescriptions,
order an original bottle of Pepto-Mangan
(Gude), and avoid substitution.

BACTERIOLOGICAL WALL CHART for the PHYSICIAN'S OFFICE.

One of our scientific and artistically produced, bacteriological charts in colors, exhibiting 60 different pathogenic micro-organisms, will be mailed free to any regular medical practitioner, upon request mentioning this journal.

This chart has received the highest praise from leading bacteriologists and pathologists, in this and other countries, not only for its scientific accuracy but for the artistic and skillful manner in which it has been executed. It exhibits more illustrations of the different micro-organisms than can be found in any one text-book published.
