Dr. Forbes Godfrey, M.L.A. for West Tork, explained the tyro bilds which he is hiroducing in the local house. The first which he intends to introduce next week, is an "act to prohibit the employment of women by orientals."

"The dismal failures which have resulted in every case thru non-observance of this principle are very well known in Toronto. I understand that the Chinese consul-general has been protesting to the premier against it, but it is our plain duty to pass it, and also the claims forbidding a clergyman to marry white girls to Celestials. Then again there should be a minimum wage for women in this province. At present the average wage is \$5.50, and this is not enough for any girl."

Amend Marriage Act.

Amend Marriage Act.

Dr. Godfrey's second bill is an amendment to the Marriage Act, which would make it an indictable effence for any clergyman or justice of the peace any clergyman or justice of the peace to marry two people who are feeble-middly or unfit in any way for marriage. "We must sterilize and segregate the saxes before marriage if we want a strong and virile people, and I propose to gain this thru my bill. Already 40 per cent. of the marriages are advertised by the banns being read in church. The other to per cent. I propose to protect by having the names of the contracting garties posted up in the clerk's office three weeks before tse marriage," said Dr. Thompson had assured him that if a surgical operation on the tongues of the opposition were necessary, he was ready to act.

Hon. Thos. Crawford, M.L.A., in proposing a toast to the Empire, asked the gathering to endorse his suggestion that Dr. Thompson be asked to assure Premier Borden that every man of them was behind him. Prolonged cheering came as a fitting response.

A. H. Musgrave, M.L.A. for South Huron, spoke enlighteningly on the questions discussed by the provincial house during the past sitting, laying especial emphasis on the importance of the Workingman's Compensation Act, which will be complete in every detail, not only with regard to wages and hours, but with every detail looked after. He also emphasized the need of a commission appointed by the state to procure funds for the maintenance of wifows and orphans and thus eliminate the "ambulance-chasing" lawyer.

Edward Shea Takes Important Position with G. T. R.

Edward Shea of the Grand Trunk freight department, leaves for Montreal to take an important position in the office of the superintendent of freight service. Mr. Shea entered the G. T. Such was the emphatic assertion of President Peter Laughton acted as Dr. A. Thompson, M.P., for Yukon Territory, which elicited round after round of the most spirited applause from the 300 who sat at the banquet table of the Ward Five Conservative Association, in Orange Hall, corner of Euclide avenue and College street, last

night.

Dr. Thompson, who has traveled 4500 miles to attend parliament, said he was glad of a trip to Toronto at this juncture, that he might be away from the unceasing blabber of the obstructional Griffs. tionist Grits.

Canada would have to spend many years gaining experience before she could construct the larger ships, an immediate attempt to construct which would result in a lamentable failure. When it came to a matter of loyalty to the empire it had been said in regard to the opposition at Ottawa that if the whole bunch were put into a shell you would be able to hear the because some of them think they have nothing to lose, and stand a chance of gaining a few seats," said he. "But strangely enough, it is not those sitting in the house and clamoring loudest for the fight that really want to see it. They know full well that an appeal to the country now would mean the loss of their seats, and at least the temporary elimination of the Liberal party. It is the defeated cabinet ministers who are urging them into the fray. They are willing to sacrifice anything to get back in the house."

Arthur Pratt, M.L.A., of South Oxford, aroused the enthusiasm of those present by declaring that the obstruction tactics which had been suddenly adopted would be as suddenly dropped. The opposition had found out what they had bit off and they would be glad to spit it out of their months as quickly as they could get the chance. HOW MUCH PROFIT?

The following item from The Chicago is something that should have been done fifteen or twenty years ago. The men of Canada, with the exception of those who possess the taint of disloyalty, will see not only that we shall not accept the protection of those who possess the taint of disloyalty, will see not only that we shall not accept the protection of Great Britain in this matter just as much as it lies in the power and duty of a healthy young nation to do," said Mr. Pratt.

He considered that Canada had been humiliated in the eyes of the world in a way that should never have been allowed. A fractious opposition would make us go down in the cyes of the world make us go down in the cyes of the world make us go down in the cyes of the world for at least a bundred years to come. The men who were doing this had not the best in the cyes of Canada at heart. They were willing to take a gambler's change and and did not care about Canada's reputation in the matter.
