Reports of the special committee on rural immigration and re-population of the Western Ontario Associated Boards of Trade were made following a luncheon held at the Tecumseh House at moon today. Addresses were given by M. M. Maxwell of Chatham, S. Frank Glass, M.P., John Bridge, who presided and other members of the committee. The report was read by Secretary Gordon Philip, urging upon the Provincial Government the establishment of an immigration distributing station in London and fairness to Western Ontario in sending a reasonable share of the better class of immigrants to this district. It also suggested the sending of special representatives to England to hand-pick immigrants there, as Lambton and Middlesex counties did before the war.

London's consumption of water on Tuesday was 6,400,000 gallons. This is not a new record, but is very close to the highest figures yet recorded.

General Manager Buchanan points out the need of economy in water consumption on the part of the general public, and claims that the domestic consumption is over 5,000,000 gallons dally, the factories only using about 1,000,000. This means that every man, woman and child in London uses, drinks or wastes about 100 gallons of water daily, enough for everybody to swim in, as Mr. Buchanan puts it.
