

HELD OUT LONG AS HE COULD

Halifax Man Was Planning
to Quit Work When He
Began Taking Tanlac—Is
O. K. Now.

"I had held out as long as I could and was planning to quit work altogether at the time I got hold of Tanlac but now I am feeling fine and call myself a well man once more," said Edward Rent, of Sackville, Nova Scotia, a few days ago. "I had been troubled day in and day out for nearly four years with an awful case of chronic indigestion. My appetite was practically gone and many a time I went all day long without eating scarcely a bite. I had intense pains in the pit of my stomach that nearly doubled me up and at times was so nauseated that I could not keep down the little I had eaten. Dizzy spells often came on me and sometimes I had terrible headaches that nearly set me wild. My back hurt awfully and lots of nights I lay awake hour after hour waiting for morning to come. Then when I did get up I could hardly muster enough strength to get out of bed. All day long I didn't seem to have any strength or energy left and felt ready to give up just any time."

"But I know what it means to enjoy good health now, for Tanlac has put me back in the line and I can't tell there was ever anything the matter with me. My appetite is ravenous and no matter what I eat I can digest it as good as I could before I ever had stomach trouble. These headaches and dizzy spells are gone and my back never bothers me at all. I sleep like a log and feel fit to tackle any kind of work. I am more than satisfied with Tanlac and don't mind telling any man that I consider it a medicine that can't be equalled."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Murray, by G. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Parsons, Highland; John F. Meagher, Debert; O. Hanson, Lepreau; E. L. Conley, Leonardville; N. H. Johnson, Clarendon Station, and by the leading druggists in every town.—(Advt.)

GEN. SEELY'S REPLY

The secretary of the Canadian Club has received the following letter from Major-General John Bernard Seely, who commanded the Canadian Cavalry Brigade during the late war and who soon is to visit Canada. The letter is self-explanatory:

My Dear Sir—I am much honored by your invitation, which you conveyed to me in your letter, that I should meet the members of your club during my visit to Canada.

I am much afraid that as I have to go straight through to the west in order to meet my old comrades of the Canadian Cavalry Brigade, the majority of whom live in that part of Canada, it will not be possible for me to come to New Brunswick. But you may be sure that if it can in any way be arranged, I will not fail to accept your most kind invitation.

Please carry my best wishes to all the members of the club.

Yours sincerely,
JOHN BERNARD SEELY.
Brooke House, Isle of Wight.

MOTION FOR PLEBISCITE IS REJECTED

Harbor Commission Is Again
Before Council

The Tri-Party Agreement to
Be Taken Up—To Nego-
tiate for Rifle Range Pur-
chase.

After more than an hour's discussion yesterday afternoon, when two resolutions had gone down to defeat, further consideration of the matter of harbor commission was laid over by the common council until a date to be agreed upon later by the commissioners. A resolution calling for a plebiscite on October 14, moved by Mr. Frink, was defeated, the council thereby eliminating the suggested plebiscite feature from the plan.

D. B. Hanna, general manager of the C. N. R. lines, had gone west, said Mayor Schofield, and although a telegram had been sent to him there had been no reply. Mr. Hanna was to have been in the city this week to discuss the matter with the council. Mayor Schofield said that sufficient opportunity had been given to others to express themselves upon the subject and he thought it was now up to the council to decide, one way or another. Personally, he was in favor of getting the matter before the people as soon as possible, but a point to be considered was the settlement by the government of the money that had been spent in harbor improvement since the act was passed. He had been given to understand by Hon. R. W. Wigmore that the matter would be settled by order-in-council.

For a Plebiscite.

With the idea of starting the ball rolling, he said, Mr. Frink submitted a resolution that called for a plebiscite to be held upon the matter on October 14 next and which provided that a memorial be presented to the government immediately after setting forth the fact that there had been a considerable expenditure of money on the harbor properties while the act had been under discussion by the common council and that the common council, trusting such expenditures would receive favorable consideration on presentation to the government.

Saying that he did so to get the matter under discussion, Mr. Jones seconded this resolution and the reading of it was taken up section by section.

