

## LAST OPPORTUNITY TO SEE WAR FILM

Remarkable Run of Somme Pictures Closes at Rialto and Globe Tonight.

### RETURN IS UNCERTAIN

Long Time Before Another Film So Realistic Appears in Toronto.

With no future booking listed, the last opportunity to see "The Battle of the Somme" official motion pictures in Toronto will be presented Saturday at the Globe Theatre, 72 West Queen street, and the Rialto Theatre, Yonge and Shuter streets, when these theatres will close the second week's successful exhibitions of this film.

Whether the pictures will again be shown in Toronto is problematical. At least there is no certainty, and unless persons who desire to see the film attend Saturday at the theatres where the pictures have been presented since Monday under the auspices of The Toronto World, it is doubtful if they will be given another opportunity. A steady patronage which visited these two theatres during the last week and kept all the seats occupied most of the day recorded another success for the pictures. Thousands of people saw the pictures this week and praised them in terms no less enthusiastic than those which featured the comments of the previous week's crowds.

Very Successful.

No theatrical enterprise has ever scored so big a success in Toronto, and it will be some time before another film so important or realistic will be shown to Toronto theatre-goers.

"The Battle of the Somme" film deserves the attendance of everybody. King George, Lloyd George, British minister of war, Sir Douglas Haig, commander of the British army, and other persons high in the councils of Great Britain's Government, as well as Canadian and Ontario officials, recommend this picture to the public. Not only is the picture a document of historic importance, but it portrays better than any description yet furnished, or will be furnished of the Somme offensive.

This battle is the greatest in the history of the empire. No battle ever entailed the use of so many men, so many guns, such vast quantities of powerful munitions. The battle of Waterloo was a skirmish compared to this offensive.

In July the British casualties were 20,000, and since then many more have been recorded. Long before the attack was launched preparations were made for it.

All the intense but methodical activity of preparation as well as the actual warfare in which men fall in action or are wounded is recorded in this film. The spectator is spell-bound as he watches the British army machines in its first offensive.

No Virtue in War.

At the back of our minds is the thought that war is an exciting adventure, an adventure in which there is nobility and chivalry and some goodness. There is virtue in those who fight, but as the film proves with a realism that leaves nothing to the imagination, there is no virtue in war itself.

Under the relay system thru which the films are shown at the theatres, there are no relays or congestion of crowds at the door. People can enter as soon as they buy their tickets. Special music is rendered by orchestras, and all accommodations are made to add to the pleasure of the spectator.

A children's matinee will be given this morning from 9 o'clock until 11 noon, permitting children to attend in company with an adult guardian. Only five cents is the price of admission to this film. Many people are expected to attend the playhouses today to prevent missing the opportunity of seeing this greatest and most remarkable of all films.

## HAVE CERTIFICATE TO ENTER ONTARIO

Children From Quebec Must Show They Are Free From Infantile Paralysis.

### TO PREVENT SPREADING

Death From Disease in Toronto Prompts Action of Health Authorities.

To prevent the outbreak of infantile paralysis in Westmount and Montreal from spreading to Toronto, Dr. J. W. S. McCullough, chief of the provincial health department, yesterday issued a regulation prohibiting persons under 16 years of age from entering Ontario unless from the Province of Quebec unless they have a medical certificate dated within 24 hours of their time of departure, certifying to their good health and to the fact that they have not been exposed to infantile paralysis. Transportation agents are required to take cognizance of this.

Dr. McCullough has sent Dr. P. J. Maloney of Cornwall, to investigate conditions in Quebec. The medical officer of health is informed that there are 25 cases and 10 deaths in Montreal, and believes that the number may be greater than this.

In consequence of the death yesterday from this disease of Betsy Kirkpatrick, 121 Fairham avenue, it was suggested that Brown School should be closed. This, however, neither Dr. McCullough nor Chief Inspector Cowley advised. The child is thought to have contracted the disease in Montreal. She had been staying there a week, returning to Toronto on Saturday.

### NOT OPEN ROSEDALE END OF VIADUCT THIS FALL

Block Pavement Not Yet Down and Cannot Be Laid Because of Frost.

Answering a newspaper report that the Rosedale section of the Bloor street viaduct would likely be opened in two weeks, Engineer Powell of the works department, declared yesterday that there was absolutely no possibility of it being opened this fall. The bridge work itself is nearing completion, he agreed, but the block pavement is not yet down and cannot be laid this fall because of the danger of frosts. They are finishing up the hand rails on the bridge now.

