We would show you a few of the Trousers which we make to measure for \$4, and we think you would trade here forever after and regret sincerely that you hadn't met us sooner.

THE MAN AGED 30 . . .

AND WHAT ABOUT HIM?

The man aged 30 who invests, say \$216 per annum, for seven years in a building association which is honestly managed, which meets with no losses, will in case of death, say after seven years, have provided for his estate to the extent of possibly \$4,000. The man who invests \$216 in the Manufacturers' Life, which is honestly managed, will, in case of death, the moment the premium upon his policy is paid, have provided for his estate to the extent of about \$15,000 if on the ten-twenty plan, and the same sum invested in a twenty-year endowment will add \$5,000 to his estate at death, and if he lives to complete the payment of his twenty yearly premiums, he will then have in hand very nearly as much money IN ADDITION TO HIS POLICY OF \$5,000 as if he had taken the building association stock!
