

TORONTO SUCCESSOR FOR JUDGE ELLIOT OF LONDON?

Age Limit Causing the Retirement
of Five of Ontario's
County Judges.

The resignation of William Elliot, county judge for Middlesex, took effect yesterday, under the recent order relating judges when they shall have reached eighty years of age. Judge Elliot is 86, and was appointed in 1889. Other county judges whose resignations will be forthcoming under the same restriction are D. J. Hughes, county judge for Elgin; R. S. Woods, junior judge for Kent; John Deane, county judge for Renfrew; and P. O'Brien, county judge for Prescott and Russell.

It is expected that the successor of Judge Elliot will be Joseph Heighington, the well-known Toronto barrister. Edward Elliot, the junior judge for Middlesex, is not in the best health, and it has long been considered that he would be best off in London. It would be best all round to have appointed some one from within the district. An announcement can be expected at any time now.

It is understood that Mr. Heighington's name has been before the powers that be for some time, and while he personally has no representations, his friends have taken it on themselves to secure for him an honor that he has earned, and which he will uphold with becoming dignity and wisdom. After a quarter of a century of able practice in Toronto, Mr. Heighington's election to the county judgeship would prove popular, and would be a help, but with interested ones of both political parties.

TO IMPROVE SCHOOL HEALTH.

A meeting will be held in the Normal School this morning at 10 o'clock in connection with the proposed investigation into the sanitary conditions of schools in the province under a recent resolution of the Board of Health. Hon. Richard Bedford Borden, Minister of Education, will open the proceedings with an address. Dr. Hodgkins hopes to have a practical outcome from the investigation, which will be of service in planning new buildings, and in minor structural alterations of present schools. The Provincial Board of Health will meet to-day for the purpose of attending the Normal School symposium; and tomorrow for the transaction of routine business.

LABOR IN AUSTRALIA.

London, Feb. 1.—The New South Wales Political Labor League have adopted a resolution containing measures for advocating the establishment of a state bank, the abolition of the Legislative Council and the post of Governor, and the cessation of public borrowing except for the purposes of redemption of existing debts. Additional measures are for the completion of authorized public works and the imposition of a progressive land tax on estates of over £5000 value.

Shouldn't Let the Taps Run.

The City Engineer reported yesterday that the waterworks engines were working all right, but the water in the reservoir was very low. Mr. Rust will again call the attention of the Committee on Works to the necessity of increasing the water supply. The danger now lies in the fact that the level of the lake may fall, in which case the supply would fall far short of the needs of the city. Mr. Rust is strongly of the opinion that a very large amount of water is wasted by persons who allow their taps to run when they are not in use, and if the citizens took precautions in this regard, the danger of a water famine would be greatly reduced.

Railway Commission.

Ottawa, Feb. 1.—Dr. Mills met Hon. A. G. Blair this morning and conferred with him in regard to the work awaiting the Railway Commission. The commission will begin its work tomorrow. It is not likely that the board will meet to hear any railway applications until ten days' notice has been given. In the meantime the organization of the board and the drafting of rules of procedure will be taken up.

Jo-Jo is Dead.

New York, Feb. 1.—A despatch from Vienna says Jo-Jo, the dog-faced man, is dead from pneumonia at Salomona, Macedonia. Jo-Jo was born in Finland and had been exhibited in all parts of the world.

Hard on Building Trade.

The continued cold weather had a bad effect on the building trade. The permits for the past month amounted to but \$61,450, as compared with \$107,570 in the same month of 1903.

Tuberculosis of The Lungs Cured

The antiseptic vapor of Catarrhazone is inhaled right into the lungs, kills all the germs, heals sore membranes, cures thoroughly.

CATARRHAZONE CURES WHEN ALL OTHERS FAIL

MRS. G. P. MCLUSKEY, writing from Salt Lake City, says: "About a year ago I felt very poorly, and was completely worn out with a cough that would not let me sleep. I had a slight temperature too. I consulted my doctor, who discovered I had tuberculosis of the lungs. He ordered me to Colorado, where I first heard of Catarrhazone. I bought a large package, and inhaled it probably twenty times a day. It would be impossible for me to tell how much Catarrhazone did for me. In one week I was able to get on my feet, and it did not very long before I was taking every bit of exercise and housework as usual. My throat, the antiseptic vapor of Catarrhazone must certainly have killed the germs of my infection in my lungs, for I came home in seven months, a 'cure.' My doctor says Catarrhazone is the greatest assistance to lung trouble."

Following letter from Rockland, which he hopes will point the way to recovery for many other sufferers: "I was horrified to find that I had active tuberculosis infection of my lungs a year, roundabout Mountains, but did not fail to take a good supply of Catarrhazone with me. Catarrhazone was the means of enabling me to return in the five months perfectly cured. It has a most marvelous influence on a consumptive's cough, and saves you from the strain that coughing imposes. I kept the Catarrhazone inhaler in my mouth nearly all the time, and believe it killed every germ in my body. Other sufferers from the same trouble also spoke very highly of Catarrhazone, which is one of the great discoveries of the age. My only wish is that others will follow my example and use Catarrhazone too; it cannot fail to cure."