The first section was supported by Mayor Schofield and Mr. Frink only, and so the whole matter was dropped. Mr. Frink said that he was ready to vote upon the matter at any time but he thought that better terms could be secured now, with Hon. Mr. Wigmore in the cabinet. If the government "came through" with regard to the ferries, he was prepared to give way on some of his objections.

Reviewing the situation, Mr. Frink said that four-fifths of the council must approve of the act before it could be offered to the public, there had been a lot of discussion and nothing had been accomplished; the only statement that had been made by Hon. C. C. Ballantyne, minister of marine and fisheries, was to the effect that there would be no obstruction to harbor traffic, and that the ferries would be provided for and that his signature upon the matter was as good as an order-in-council. It was understood, he said, that there would be no harbor development until the act was settled by the council and by the people and, failing that, the city would have to go back to the agreement of 1911. St. John now was a national port with an ever increasing trade, said the commissioner, and it should be through with building wharves for the benefit of the Canadian government, the C. P. R. and the C. N. R.

At the present time there were, on the west side of the harbor, city properties worth more than \$1,250,000 that were steadily depreciating and when the act passed the house, setting a price for the whole harbor area was anticipated, there had not been a word of protest sent to Ottawa by the common council. The statement had been made by a federal minister that harbor development at St. John was waiting the decision of the people, and this was the way conditions were at the present time.

"Surely the government is not going to let the harbor area go to the C. N. R.," he said.

"I am much afraid that as I have to go straight through to the west in order to meet my old comrades of the Canadian Cavalry Brigade, the majority of whom live in that part of Canada, it will not be possible for me to come to New Brunswick. But you may be sure that if it can in any way be arranged, I will not fail to accept your most kind invitation."

Please carry my best wishes to all the members of the club.

Yours sincerely,
JOHN BERNARD SEELY.

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia
Relieved By "Fruit-a-tives"

Little Bras D'or, C. B.
"I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-tives'. In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and how I am well, strong and energetic!" ROBERT NEWTON.
At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

to force this matter," said Mr. Thornton, "I, for one, am not ready to accept it as it stands. Are you?" he asked, pointing to Mr. Frink who did not reply. "I understand that we must be satisfied as to the value of the act before we can offer it to the public; we must decide first, and I can say right now that I am not in favor of it as it stands."

Where They Stand.

"We ought to be able to settle the matter right now then," said Mr. Frink. "The commissioner of public safety has just said that he is not in favor of the act; the commissioner of water and sewerage has said that he is not in favor of the act; the commissioner of harbors, ferries and public lands is quite evidently opposed to it. 'No,' said Mr. Bullock, 'the act is not worthy to be set before the people.'"

Notice of Motion.

Mr. Bullock then brought up the following resolution, which was questioned on a point of order by Mr. Frink, and though discussed, the question of harbor commission has been before the people for a long time and the placing of the harbor in commission may be a national advantage, the act as passed by the federal government is not satisfactory to the common council and it is therefore resolved that the motion as passed in common council on November 19, 1919, be rescinded, and further resolved, that the government be requested to equip the government wharves with grain conveyors in accordance with the spirit of the tri-party act, 1919, and that the common council be asked to provide suitable terminals and docks for the C. N. R. traffic on the east side of the harbor and thereby help relieve the increased congestion that is happening every year at this point, and that a copy of this resolution be sent to the C. N. R. officials, Toronto; Hon. C. C. Ballantyne, minister of marine and fisheries, Ottawa; Hon. R. W. Wigmore, minister of customs and inland revenue, and S. E. Elkin, M. P.

After the resolution of the common council, made under date of November 19, 1919, and referring to the reservation of the ferries by the city upon the sale of the harbor to the government, had been read by the common clerk, Mr. Bullock's resolution was considered. Before adjourning Mr. Bullock gave notice that he would submit the same resolution at the next meeting of the council upon the harbor question, which probably will be held next Tuesday.

