on reconnaissance duty. He says: "We are obliged to fly at a height of about one mile and a quarter which makes observation difficult as small objects, even with the aid of the strongest glasses, assume unfamiliar shapes and become foreshortened."

"If we fly under that height we are greeted by a hail of rifle fire which is far more effective than cannon. We fear the rifle more than the bursting shrapnel, as the fire of the regiments concentrated on a single object is far more deadly."

GERMANS TAKE CONTROL OF CRACOW

London, Sept. 26.—(3.02 a.m.)—"The last ten years has seen a revolution in the Russian army. The dissolution of the old army and its replacement by a hard-worked, well-trained, and equipped force has been the greatest achievement of the Russian government, and the latest advice received here," says the Petrograd correspondent of the Morning Post, "is that the original administration of the town, and all civil officials of the Austrian government, have left, and the residents are fleeing in a panic."

OCCUPATION BY JAPS; PROTEST BY CHINESE

Peking, Sept. 26.—Four hundred Japanese troops occupied Wei Hsien, in the province of Shantung, twenty miles south of the gulf of P-Chi-Li yesterday, following an advance guard of forty men who arrived a fortnight ago. The Japanese have taken control of the railway station. The Chinese troops remained in the city but did not oppose the Japanese.

The foreign office is protesting to the Japanese government regarding the occupation as Wei Hsien is outside the fighting zone allotted by the Chinese.

Tokyo, Sept. 26.—It is announced today that Imperial messengers have left Tokyo for the scene of operations near Tsingtau, conveying the emperor's greetings to the Japanese and British sailors and soldiers co-operating in the fighting against the Germans in Kiao Chow.

GERMAN DESCENT BY WAY OF BALTIMORE

London, Sept. 26.—The Morning Post's Petrograd correspondent says: "The news has been received here that Germany has stopped all traffic on the railways between Berlin and the Baltic. The news is not expected to be confirmed, but it is a possibility of a German descent on Russian territory by way of the Baltic. Any such move is regarded here as impossible from the standpoint of an effective action of war, although it might be theoretically effective in disrupting the morale of the Berlin populace."

Unconfirmed and Unlikely

London, Sept. 26.—The correspondent of the Exchange Telegraph Company at Ostend says that some Bavarian soldiers are under arrest in Brussels, charged with facilitating the escape of a large number of French prisoners from the Belgian capital. A court of inquiry is sitting to investigate the matter. The number of Frenchmen who are said to have gotten away, has been placed at several thousand. The story lacks confirmation.

Cholera Case in Vienna

Venice, Sept. 26.—The first case of Asiatic cholera has been officially announced in Vienna, the case of a woman officer brought from Galicia. There are many dysentery cases in Vienna.

May Withhold Payments

Venice, Sept. 26.—(Via Paris 26.)—A telegram from Vienna states that the minister of finance is considering the payment of the Austrian war bonds, due on October 1, to holders in France and England and it is expected will withhold payments.

Pistol Killed

London, Sept. 26.—The fall of the town of Khyrov, telegraphs the Petrograd correspondent of the Evening News, completely isolates the Austrian fortified position of Przmysl, as regards rail communication. It is twenty miles south of Przmysl and close to the junction of several railroad lines.

RUSSIA ONE OF WAR SURPRISES

Rapidity of Mobilization and Some of the Reasons For It

The rapidity with which the Russians massed against Austria and Germany has been one of the surprises of the war. Some idea of the reason for this is given in an article in a London newspaper by an English writer, Denis Gerstin. After explaining that the heart of the whole Russian people is in the war he says:

"The last ten years has seen a revolution in the Russian army. The dissolution of the old army and its replacement by a hard-worked, well-trained, and equipped force has been the greatest achievement of the Russian government, and the latest advice received here," says the Petrograd correspondent of the Morning Post, "is that the original administration of the town, and all civil officials of the Austrian government, have left, and the residents are fleeing in a panic."

"BEST COMEDY WOMAN IN THE MOVIES"

Margaret Joslin

Surely if there be a best comedy woman in the business it is Margaret Joslin. Todd, known to all her friends as Mrs. Todd. She plays comedy parts for the Western Esplanade Company with her husband, Harry Todd.

