SLACKERS MUST GO, SAYS SAM M'BRIDE

Controllers Speak Out on Subject of Soldier Employment.
 Employment of returned soldiers and the city's policy in connection therewith evolved some plain talk towards the end of yesterday's meeting of the board of control.
 Controller McBride stated men who had to give way to returned soldiers, provided they were fitted for the position.
 "The mayor: We are already bound by the action of the city council, which passed a resolution.
 Controller Maguire asked that the order be read.
 Controller McBride read the minutes of the council meeting of Jan. 24, 1916, which ordered that the heads of civic departments be notified that all appointments other than those confirmed by bylaw made in the service of the war in order that positions may be reserved for returning soldiers who were in the service at the time of enlistment.
 Controller Robbins: There have been a great many hardships. I say we should look after our soldiers; any vacancies should be filled by appointing returned soldiers, but when it comes down to discharging our employees and taking into our departments somebody who has never been there before it is different.
 Controller McBride: Vacancies have all along been filled by slackers and they are the ones who should go.
 The matter was laid over for further consideration.
WILL SAFEGUARD PUBLIC
 The board of control yesterday considered Fire Chief Russell's report that certain places of amusement were unsafe from a fire standpoint and after some discussion it was decided to have a conference with the parties interested on Friday.
 The mayor stated that the city officials were seeing to it that citizens were not endangered.

SOUTH PEEL WOMEN PLAN BIG THINGS

The South Peel Women's Institute is among the organizations that not only plan big things but devise means for putting their plans into execution. Last year they did splendid work for the sailors. This year their chief object upon which their activities centre are the children of the district. They have decided to provide a district nurse for the county and to provide the necessary funds will hold a monster summer festival in the spacious and beautiful grounds of Mr. A. McHobberlin's residence, "Ben Macree," Port Credit, on Saturday afternoon and evening.
 A fascinating program of amusements, dancing on the green, music, a sale of vegetables and a cafeteria will be provided. In the evening the king and queen of the night will be crowned and will make a royal progress thru the grounds. A masquerade dance and a musical program will close the evening.
RAIN BEAUTIFIES C. N. E.
 Because of the change of arrangement the Exhibition management feel they cannot emphasize too much the fact that the Exhibition opens this year on Saturday of this week and not on Monday of next week, the day the Prince will arrive. It was at first thought that H. R. H. would be here on Monday, but for this a change was found necessary. The initial plan, with regard to the opening, however, will be carried out.
 Thanks to the rain of Tuesday the grounds yesterday were looking at their best, the lawns and exceptionally fine beds of foliage and bloom being wonderfully improved by the downfall. Workers are busy as the proverbial bees in preparation for Saturday, when the gates will be open and the grounds and buildings ready for the public. The shows for the midway, in many cases, arrived last night. The scenery before the grand stand is completed, and it is expected that the band of the British Grenadiers will arrive on Saturday morning and take part in the ensemble music of the bands in the evening.
APPROVES DAYLIGHT SAVING.
 The mayor thinks Toronto should continue daylight saving in 1920 and that the matter should be submitted to the citizens in January.

ELECTRIC SYSTEM MAINTAINS REVENUE

Toronto Hydro-Electric Submit Financial Statement to Board of Control.
 According to the interim balance statement and revenue account submitted to the board of control yesterday, the income of the Toronto Hydro-Electric System for the half-year ending June 30, amounted to \$1,193,054.81. The expenditure was made up as follows: Electric current, \$327,777.71; expenses of operation, management, repairs, etc., \$346,050.00, a total of \$673,827.71, leaving \$519,227.10 of net income from operations for the period. This has been applied, as follows: Interest, \$204,295.54; sinking fund, \$78,278.17; balance for depreciation and adjustments, \$236,653.39.
 The total revenue of \$1,193,054.81 compares with \$1,157,108.44 received during the corresponding period in 1918. The balance for depreciation was \$235,623.72, as compared with \$154,663.36 in the same half-year of 1918.
 "The falling off in the k.w. hours, amounting to 23 per cent, is still maintained, as compared with the corresponding period of the preceding year. This is entirely due to the cessation in the demand for munitions and war supplies. In spite of this falling off the revenue remains practically constant. This is due in part to the removal of the war-time restrictions in the use of electrical energy for general purposes, and also to the new business obtained by the system."
NOTHING DONE RE COMMUTATION RATES
 I. S. Fairly of the city's legal department reported to the board of control yesterday that nothing had been done yet regarding commutation rates on the street railways as the department had not seen the new act. He asked what radius the board wished to include in the application. Mr. Fairly was instructed to communicate with other municipalities.

COMMISSION PROPOSED RE CIVIC ABATTOIR

Confronted with the problem of what to do with the civic abattoir and the cattle market, the mayor is in favor of appointing a small commission of three men to see if they can report on the whole situation, what is best to be done with the market and how it can be made a success.
 "I would prefer securing the services of three good citizens as a permanent commission to make it a success," stated the mayor. "Public-spirited citizens should be given opportunity to render important public service. I know of no better public-spirited men than ex-Controller John O'Neill and ex-Alderman John Dunn and a third man to be selected."
 The mayor will bring the matter before the board of control at the meeting next Wednesday.

COULD NOT BE WORSE

The system of dual control connected with the jail was criticized by Mayor Church at the board of control yesterday. He declared that politicians are appointed to office.
 Controller Maguire (slyly): This will be all changed in a couple of months.
 Controller Robbins: If a change it will be for the worse.
 Controller Maguire: I don't think it could be.
