

**INTERNATIONAL  
BUYERS OF  
SPECIAL CROPS AND PULSES**

This 1991 directory, of Special Crops and Pulse buyers was produced by the Agri-Food Division, of External Affairs and International Trade Canada, with the assistance of our Canadian Embassies. A separate United States version is also available.

There are some Countries missing from this issue as it goes to press. However, the intention is to up-date the directory annually if possible, and the next issue will include more Countries and detailed information on products of interest to the buyers. Trade Associations and Councils have been included where the information was available.

The Buyers listed in this directory are generally known to our Trade Offices. However, it is the responsibility of the individual Canadian exporter to check the commercial standing of any firms with which commercial arrangements are being contemplated or entered in to.

Any comments or suggestions, particularly from Canadian exporters, on the form or content of this publication in time for the next up-date would be welcome.