Mrs. Todd is deeply attached to her pretty home in Niles, Calif., where her spare time is fully occupied looking after the wants and happiness of her family.

for the working class among the great nations of the world to come to an understanding. That we declare, at any moment the working class in the other countries involved make a move to end this struggle, that we in Canada will co-operate in that move to end this terrible conflict, as speedily as possible.

We also felt that in this unfortunate struggle is involved a principle which should have our undivided support. The German people have labored for years under a despotism which should have no place in Twentieth Century civilization. Great Britain and France are standing together for the freedom of the world against autocracy. The workers are not for a moment willing to give up their present institutions for German despotism, and desire that the German people should have the way made clear towards their freedom. This is evidently the interest of Great Britain's cause, and with the inevitable struggle now on, we express the hope that despotism in Europe will be hurled to its final destruction, to make way for the introduction of freedom in all the countries in Europe, in preparation for the last and great struggle of the working class to their own freedom.

While ready to move in co-operation with the workers the world over to end the struggle, yet, as at all times, our first duty is to the workers, and their dependents at home in this dominion.

The congress voted against the repeal of the Lennox act proposed by the committee of the local committee having in charge the arrangements for the congress; to the mayor and commissioners for their kindly welcome; to the press for its reports; and to the general public of St. John for their helpful make the stay of the delegates so pleasant.

The delegates to the convention, for their thoughtful consideration of various questions and their co-operation in the interests of the congress.

Berlin says the Germans hold 50,000 prisoners, not 200,000 as was published. Of the number 80,000 are said to be Russians.

WAR NOTES

A message from Southern Albania says that the population, harassed and robbed by insurgents, are about to ask the intervention of one of the great powers.

Free Romans in Rome have offered the government the palace there in which they have their headquarters for hospital use in case of war.

If the belligerents agree to it, Spain is willing to receive and care for the wounded.

There is a report that great masses of German troops are being transported into France over the railway line running between Munich and Aix La Chapelle.

It was officially announced in London last night that nearly sixty officers and 1,400 men were lost in the sinking of the British cruisers Aboukir, Hague and Cressy.

A contrast—and its chief cause—is shown by the cases of Preston, Pennsylvania, and Wellsville, Kansas. The Pennsylvania town is said to be the "richest town in America." Four hundred and twenty-five of its five hundred inhabitants drink whiskey, and four hundred and fifteen of the four hundred and twenty-five are said to get drunk regularly. Wellsville, the Kansas town, 48 miles from Kansas City, is forty-four years old, has a population of seven hundred and fifty, and has never had a saloon in its history. It has never had a case of crime or of murder; a pauper, a thief, or a lawyer. Of course its inhabitants are not all saints, but they have no pool-rooms and no bawdy-houses. There is a twenty-five thousand dollar school house, set down on a sixty-acre playground. There are brick and cement sidewalks, and brilliant street lights at all crossings. Everybody in town works hard except the town marshall. Once an agent for a mail order house visited Wellsville, but before he had looked any orders fifteen farmers, armed with horse whips, marched to his hotel—and the salesman departed minus his sample case.

Would you rather buy real estate in Preston, Pennsylvania, or in Wellsville? Would you rather bring up a family in the "richest town in America," or in the Kansas community?—Rene Laidlaw in Lippincott's.

THE JAPS DEFENDED

Washington, Sept. 26.—The Japanese embassy today issued the following statement based on official reports from Tokio:

"Recent cablegrams from China can only be credited with a grain of salt. There are sinister efforts now being used in China, as elsewhere, to give color to domestic newspaper reports and telegrams. Groundless reports designed to cast a slur on the reputation of the Japanese soldiers, are thus more or less disseminated. The alleged ruthless conduct of Japanese troops in Shantung, said to be contained in a letter coming from Laishan, is nothing more or less than a malicious canard."

"A despatch addressed to the Shanghai Mercury, by a foreigner living in Peking, says in part:

"The rigid discipline of the Japanese army and the decorum of the public and file are simply laudable. After the landing of Japanese troops, the citizens are at ease and markets are calm. As to the Chinese women, the Japanese are taking scruples not to annoy them in any wise. The Japanese soldiers are received everywhere with hearty welcome."

"In fine the Japanese soldiers are living up to their reputation as established at the time of the Russo-Japanese war and the Boxer trouble. The strict maintenance of military discipline and the utter abstention from unnecessary mutilations, are their code of behavior."
