	PAGE
The Sudbury Nickel region	1-183
Introduction	1
Previous Geological work in the region	3
Topography	4
Hydrography	5
Methods of Survey	7
Classification of the rocks	8
Eruptive rocks in the Huronian	9
The Laurentian	9
Rocks above the Archean	10
Stratigraphy of the nickel basin...	11
The Sudbury nickel-bearing eruptive	11
General features of the basin ...	12
Later eruptives	14
Table of formations	14
Character of the Sudbury ores ...	15
Relations of ore to rock	16
Points favoring magmatic differentiation	18
Types of ore deposits	19
Marginal deposits	19
Offset deposits	20
The Southern range in detail ...	21-62
Sultana nickel mine	22
The Chicago mine	23
Acid edge in Trill and Fairbank	23
The Victoria mine region	24
The Worthington offset	30
The Vermilion mine	31
Krean Hill to Gertrude	31
Gertrude mine	32
Tho Creighton mine	33
North Star mine	36
Acid edge in Creighton	37
Copper Cliff offset	40
No. 2 mine	41
The Copper Cliff mine	42
The Evans mine	48
Elsie mine	50
Murray mine	52
Blezard mine region	55
Blezard mine	56
The Frood-Stobie offset	57
Tho Stobie mine	58
Northeastern end of main range	60

	PAGE
Acid edge in Blezard and Garson	62
The Northern nickel range	62-75
Introduction	62
The nickel range in Trill ..	63
Trillabelle mine	63
Acid edge, Ross lake to Windy lake	64
Levack ore deposits ...	65
Strathcona mine	67
Mooso lake region ...	68
Morgan township	68
In Bowell township	69
Offset to Ross mine ...	70
South edge of eruptive ...	71
Wismer township	71
Norman and Capreol	73
The Whistle property	74
Other norite or gabbro masses ...	75
Tho Sudbury gabbro area	75
Older norite and greenstones ...	78
Distribution of older norite and greenstone	80
Granites near the nickel range ...	82
Distribution of granites	83
Huronian greonstones	84
Diabase dikes	84
Eruptives compared as to bulk	85
The Huronian sediments	86
Graywacké	88
Arkose	92
Slate	93
Middle Huronian (?) graywacké conglomerate	93
Upper Huronian or Animikie sediments	93
Trout lake conglomerates	94
Onaping tuff	94
Onwatin slate	95
Chelmsford sandstone	96
Sources and former extent of the sediments	100
Pleistocene of the Sudbury district	101-106
Glacial action	101
Lake deposits	102
Distribution of lake deposits ...	105
