SAVE YOUR HAIR! 25 CENT BOTTLE STOPS DANDRUFF

Every bit of dandruff disappears and hair stops coming out.

Try this! Your hair appears glossy, abundant, wavy and beautiful.

"Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—any time—will surely save your hair."

Get a 25-cent bottle of Knewlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few days' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

The total cost is about 4 cents and gives you 16 ounces—family supply—of a most effective, pleasant-tasting remedy. It keeps perfectly.

BONAR LAW SAYS NEUTRALS SHIRK RESPONSIBILITY

Failed to Protest Against Germany's Methods of Conducting War.

SHARP REPLY TO WILSON

Other Methods Than Those Outlined Made Necessary by His Conduct.

BERLIN MUCH CONCERNED

Believed Wilson's Last Move—If It Fails, Must Take Sides.

LONDON, Jan. 24.—A. Bonar Law, chancellor of the exchequer, and member of the British war council, declared in a speech at Bristol today that President Wilson's peace aims were shared by the Entente Allies, but that, under the circumstances, other means must be taken to obtain peace and that it was impossible to insist on a peace which leaves Germany's military machine unbroken.

Mr. Bonar Law declared that as President Wilson's aim was to achieve peace at present and in the future also was the aim of the Entente, therefore, the president's proposal should not be regarded as utopian.

"But," he continued, "in view of Germany's manner of conducting the war and also of the fact that the neutral nations failed to protest against the circumstances, other steps than those outlined by the president are necessary to obtain peace."

Only Reply Is Given.
The speaker's reply to President Wilson's speech to the United States Senate:

"The end of war is peace. The Germans made us what they have called an offer of peace. It received from the Allied Governments the reply which it deserves—the only possible reply."

"Most of you have, however, I presume, read the speech by President Wilson, which appeared in yesterday's papers. It is a speech which it is right that any member of one of the Allied Governments who refers to it should speak with equal frankness. It is impossible that the same point of view on it should be the same point of view."

"The head of a great neutral nation, whatever his private views may be, and I am sure that Mr. Wilson is one of them—must adopt a neutral attitude. America is very far removed from the horrors of this war. America is neutral; we are not neutral. We believe that the essence of this conflict is a question which is as old as time, the difference between right and wrong. We believe, we know, that this is a war of naked aggression, that crimes which have accompanied the conduct of the war, which have been unknown in the world for centuries, are small in comparison with the initial crime of plunging the world into war by cold-blooded calculation because those responsible thought it would pay."

Not Altogether Utopian.
"President Wilson's speech has this aim—to gain peace, and secure peace for the future. That is our aim, and our only aim. He hoped to secure this by a league of peace, and he not only spoke in favor of such a league, but he is trying to induce the American Senate to take the steps necessary to give effect to it. It would not be right to regard this proposal as something altogether utopian. You must, that I do, most up to our own day duelling continued, and just as the settling of private disputes by the sword has now become unthinkable, I think it may be said that the time will come when all the nations of the world will play the part which Cromwell described as his life-work—to act as conciliators and peace."

A Neutral Sanction.
"But this whole subject is not an abstract question for the future. It is a question of life and death now. In judging whether that result can be secured by this method, it is impossible for us to forget the past. For generations we have been engaged in a struggle against the nations, driven by the Hague convention, by peace conferences and by all other means to make peace impossible, or at least to mitigate the horrors of war. When war comes, by what means can these barriers built up against barbarism be made effective? They cannot be preserved by the Belgians, if any of them choose to ignore them. It is only from neutral states that effective legislation can be given to them."

Treaties Turn Up.
"What happened? At the very outbreak of the war the Germans swept aside every one of these barriers. They tore up treaties which they had signed, they destroyed mines in the open sea, they destroyed every atrocity on sea and land against the Hague convention, which they had themselves signed. They destroyed neutrals as ruthlessly as they did their enemies. They are at this moment driving the population of conquered territories into slavery, and worse even than that, they are making some of the subjects of their enemies take up arms against their country."

No Neutral Protest.
"All this has been done, and no neutral power has been able to stop it. No neutral power, indeed, has made any protest against it. We must, then, take other means to secure the future peace of the world."

We have rejected the German offer to enter into negotiations, not from lust of conquest or desire for chivalry victories. We have rejected it, not from a spirit of vindictiveness or a desire for revenge, but because peace now would mean a peace based on victory.

Sure Way To Get Rid Of Dandruff
There is one sure way that never fails to remove dandruff completely, and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; rub it enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look like a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail—Advt.

It would be a peace which would leave the military machine unbroken with the halo of success surrounding it. It would leave the control of that machine in the hands of the same men who for a generation prepared for war, who were praying for peace, and a peace which would choose their own time and plunge the world into the horrors which we are now enduring.

Aim Same as Wilson's.
"Our aim is the same as President Wilson's. What he is longing for, we are fighting for, our sons and brothers are risking their lives for, and we mean to secure it. The hearts of the people of this country are longing for peace; we are praying for peace, for a peace which will bring back to us in safety those who are fighting our battles, and a peace which will mean that those who will not come back have not laid down their lives in vain."

A Pertinent Reply.
Commenting editorially on Andrew Bonar Law's speech, the Daily Chronicle says:

"Mr. Bonar Law has made a prompt and pertinent reply to President Wilson's address, and has indicated with great clearness that the main differences between the president's viewpoint and our own. In the practical world we cannot safely shape our plans for the future without reference to the past and the present, and Mr. Bonar Law is justified in his reminder that for that past and the present the United States has a share of the responsibility. We are bound to ask ourselves what sort of value the concurrence of the United States in international agreements has been to the maintenance of the past and the present, and the answer is that under President Wilson's own administration it has proved valueless."