The reports of the commissioner of finance and public affairs, regarding payments during August to the amount of \$16,931.48, at the rate of 30 cents per hour, for the use of the city, were read, and the whole regarding the appeal of the Lansdowne avenue residents in connection with laying a pavement and sidewalk in that thoroughfare, were adopted. No action was reported upon the latter recommendation.

An application from A. Cosman to place an electric sign above his store at Duke street was referred to the commissioner of public works and the city engineer.

A letter from Local 661, Teamsters and Chauffeurs' Union, regarding the "disorganized street car service" and the one-man car, was referred to the commission of public affairs for a report.

The matter of appropriating the rifle range, brought up at the July 29 meeting of the council, was again referred to by Mr. Frink, who said the city engineer had prepared a plan of the area, showing the greatest length as 4,500 feet and the greatest width 675 feet, containing forty-seven acres or so. The land was level to a great extent and with easy access from Main street, Metcalfe street, and with drainage through the Newman brook, a splendid area was available for building sites. On the other hand, the large area made the property good for the purpose of an exhibition. The city must grow, said the commissioner, and there must be more taxable values found in order to provide more revenue. His recommendation that he be empowered to negotiate with the department of militia and defence for the purchase of the area at a price not to exceed a certain amount an acre, was adopted.

The action of the commissioner of public safety and public property, in closing the North and South Market streets during Labor Day was approved. These streets are the private property of the city.

Upon recommendation of Mr. Jones, permission was given to the New Brunswick Construction Company, Limited, to erect workmen's shacks on city property while they are engaged in reconstructing a roadway for the provincial government, along the Spruce Lake region. The site in question is 120 feet from the road way and 250 feet from the lake. The buildings are to be subject to the approval of the city engineer.

With regard to a suggestion by Mr. Thornton that some use should be made of the surplus flowers at King square, Mr. Frink announced that he had instructed the superintendent of streets to have some cut and present them to the Red Cross booth at the exhibition. Mayor Schofield said the fountain had not been in operation for more than a week but Mr. Frink countered with the observation that he could not be supposed to handle the thousand cases in connection with the squares, and that he would have the matter referred to the superintendent of streets.

Permission was given to Mr. Jones to divert the sewer of First street through the Millidge property, a course suggested at a previous meeting of the council and which will cost about \$600, in comparison with an estimate of \$2,000 made for changing the drain in the ordinary way.

Authority to erect seven or eight street lights at the City line was given to Mr. Thornton, who said he had approved remaining in this year's appropriation to pay for the work. The Lancaster councillors would pay one-half of the expense, he said.

The matter of establishing a government employment office in the city was brought up by Mayor Schofield, who said the Trades and Labor Council and quite a number of other numbers of employers were in favor of the movement. The cost to the city would be between \$1,250 and \$1,500 a year. Upon recommendation of Mr. Jones, the matter was held over until the next council meeting.

Mr. Bullock said that he was preparing a hero medal, for all valorous acts performed in the city and for which the city will make recognition; he cited the recent case in Carleton, when the fire crew rescued a young lad from drowning.

FIRST MEETINGS FOR ORGANIZATION

Summoned by a call published by J. Fred Belyea, of the Liberal executive, friends of Dr. A. F. Emery, nominated to oppose Hon. R. W. Wigmore, held a meeting last evening in Woose hall, Charlotte street, for the purpose of organizing the wards of the city and the various districts of St. John county. District organization meetings were held last night also in Beaconsfield, Fairville and Simonds, so delegates from those sections did not come to the city. The meeting was opened by Mr. Belyea, and E. J. Henneberry reported progress for the committee meeting which was held earlier. After hearing a few suggestions from Michael Kelly as to organization work, the meeting resolved itself into ward committee meetings.

104 EGGS IN 104 DAYS LAID BY BARRED ROCKS

Ottawa, Ont., Sept. 9.—A record yet to be beaten in continuous egg-laying has, according to E. C. Elford, Dominion poultry husbandman, been made by a barred rock pullet at the Experimental Poultry Station, N. S. This pullet has laid 104 eggs in 104 days. As a rule a hen lays two or three days and then misses a day, and some are known to have laid five or six dozen without a break, but never before, in the knowledge of the Dominion Poultry Department has a hen laid 104 eggs without a miss.

