PORTLAND HAS NEW ADVANTAGE

The Maine Port This Year
Profits by Recent Rail-
road Agreement.

A highly important matter which has not hitherto been publicly brought out in the discussion of port matters was presented to The Times-Star this morning by a prominent shipping man. It is that at present, through a recent agreement made by all the American trunk railroads, freight from any point in the United States can be shipped to Portland at the same rate as to New York, Boston or St. John. Previously this was not the case. It changes the whole picture of the Portland port as a receiving point for goods from the U. S. or Canada and the shipper does not have to pay anything extra for delivering his freight at any of those ports.

The State pier at Portland is used, and there are no wharfage charges on export freight, whereas at St. John steamers have to pay side and top wharfage, so that, on the average, the steamer coming here is penalized by from \$500 to \$1,000 in port charges, besides the higher insurance on bulk.

The Times-Star's informant suggested that this very important feature of the situation should be frankly and fully considered by St. John in deciding the question of port charges and of meeting the competition of other ports.

LAWIS PATIENT; IT GETS LEGERE

He Escaped From Police
Headquarters in July;
Now Retaken.

A sensational escape of a prisoner from one of the cells in Central Police Station was recalled this morning when Alexander Leger appeared before Magistrate Henderson on a charge of fighting in the public streets on July 29 and later escaping from custody. He acknowledged that he had been fighting at that time, but said it was self defense. The charge of breaking from lawful custody was not read and the prisoner was remanded to jail until the authorities are ready to go on with the case.

On July 29 after being arrested the defendant was left in a cell in the basement of Central Police Station until he could be taken before Magistrate Henderson next morning. During the night he succeeded in opening the door of his cell and was thought to have gone up the back stairs to the court room and then continued down to the main exit and out. The following morning when the charge sheet was presented to Magistrate Henderson the word "escaped" was written after his name. An investigation disclosed that the lock on the cell door was defective and a new one was put on. Since that time the police have been on the lookout for Leger and last night he was seen and taken into custody.

MARKET TAKES ON FALL LOOK

The country market this morning had taken on the tinge of autumn and the flowers which have made it so bright all summer were missing. The places have been taken by the vegetables and fruits of fall. There was an abundance of good things from which the housewife might select the Sunday dinner and prices were about the same as they have been for the last week or two. Artichokes were on sale this morning and Brussels sprouts were quite plentiful. Chickens sold at 35 cents a pound; butter 45 cents, and eggs 55 cents for guaranteed fresh. Lamb sold at 20 to 30 cents, veal 18 to 30, and beef at 12 to 30 cents a pound.

SURVEY ROADS AT TUCKER PARK

Commissioner Frink said this morning that he and the superintendent of streets had gone over the Tucker Park area and had surveyed two routes which the road from Tucker Park to the Millidgeville Road might take. One route followed the shore and would give a view of the river practically all the way. The other came out about the junction of the Millidgeville and Bear's Head roads. The road which would have to be built would be from one half to three quarters of a mile in length. The commissioner said he had been negotiating with F. P. Starr of the Turnbull Real Estate Company and had been assured by him the company would co-operate in opening up the area.

TRADE INQUIRIES.

The Board of Trade this morning received a request from the Canadian Trade Commissioner at Jamaica for literature about the city and province which he could distribute among the merchants and exporters of that place. Several publications have been sent forward. IS QUITE A JOB.

Good progress with the building of the new street was made this morning by the workmen of the Corporation. The work was reported this morning by Commissioner Frink. He said this was a work of considerable magnitude, as the base of the wall was about five feet thick. The street work was progressing favorably, the commissioner said. While working there the workmen found a private walk to his home. This latter work had been intended, he said, only after it had been ordered by the local collectors.

Magistrate Henderson was informed that Moore should be at the Alms House where arrangements had been made to care for him. He was ordered sent to the institution.

WALKS OFF WITH PAY ENVELOPE

Woman Claims Wages of
Window Washer, Lost
in the Street.

Two window-washers were handed their pay envelopes this forenoon. One put his in a hip pocket and stuffed a handkerchief in after it. Casually drawing out the handkerchief a few minutes later he doubtless pulled out the pay envelope with it. The money fell to the crowded sidewalk. The loser's work-mate picked up the envelope and seeing a woman standing close by, inquired if she had lost the envelope. The woman hesitated a second, then reaching out her hand said that she had. She took the cash and walked off briskly.

It was just then the other window-washer came up and told his pal of his loss. The finder, surprised, described the money and it was immediately concluded the honest-minded chap had given away his friend's week's pay. A quick search was made for the woman but she had flown. The window-washer with the gentlemanly and honest disposition is certain of the woman's identity and says he would know her again among 10,000. Fortunately he has witnesses that saw the incident of handing the envelope with the inquiry as to its ownership. So interesting things may develop soon.

Interment was in Fernhill.

As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Lombard, "did your jaw fall when you got the news from Ontario?"
"About them fellows the judge sent to jail for grabbing money they hadn't got?" queried Hiram.
"Now, now," said the reporter, "you know what I mean—the phlegm!"
"Oh," said Hiram, "no, sir—my jaw didn't fall. The only time it falls is when some fellow chuckles to me right down here about how easy it is to get drunk. We don't need to look to Ontario for that. It's to be had about what Primer Ferguson says. He says the law's there an' he's got to enforce it."
"Where did I hear that remark before?" queried the reporter.
"I don't know," said Hiram, "unless it's a club behind it. I'm waitin' to see if Ferguson has a club—yes, sir."