Has Miscalculated.
"We still think that the president has made a miscalculation upon this head. He has acted on the reckoning that if he stood so far outside the struggle as never to protest except against direct infringements of American interests, he would be able to secure with greater acceptance at the end of the war. That might conceivably have happened if a drawn ending of the war were likely."

IRISH NATIONALIST SAYS WORLD NOT RIPE FOR IDEALS OF WILSON

DUBLIN, Jan. 24.—John Dillon, nationalist member of Parliament for East Mayo, in a statement to the Associated Press today, said:

"The speech of President Wilson is unquestionably the most remarkable and momentous uttered by the ruler of a great power for more than a hundred years."

E. W. Nesbitt Says National Service May Help Muniton Makers, That's All.

[Special to The Advertiser.]
OTTAWA, Jan. 24.—Many aspects of the war situation, both in Canada and abroad, were touched upon in the Commons today, as both Conservative and Liberal speakers. A fling was taken at the peaceful interference of President Wilson in the European struggle.

Attention of the Government to coal shortages was called by Dr. Steel, who said that so limited were supplies that a number of factories had closed. Dr. Steel said that the minister of railways said that the Government was aware of the conditions and was doing what it could to correct it. Nationalist Omination.
The speech of the nationalist leader, Dr. Steel, was dominated by the nationalist leaders, and that he had been dismissed from the Government and Speaker Sproule had been moved from the speakership of the House of Commons at the end of the war. Dr. Steel said that the minister of railways said that the Government was aware of the conditions and was doing what it could to correct it.

Peace by Bayonet, Not by Typewriter, View in Washington

Wilson's Effort Characterized as "Stump Speech From Throne" in Bitter Debate in the Senate.

W. T. Gregory, tobacco manufacturer of Lexington, sent The Advertiser the following dispatch from Washington last night: "Senate in bitter debate on Wilson's peace speech, one senator characterizing it as a stump speech from the throne. Prevailing opinion here is that peace can come through the bayonet, and not by means of the typewriter. The monument here, 550 feet high, was built for a great American who did not believe in peace without victory."

Grenade Explosion Kills One, Injures Ten
Live Bomb Causes Death at Hamilton Military School.

HAMILTON, Jan. 24.—Pte. William O'Reilly of Shelburne, 16th Battalion (Hilton and Dufferin), was almost instantly killed, Pte. R. J. Small, 16th Battalion, was probably fatally injured, and three others sustained serious injuries this afternoon at the bombing school at the rifle ranges by the explosion of a live grenade.

The others wounded are: Ptes. Albert Greenwood, Harold Luss, Roy Laking, Charles Nelson, 16th Battalion; Ptes. Thomas Argent, Fred Woodbridge, Geo. Tyson, Thomas Edge, 16th Battalion. Pte. Small underwent an operation soon after the accident, but little hope of his recovery is entertained.

At the time of the accident Capt. Harvey Eved Hutton, a returned officer, who is in charge of the lecture, was addressing a class on the construction of bombs in some way unexplained. The lecture was being given in a room which was being used for a demonstration. It is thought that Nelson, in handling the loaded grenade, loosened the lever, causing it to explode.

The bomb that caused the trouble is technically known as No. 1 general service live grenade, and is an Infantry club and very powerful.

Operations to remove shrapnel were performed on all the victims. In the majority of cases the injuries are not serious. The leg below the knee, though in some cases there are head wounds also.

All the 26th men ("Tiger Battalion") are from Hamilton. The addresses are: Ptes. Small, "Vergus Falls, formerly Grand Valley; Lush, Oakville; Laking, Everett; Nelson, Milton.

ASSASSIN'S ATTEMPT JAP LEADER'S LIFE
Tokio, Jan. 25.—An attempt was made to assassinate Yuki Okada, former minister of justice and leader of the Constitutional party, while he was addressing a mass meeting called to demand the resignation of the cabinet.

Two other men then tried to assault the former minister, and were badly beaten by the audience. Mr. Okada demanded that Premier Terauchi resign on the ground that his administration was a constitutional crisis. A heavy police guard is in attendance for today's session of the Diet.

BULGARIA SIDESTEPS DIRECT REPLY, BUT BLAMES THE ALLIES

Tells Neutrals Future Bloodshed Rests Upon Her Enemies.

LONDON, Jan. 24.—Telegraphing from Amsterdam, Reuters' correspondent sends the following dispatch received there from Sofia, concerning Bulgaria's answer to the reply of the Entente powers to the peace proposals of the Teuton states.

"The Bulgarian note to the neutral powers says the form and contents of the Entente reply to the peace note of the central powers forbids Bulgaria to reply direct. Nevertheless, conscious of its duty toward humanity and the Bulgarian people and anxious to disclaim responsibility for prolongation of the hostilities imposed by the common enemy, the Bulgarian government begs to explain its viewpoint to the neutral powers."

"In the course of the explanation, which leaves to the judgment of history the fixing of the original responsibility for the war, the note protests strongly against the enemy's interpretation of the motives of the central powers and insists on the sincerity of their peace proposals. It declares that Bulgaria and her allies loyally attempted to put an end to the war and that it depended solely on their enemies to enter the path toward peace. Confident of their good cause, peace, the allies (Teutons) are compelled to continue the struggle and leave responsibility for fresh bloodshed to the enemy powers."