GIRLS! USE LEMONS FOR SUNBURN, TAN

Try it! Make this lemon lotion to whiten your tanned or freckled skin.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White skin cream, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion whittener, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands and see how quickly the freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

MOTHER!

"California Syrup of Figs"
Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the right and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

Either way ends every corn

Use Blue-jay as you like best. Apply liquid Blue-jay from a bottle, or use the Blue-jay plaster.

The effects on the corn are identical. The pain stops. And the entire corn quickly loosens and comes out.

Blue-jay now is ending some two million corns a month.

It has so reduced corn troubles that most folks never have them.

It will end them all when all folks know about it.

The Blue-jay method is easy, gentle, sure.

It is scientific—the creation of a world-famed laboratory.

For your own sake, stop paring corns. Cease the old, harsh, inefficient methods.

Learn what millions know—that corns are folly, the pain is needless. Anybody can be kept forever free from corns with Blue-jay.

Prove this tonight. Buy Blue-jay from your druggist.

Makers of Sterile Surgical Dressings and Allied Products

Can Receive 1,000 Words a Minute

Amazing Apparatus to Be
Placed in Radio Station on
Long Island.

Washington, Sept. 9.—The stupendous new radio station, soon to be erected on Long Island near New York, will contain an amazing apparatus credited with being able to receive 1,000 words a minute. This instrument was designed by the General Electric Company in Schenectady. It operates on a photographic principle. A lightweight mirror flutters in electro-magnetic tune with minute electric impulses coming from the big steel towers out in the field. The oscillations vary according to the Morse code of dots and dashes.

The mirror reflects a beam of light on a moving sensitized tape. The tape goes through a developing fluid and the receiving operator reads off the message in dots and dashes at the rate of 90 to 100 words per minute, just as one reads a broker's tape.

C. N. R. MEN COMMENDED

Thirty C. N. R. men in the maritime provinces have recently been commended for meritorious service in emergencies. The list follows: William Sullivan, conductor; Ernest Dorman, E. Walsh, C. Rhodenizer, S. Doucette, H. Seaboyer, A. Hughes, William Hardy, L. Croft, S. Carver, M. Publicover, D. Fisher, D. Delorey, O. Aulenback, M. C. Mailman, P. S. Moorehead (conductor), E. J. Doucette, H. M. Harrington, T. K. Knox, C. Baker, B. Knox, H. Cane of 90 to 100 words per minute, just as one reads a broker's tape.

TO SPEAK IN TRURO

Truro, N. S., Sept. 8.—It is announced tonight that Sir George Foster, minister of trade and commerce, will address a meeting here in the interest of Hon. F. B. McCurdy on Friday evening, Sept. 17.

A Nervous Wreck

By DR. VALENTINE MOTT PIERCE.

How many business men feel fagged out, nervous, with a "soggy brain"—worn out completely before the day and its tremendous tasks are half over? Try the right way! Clean the body first. That will help your nerves, your head and your circulation. Your doctor will tell you that anything from a headache or a common cold to grippe or a serious illness may result from allowing food to ferment in the intestines. Don't give the body a chance to absorb the poisons. Remove the toxins from the system and give the tissues of the body aid to resist disease by taking an occasional laxative such as castor oil, or a tiny pill made up of May-apple, aloin, jalap, and sold by most druggists as Dr. Pierce's Pleasant Pellets.

The kidneys and bladder suffer from the wear and tear, and we get chronic inflammations sometimes indicated by backache, painful voiding of water—dull, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently when the urate salts are deposited in muscles and joints one suffers from lumbago (pain in back), rheumatic pains, gout, etc.

Nothing will act so nicely as Anuric (anti-uric-acid), a recent discovery of Doctor Pierce's which can be had at all drug stores. Anuric aids in cleaning the bladder and kidneys—consequently those suffering from rheumatism, lumbago and gout are benefited and the body is put in a cleaner, healthier state.

