SHELDON & SHELDON,
GALT, ONT.

FORMERLY McEACHREN HEATING & VENTILATING CO.

NO—the ordinary dry kiln truck doesn't cost as much as the **THE STANDARD Channel Steel, Roller Bearing DRY KILN TRUCK** does.

No. You see, the ordinary truck hasn't got the unbreakable **MALLEABLE** iron Wheels.

It hasn't got the **SHARP-POINTED** "anti-friction" steel roller bearings, either.

We have some printed things on the subject that you might like to read. A request for Catalogue "D" will fetch them.

Indianapolis, Ind.

THE TRIUMPH TURBINE

Is the most powerful wheel on the market to-day. A glance at this cut of the centre shows that the buckets are designed to secure the **maximum** of **speed** with **great power** and a **free discharge**. Mr. E. S. Edmondson, of Oshawa, writes as follows under date of November 16th, 1903, regarding a 26 inch Vertical Triumph Wheel:

"The Wheel is strictly first-class in every particular, and after a careful and thorough test I am prepared to say that I believe it is the best wheel in the market for Electrical purposes. It has high speed, large power, high efficiency at part gate, and has practically no leakage. I am more than pleased with the thorough and workmanlike setting you gave me throughout."

For horizontal settings in large Pulp Mills, Cement Mills or Electric Power Developments this Wheel has no equal. We invite your enquiries. Large catalogue to be had for the asking.

We are always glad to submit estimates and prices on **Improved Vulcan and Leffel Turbines, Improved Lane Circular Saw Mills, Edgers, Trimmers, Slashers, Shingle Machines, Lath Machines** and all machinery of this kind.
