

McGILL UNIVERSITY
FACULTY OF DENTISTRY

OFFICE OF THE DEAN

MONTREAL, May 17, 1923.

Sir Arthur W. Currie,
Principal McGill University,
Montreal, P.Q.,

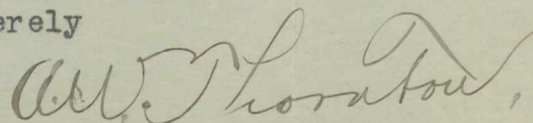

Dear Sir Arthur:-

I wish to thank you very sincerely for your presence at our Faculty Meeting yesterday morning. The question of the final examination in the Faculty of Dentistry, with which we dealt, at that meeting, has been a source of untold worry and suffering not only to myself, but to every student who has had to pass through the ordeal. I take it for granted that the same system should be applied to the examination in practical work for the students of the third year. The change thus effected cannot fail to make for increased efficiency, and very much greater comfort in connection with the work of this Faculty.

Once again thanking you,

I am, Sir,

Yours sincerely

Dean, Faculty of Dentistry.