The filling and grading of the approaches to the viaduct have hardly been touched yet. At Parliament street the big fill has yet to be made and then pavement laid after the land is settled. At the end of the Rosedale section of the viaduct near Drumshead road, the ground hasn't been touched for grading and further along the bush has not even been cut yet, in so far as pedestrians and light vehicular traffic using it. Engineer Powell says that the approaches are littered with scores of tons of contractor's material.

### FIRE CHIEF COMES TO DEFENCE OF THE MAYOR

Says He Recommended That Webster Be Given Secretaryship.

In a long letter written to Mayor Church, Fire Chief Smith takes occasion to defend the mayor from recent criticism arising out of the refusal to appoint as fire department secretary, J. T. Robins, returned wounded soldier. "It must be noted," writes the chief, "that Mr. Webster has filled the position since March 1. When I was satisfied that I had a suitable man I passed on my recommendations that he be employed. I am, of course, in no way to be held responsible for the decision. I should be vested with power to employ the help for my own department without unjust interference or be handicapped in any way."

Chief Smith in conclusion gives a synopsis of the dates and occurrences leading up to the Webster appointment. He states that Mr. Webster was fire secretary when the letter from the Soldiers' Aid Commission was received.

### TWENTY-THREE MEN BACK FROM OVERSEAS

The men arriving yesterday were taken in a special street car to the Spadina Military Hospital, where they received their checks and discharges. Those who came home were Pte. ## EXPECTED BATTLE DIDN'T MATERIALIZE

Ald. McBride Alone in Objection to Curtailment of Duplex Avenue Work.

### THOUGHT WISEST COURSE

Works Committee Refuses to Halt Operation on Davenport Car Line.

The expected battle in the works committee over the proposed curtailment of the Duplex avenue extension scheme did not materialize yesterday. Ald. Sam McBride, who had been expected to oppose the recommendation voted alone against it. The proposal sent forward is to cut out the Duplex avenue extension at Chaplin Crescent and effect a saving of \$23,700.

"This work appears to me to be just as important as the Teruway street extension, on which we have spent hundreds of thousands of dollars," argued Ald. McBride. "If it is only for the purpose of saving money why I'm doubtful as to the wisest course when you are going to take the club out of the city's hands with which we hoped to deal with the Metropolitan Railway."

Ald. Graham said there could be little doubt as to the wisest course when four officials had reported favorably on the abandonment of part of the scheme and it would save \$23,700. Ald. McBride wanted to know about the payment of the \$90,000 already spent. Commissioner Forman replied that this amount would all be covered by local improvement taxes.

The committee refused to halt work on the Davenport car line pending an attempt by some of the residents to have the line deviated. Representatives from Sir John Eaton asked two weeks' delay with a view to facilitating a new agreement to change the course of the line to Bridgman street. When City Solicitor Johnston gave it as his opinion that the committee would be unwise to interfere with the work the board refused the request.

Ald. McBride charged that some of the city's workmen were being instructed by their own foremen to go slow with the work on hand because there was nothing more on hand. "These are serious charges," Ald.

## Like a Boy at 50 Bubbling Over With Vitality—Taking Iron Did It

Doctor Says Nuxated Iron is Greatest of All Strength Builders—Often Increases the Strength and Endurance of Delicate, Nervous Folk 200 Per Cent. in Two Weeks' Time.

NEW YORK, N.Y.—Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 30 and as full of vigor, vim and vitality as a young man. In fact a young man he really was, notwithstanding his age. The secret he said was taking iron—Nuxated Iron had filled him with renewed life. At 50 he was in had health; at 46 a nervous and nearly all his life he had been a weakling. Now at 50 a miracle of vitality and vigor. As I have said a hundred times over, iron is the greatest of all strength builders. It builds the life of thousands of people who are weak, nervous, and who take simple Nuxated Iron. It builds the life of thousands of people who are weak, nervous, and who take simple Nuxated Iron. It builds the life of thousands of people who are weak, nervous, and who take simple Nuxated Iron.

NOTE.—Nuxated Iron, recommended above by Dr. Cass, is a great medicine, not a secret remedy, but one which is well-known to druggists and whose constituents are widely prescribed by eminent physicians everywhere. Unlike the older iron pills, it does not irritate the stomach, does not injure the teeth, makes them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as in nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if it cannot take any man or woman under 40 who lacks iron and increases their strength 200 per cent. or over in four weeks' time. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Dr. J. M. Limited, and all other druggists.
