

LINDSAY, April 6th, 1874.

The Canada Organ and Piano Company, Toronto.

GENTLEMEN,—In reply to your letter of the 30th ult., I beg to state that the organs now being turned out of your factory are, in my opinion, just what the intelligent Canadian public require, namely: a first-rate instrument at a moderate price. The reeds are superior in tone to most of the American-made organs, and they are tuned equal to the best; and while the higher price instruments are perfect gems as articles of furniture, the lowest price ones are finished sufficiently well to present a respectable appearance in any lady's drawing-room.

I am, yours very truly,

THOMAS BEALL.

SOUTHAMPTON April 1st, 1874.

DEAR SIRS,—Your organs are giving the best of satisfaction for elegance of finish and their beautiful tone.

Yours, &c.,

W. BENTLEY.

MITCHELL, April 7th, 1874.

This is to certify that I have sold a good number of organs manufactured by the "Canada Organ and Piano Company, of Toronto," and every instrument is highly spoken of, and giving entire satisfaction in every case; and I can sell now their instruments, where they are known, in preference to any other Canadian makers'. I can add over a dozen names in this vicinity to certify to the above.

W. COLWELL.

PARK HILL, April 7th, 1874.

GENTLEMEN,—I believe the organs now being manufactured by you are, in tone and finish, far superior to any instrument now offered in the Canadian market, while they are second to none in tone and style of case. The instruments sold by me in this vicinity have given universal satisfaction; I confidently recommend them to the public.

Yours, &c.,

HENRY MANN.

TARA, March 17th, 1874.

The style of your organs gives great satisfaction; the tone is excellent, comparing very favourably with the Mason & Hamblin and other American instruments. The finish of the case far surpasses any Canadian or American organs of the same price. I wish you all success, and trust you may long continue to turn out good organs.

I am most happy to subscribe myself,

Yours truly,

R. E. MOORE.

SMITHVILLE, April 6th, 1874.

GENTLEMEN,—I have much pleasure in acquainting you that the organ, "style No. 14," received from you on Saturday last, gives unbounded satisfaction, as, in fact, all the instruments you have forwarded me have met with general favour. I have no hesitation in saying that in elegance and beauty of style, power and sweetness of tone, and cheapness, I give them my decided preference to any instrument manufactured in the Dominion.

Yours very truly,

D. W. CAMP.

COLLINGWOOD, April, 1874.

GENTLEMEN,—It is with the greatest pleasure I give my testimonial as regards the beauty and richness of tone and finish of the No. 11 organ you sent me. I am, with many others, truly delighted with it; there is one here in the W. M. Church, from Guelph, \$250, with but 5 stops, which the Minister's daughters, who are very fine players, say, is no comparison to yours, especially for sweetness of tone and elegant case.

Yours truly,

V. R. BAKER.

This is to certify that I am purchasing Organs largely from the "Canada Organ and Piano Company," and purchase from them over one-fourth of their whole manufacture. These Instruments give universal satisfaction to our very extended and increasing trade throughout the Country.

143 YONGE STREET, TORONTO.

R. S. WILLIAMS.