Not only consumption, but every form of catarrh, asthma, bronchitis, larynx and throat trouble is curable by Catarrhazone. Two months' treatment, costs \$10.00. Sold by all druggists, or sent to your home by mail if price is forwarded to N. C. Polson and Co., Manufacturing Chemists, Kingston, Ont., Canada, or Hartford, Conn., U.S.A.

SEE IT YOURSELF.

Splendid Panoramic Views of
Famous Atlantic City
and Vicinity.

Many Toronto people have visited Atlantic City, the famous Jersey winter and summer resort; many more people have heard of the spot, and, if there is to be any more of this sort of below zero weather around Toronto, will be waiting to go there. All Toronto people should have a look at the beautiful exhibit being shown just now in period 210 in the King Edward VII Hotel. Harry E. Smith, who represents the leading hotels of the famous seashore resort, is with the exhibit, and can tell you more about Atlantic City in five minutes than you could learn from any other source. The views are in water color and are well worth examination.

Mr. Smith has arranged an exhibit of pictures showing not only the prominent hotels of the city, but its parks, its broad highways, its beautiful harbor, and which at all times is dotted with pleasure resorts. The exhibit is a quarter of a century of able practice in Toronto, Mr. Heighington's election to the county judgeship would prove popular, and would be a help, but with interested ones of both political parties.

RICKARD PROVOKES GAMEY BUTTEMEST SOOT STILLED

Man From Manitoulin Repudiates
Globe Report of Woodstock Speech
—New Member To-Day.

Yesterday's debate in the legislature developed just a slight ripple of excitement. It soon subsided and the remaining portion of the speech was as inoffensive as anything that could have been said at a 5 o'clock tea. It was Wm. Rickard who provoked Mr. Gamey to a declaration that The Globe had misreported his speech at Woodstock. "Absolutely false," were the words of the member for Manitoulin used to describe the paragraph in the chief Liberal organ. Having said this, Mr. Gamey sat down and the Speaker informed the house that a speaker may not comment on such articles, merely contenting himself with reading the substance of the speech. Mr. Gamey then put up a fair argument, dealing with a variety of subjects, but paying particular attention to agriculture and live stock.

The debate will not conclude till Wednesday or Thursday. On the government side Mr. Routledge and Mr. Graham are to speak, while the Conservative side will be represented by Mr. Rickard and Mr. Gamey. Mr. Carleton of Hamilton will not be in the house this time, having gone south for his health. Mr. Barber, who is also unwell, will stay away on account of a cold. Mr. Munro, the victor of North Oxford, will be introduced to the Speaker today.

Mr. Crawford Resumes. The debate was resumed by Mr. Crawford (West Toronto). He intimated a speech of some length on the "Jeune réclamation de l'ouest" and "First paying a compliment to Mr. Rickard for his address on Thursday, he said the member for Muskoka was an acquisition to the strength of the opposition. Mr. Crawford said, "Enjoying prosperity under the divine blessing, and we have good enough for man and beast," taking a little of the credit away from the government. Referring to the appointment to the vacancy at the head of the Agricultural College, there was a strong feeling that there is a gentleman in connection with the college who should not have been overlooked. He referred to the complaint that the government has not received credit from the opposition for the good it has done. The wrong-doings of the government, he said, overshadowed anything good that has been done by it. After saying he did not know another case where an opposition had behaved in a more unbecoming manner, he took up the statement of T. H. Preston that the Ontario Agricultural College was a "poisonous organization." This charge was untrue and unwarranted, and he had no doubt that a large number of Liberals were members of the association, and would resent the charge.

Criticism Warranted.

Mr. Crawford said the criticism of the position that the financial affairs of the province were not well conducted by the government, that perhaps an official has been stealing large sums from the treasury of the province for years, and that the Crown Lands Department was being mismanaged, was abundantly shown by an official of that department pointing to the extent of \$5000 in the treasury. Recent findings by the judiciary had not tended to strengthen the confidence of the people in the government. He said that Chancellor Boyd and Justice Falconbridge, said Mr. Crawford would be disposed to say that it would be better for them, for the government, for the judiciary and for the people if they had not been given the commission to try the Gamey charges. The people believed that their own government was doing better than the government of Ontario, and referred to a number of the great individual thinkers who stood out in the history of the church.

Whitby's Jubilee.

P. Howard Ames, secretary pro tem. of the Whitby and Ontario County Jubilee and Old Boys' Association, has taken upon himself the task of going on in splendid style. A meeting will be held to-night in Whitby to consider arrangements.

No Canadian at Monte Carlo.

