The "Burberry" Brand is perhaps one of the most sought after brands of winter coats in the clothing field today. Men favor them because they're of dependable cloths, in appealing shades; not excessively heavy for street wear, but with splendid warmth and wear-giving qualities.

The "Burberrys" are in English style, all-wool ulsters, made in full fitting, double-breasted style, with convertible lapels, storm collars, wind strap on sleeve, and cuff inside. Of soft all-wool blanket cloths in olive and brown mixtures, and dark greys, lined through sleeves and shoulders to waist with reliable linings.

The American Coats are of splendid cloth, too, and are in many smart models, for instance, there are double-breasted, semi, and full fitting models, some with half belt at back, others plain, with slash, muff, and regular pockets. Some are quarter, others half lined with a material in a fancy shot silk

effect, and have piped seams. Not all sizes in each style, but all sizes in the lot Sizes 36 to 44. Special, \$35.00.

THE OFFICERS' TRENCH COATS ARE WATERPROOF AND OF ENGLISH MAKE

Heavy cotton gabardine interlined with oil skin and lined throughout with strong cotton drill. In regulation all around belt style, with wind strap on cuffs, and leg strap on skirt. Sizes 36 to 46. Special, \$35.00.
