Fight the standpoint of excellence in the craftsmanship that is essential in the production of the motion picture of today. "The Fighting Shepherdess" possesses the merit of a carefully worked out attraction. But from the human interest point of view which so much determines the amount of enjoyment an audience can derive from a picture, it is one of the most laudable pictures offered to local theatregoers this season.

An all-star bill of vaudeville will be presented at Loew's for the first part of the week commencing Monday next. Lunette Sisters, shapely, with a heap of good looks and a barrel of personality, will delight with a spectacular series of amazing aerial feats.

Frank and Ernest, the personality boys, have a snappy turn of comedy, song and dance that should bring a heap of laughs and plenty of applause.

Miriam Mason and Carl Fletcher will present a classy breeze from the current musical successes of the season. #### **ONE-REELERS**

"Trumpet Island" is the title of Vitagraph's second mammoth production, it is announced this week by Albert E. Smith, president of that company. The picture, biggest in the history of Vitagraph, and some believe in the entire industry, has been practically completed, and is being edited under the direct supervision of Mr. and Mrs. George Randolph Chester, who adapted the scenario from the story by Gouverneur Morris. The greater part of the picture was made on the West Coast, under the direction of Tom Terriss, but Mr. Terriss and a part of his company came east about three weeks ago to film some final scenes in New York City and along the Hudson River. "Trumpet Island," which will be re-

leased in September, is a thrilling story of love and adventure, fashioned after the best style of Gouverneur Morris. Several months were spent in producing it, and the cost of this production is said to have passed the quarter of a million mark. There is an all-star cast in addition to scenes, in which hundreds of players appear, and mammoth and palatial sets, in which the wild midnight orgies of millionaires are shown. It is probably as rich in spectacular value as any story ever transferred to the moving film. There are extravagant contrasts in the settings of the story, one's attention being whisked from scenes of revelry in the heart of the metropolis to barren stretches on a lonely isla

lonely isle.

It was filmed in the famea Imperial Valley of Southern California and Cata-lina Island—with the exception of the comparatively few eastern scenes—and the work was accomplished only after weeks and weeks of patient and per-sistent effort on the part of Director Tom Terriss. A large fleet of airplanes carried the company to location on diferent occasions, and Mr. Terriss explained that this was not done for any pallyhoo exploitation purposes, but for the most practical reasons.