London, Feb. 1.—The suicide at Monte Carlo, which was a Canadian named Robert Vernon proves to be Meredith Thomas, an Englishman.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."
Dr. J. B. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."
Dr. J. E. Waggoner, of Chicago, Ill., says: "I can most heartily recommend your Castoria to the public as a remedy for children's complaints. I have tried it and found it of great value."
Dr. Edward Parham, of Brooklyn, N. Y., says: "I have used your Castoria in the treatment of children in a manner that has advised several patients to use it for its mild laxative effect and freedom from harm."
Dr. J. H. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infants and children, I most cordially commend its use. The formula contains nothing deleterious to the most delicate of conditions which arise in the care of children."
Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the use of proprietary medicines, your Castoria is an exception to the conditions which arise in the care of children."
Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner that no other proprietary preparation. It is a safe and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."
Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest of the medical profession in a manner that no other proprietary preparation. It is a safe and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."
Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations for children's ailments. It is a safe and reliable medicine, relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."
Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. I have found it a most reliable and efficient remedy for the treatment of all ailments of children. It is a good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."

YORK LAW ASSOCIATION.

The annual meeting of the County of York Law Association was held in the Library of the association on Monday, Jan. 25, there being present the president, J. B. Clarke, K.C., H. C. Cassels, K.C., J. W. H. Blake, K.C., J. J. McLennan, K.C., E. B. Bayly, K.C., J. Russell Smith, K.C., H. T. Beck, D. J. Symons, D. W. Saunders, S. D. Wood, W. B. Roney, George C. Campbell, H. C. McKie, George Bell and the secretary, J. B. Clarke, K.C. A report of the association was presented by Walter Barwick, K.C.

Considerable discussion took place upon a resolution submitted by W. H. Blake, K.C., recommending that the long term of the association should begin on the 22nd of July in each year and terminate on the 22nd of September following. The resolution was adopted. The association finally determined to communicate with its members with the object of ascertaining their views upon the proposed change, the result of such enquiry to be laid before the Board of Directors, who were empowered to act thereon.

The election of officers was proceeded with and resulted as follows: President, Hamilton, Cassels, K.C.; Vice-president, D. W. Saunders, K.C.; Secretary, Walter Barwick, K.C.; Treasurer, J. B. Clarke, K.C.; Board of Trustees, Edward Bayly, K.C., J. Russell Smith, K.C., H. T. Beck, D. J. Symons, D. W. Saunders, S. D. Wood, W. B. Roney, George C. Campbell, H. C. McKie, George Bell and the secretary, J. B. Clarke, K.C. A report of the association was presented by Walter Barwick, K.C.

Care of Lighthouses.

Ottawa, Feb. 1.—The work of location, equipment and management of light-houses had been transferred to the Light-house Board. The Minister of Marine and Fisheries, Mr. D. B. Sutherland, has been appointed to the position of Minister of the Board of Trustees, Edward Bayly, K.C., J. Russell Smith, K.C., H. T. Beck, D. J. Symons, D. W. Saunders, S. D. Wood, W. B. Roney, George C. Campbell, H. C. McKie, George Bell and the secretary, J. B. Clarke, K.C. A report of the association was presented by Walter Barwick, K.C.

Three Firemen Suffocated.

New York, Feb. 1.—Fire in the warehouse of the American Manufacturing Company in Brooklyn last night took the lives of three firemen, overcome by the fumes of burning lime and hemp with which the warehouse was filled. Twenty-five men were overcome, and two are in a critical condition. The damage was \$25,000.

This Street Paved With Gold.

Dawson, Y.T., Feb. 1.—The Town of Grand Forks is being undermined in pursuit of gold. It has a population of 500, with one long street, lined with business houses, and owners of lots on the street have begun digging under their own buildings in quest of the yellow metal, and are having success.

Educational Campaign Needed.

London, Feb. 1.—Some of the most convinced tariff reformers consider the main lesson to be drawn from the recent by-election is that much patient, practical, educational work is yet required. Any attempt to rush the country has already been disclaimed by the most eminent of them all.

Sleep Away.

Galt, Feb. 1.—William Rutherford, 45 years of age, an employee of the Galt Gas Light Co., committed suicide by inhaling gas, being dead this morning in his own house. He is said to have been drinking excessively lately. He leaves a widow.

The Land of Promise.

Winnipeg, Feb. 1.—Homesteading returns for last week in the Territories in the west are being received at the local government offices, and show a steady settlement despite the season of the year.

QUICKEST AND MOST EFFECTIVE.

I have used Dr. Wood's Norway Pine Syrup in my family and have found it the quickest and most effective remedy I have ever used. My little boy had a severe attack of croup, but after using a bottle of the Syrup he was completely cured. I cannot praise it enough.
Mrs. Wm. J. FLEWELLING, Arthur, Ont.

DR. WOOD'S NORWAY PINE SYRUP

Cures Coughs, Colds, Bronchitis, Pain in the Chest, Croup, Hoarseness, Sore Throat, Asthma, Whooping Cough, Quinsy, and all Throat and Lung Troubles.

It is pleasant to take and is soothing and healing to the lungs. There is nothing to equal it for stopping that tickling sensation in the throat, and the persistent cough that keeps you awake at night.

Price 25c. at all Dealers.