MR. A. J. HAYES (Air Mechanic) writes:—"Often either the Pilot or the Mechanic suffers considerably from nervous breakdown, but Phosferine made me feel more confident in my vital powers, and I realized I could be equal to whatever effort was needed. It is immeasurably important that the nerves should be in condition, otherwise the consequences may be disastrous to others. I found Phosferine an invaluable creative of the nerve force so indispensable to ensure safety."

(2) A. S. TURNER, late Lieut. R.A.F., writes:—"The severe strain I had to undergo was most trying to the nerves. Several bad crashes shattered my nervous system, and I found myself suffering from severe Neuralgia. I noticed that flying men had testified to the marvelous beneficial results they had obtained from Phosferine, which I tried, and after the first few doses my Neuralgia disappeared and has never returned. I was able to take up flying again, which in itself shows how remarkably effective Phosferine is."

212, Canbury Park Road, Kingston-on-Thames. These intrepid aviators have found that nothing so certainly assures their nerve power as Phosferine, which endows their system with the vitality to cope with the perpetual dangers and strain of flight. Phosferine promotes that greater accumulation of nerve force which outlasts the most exceptional stress and shock.

When you require the Best Tonic Medicine, see that you get

PHOSFERINE

A PROVEN REMEDY FOR

Influenza, Indigestion, Sleeplessness, Exhaustion, Nervous Debility, Neuralgia, Maternity Weakness, Premature Decay, Mental Exhaustion, Loss of Appetite, Lassitude, Neuritis, Fatigue, Anemia, Rheumatism, Malaria, Headache, Brain Fog, Sciatica.

Phosferine has a world-wide repute for curing disorders of the nervous system more completely and speedily, and at less cost than any other preparation.

SPECIAL BUSINESS AND TRAVEL NOTE

Phosferine is made in liquid and Tablets, each sold in two sizes. The Tablet form is particularly convenient for business men and women, all outdoor workers, travellers, sportsmen, etc. It can be used any time, anywhere, in accurate doses, as no water is required. The No. 2 tube is small enough to carry in the pocket and contains 60 doses. Anyone affected by unhealthy localities or climatic conditions will be the better for Phosferine—always put a tube of Tablets in your outfit.

BRAVE WIFE GETS AN ALBERT MEDAL

King Honors Woman Who
Defended Husband and
Son.

London, Sept. 9.—The Albert Medal has been awarded by the king to Mrs. Emmitt, wife of Frederick Emmitt, station master of Peshawar, in recognition of her gallant conduct on the occasion of a murderous attack upon her husband last December.

On December 7, 1919, Mrs. Emmitt and her children were sitting with her husband, who was in bed with fever. The eldest boy, aged seventeen, had occasion to go into the sitting room, and as he entered that room he found an Indian coming in from the garden. On the boy questioning the man as to what he was doing, the intruder immediately attacked him with an axe, breaking the boy's forearm. The boy closed with his assailant, and on his mother coming into the room she found that the man who had dropped his axe, was stabbing her son with a dagger. She at once rushed to her son's assistance and seized the

man, never relaxing her hold, in spite of receiving a stab in her side.

At this stage her husband came from his sick-bed to the rescue; the Indian wrenched himself free from Mrs. Emmitt and stabbed Mr. Emmitt in the thigh. Thereupon Mrs. Emmitt again seized the man by the wrist, and in spite of receiving several more wounds on her hand and arm succeeded in getting hold of the handle of the dagger. Eventually, with the aid of some servants, the assailant was overpowered, and Mrs. Emmitt continued to show the greatest courage by ignoring her own wounds until both her husband and son had been attended to and sent to hospital. All three have now recovered, and their assailant, who proved to be a murderous fanatic, was tried, sentenced and duly hanged. There can be no doubt that Mrs. Emmitt's bravery saved her son's life and probably her husband's too.

Petersborough, Eng., Sept. 9.—The death of an ex-soldier at Castor is the climax of a sad story of the war. Mr. and Mrs. Jackson had six sons. They served the army at the outbreak of hostilities. Two were killed, one was wounded twice, another lost his sight and Mrs. Jackson died from shock, heart-broken. Now a third son has died from his wounds.
