RECENT DEATHS

The death of Jacob Shans occurred Brookville at an early hour this morning. Mr. Shans had been in good health up till a short time ago, but at three weeks ago became ill and died away this morning. Mr. Shans had been in the clothing business for last eighteen years, and was well known in St. John. The late Mr. Shans survived by his wife, five small children, two brothers, in Montreal, and two sisters.

Mrs. Margaret Bryson, formerly of this city, died suddenly in Rochester, N. Y., yesterday. She is survived by a son and a daughter.

William S. Bonnell died at his home, reedville Hill, Kings county, on October 15, after an illness of three years. He leaves, besides his widow, one son and five daughters. Mrs. Roy Waters of this city is a daughter.

The death of George H. Budd occurred at his home, Moncton, on Wednesday. He was 68 years of age, and leaves a wife, two sons and three daughters. The sons are John, of Moncton, and James at home. The daughters are Mrs. Edward Miller, of Melville, Mass., Mrs. F. D. Mackenzie, of Amherst, N. S., and Mrs. Nina Moller, living at home.

Forbes, Colo., Oct. 18.—One striking miner was killed, two were reported hurt as a result of a battle between strikers and nine guards late yesterday afternoon.

E. L. Bradley, a deputy, who went to Forbes Mine to quell a rioting strike, was mortally wounded when he attempted to go to the tent colony under flag of truce. After Bradley was shot, machine gun carried in the shelter, it was turned loose on the strikers' colony.

REPAIR LITTLE DUTCH CHURCH IN HALIFAX

Appeal Is Being Made For \$200 With Which to Put Historical Edifice in Good Condition

(Halifax Echo)
Everybody in Halifax knows of the little Dutch church on Brunswick street, one of the oldest and most interesting buildings, historically speaking, in the city. Many people in Halifax hold a tender spot in their hearts for this ancient church, in which their forefathers worshipped as far back as 1706. At the present time the little Dutch church is sadly in need of repairs.

The cost of repairs will be \$200. It surely will not be very difficult to obtain this sum.

The following extract from the first historical record of the church, written in 1706, speaks for itself:
"The Elders and Elders and committee have found it advisable to add a few articles to this preface concerning this house or church, hoping the friends and respective descendants will not despise them, for they have been made in all sincerity and to the best of our ability. It has been found advisable to keep a record in this book, in order that our friends and respective descendants may know of the beginning of this church. We pray God that our friends and respective descendants will interest themselves in this house or church which has been dedicated to God in all faithfulness and fear of the Lord and without selfishness."

May the Lord in whose name it (the church) this preface was begun cause this German congregation to flourish and prosper and bear fruit to the glory of His name forever and ever.

In the name of Jesus, amen. Written and approved of by the elder and committee.
(Signed) PETER BERGMAN, Halifax, January 6, 1709.
This translation was made by D. Cornutus, June, 1879, and attested by W. Taylor, vestryman.

Will the citizens of Halifax remember the appeal of their ancestors and help in the renovation of this building at such a small cost. The following items of information about the little Dutch church may be interesting.

It was firstly a log house, the property of one of the German congregation, who gave it to the Lutherans for a church in 1706.

On the second day of Pentecost, 1708, Divine Service was conducted by Rev. Mr. Slater, chaplain to the troops, this being the first occasion in which the service was conducted by an ordained minister.

The first minister was Rev. B. Michael Houscal, who had come from a church in New York, which had been burned down by the rebels.

Several inquiries have been received in the city lately asking about an alleged collection for the name of Abel in collecting funds through the New England states. Before the old institution was burned, about twenty years ago, G. Wetmore Merritt gave A. H. Abel, who had been conducting it, a letter certifying to this. Suspicion had been aroused by the persons canvassed as the letter carried by the canvasser was undated.

THE HOLIDAY AT THE IMPERIAL
The "Holiday at the Imperial" is a play one at the new Keith Theatre, King Square. The talent will all be new, including the Bacons, king and queen of the band; Margaret Brock, concert soprano, and a strong line of pictures. The chief of these film productions will be Lubin's two-reel drama of the dark underworld, "The Water Rat." This is a most compelling story and ran a whole week in the Imperial Theatre, Montreal. There will be comedy pictures as well and the orchestra is to be enlarged.

STAR THEATRE'S GRAND HOLIDAY CARNAVAL
It remains for North End's own enterprising little picture theatre to inaugurate the double holiday bill, such as will be given Monday, Thanksgiving Day. At 10 o'clock in the morning the children, and grown-ups too, will be regaled with the ever-popular "The Tom's Cabin" in three big Viagraph reels. In the afternoon and evening there will be an entirely new show, consisting of Biograph, Kalem, and Edison productions. Three grand holiday sessions—10 a.m., 1.30 p.m., and 6.30 p.m.

MORNING NEWS OVER THE WIRES

In a bulletin just issued by the Canadian census and statistics office at Ottawa, it is shown that every province in Canada shows an increase in the number of blind, deaf, dumb, insane and idiot persons except New Brunswick. An air shaft has been drilled to the miners in the flooded mine at Rockdale, Texas, and seven of those who were entombed yesterday when the roof of the mine caved in are reported as being still alive.

Mrs. Margaret Walker of Chelsea, Mass., was killed yesterday by illuminating gas in her home. Her two children were also killed and her death came while she was trying to drag them to the open air.

The house of deputies at the Anglican convention in New York yesterday voted against changing the name of the Protestant Episcopal church of America.

Two members of the crew of the Cunard liner Ivernia were drowned yesterday at New York while the steamer was coming in to dock after a voyage from the Mediterranean. Both were seamen.

Rev. A. S. Lewis, of New Westminster, B. C., has received a call to the Baptist church at Windsor, N. S. He has accepted and will begin his new duties about the first of December. Mr. Lewis is a graduate of Acadia University.

Much sympathy is being felt for Rev. George Ross, of Florenceville, and his family. The children are laid up with typhoid fever and one is suffering from peritonitis. The well from which the family have been getting their drinking water has been found to be alive with typhoid germs.

MORE THAN 600 CASES UNDER WHITE SLAVE ACT

Six in Every Seven Brought Conviction and Total Sentences of 1,070 Years

Chicago, Oct. 18.—Figures made public by Arthur B. Farwell, of the Chicago Law and Order League show the activities of the United States government under the Mann White Slave Act. There were no fewer than 655 cases in the senate passed the bill, until August 31, 1913. The figures cover the entire country. Out of the total number, 603 persons were convicted, while there were 52 acquitted. More than seventy-five of the defendants forfeited their bonds and fled from the country. The total jail and penitentiary sentences amount to 1,070 years.

40,000 LOCOMOTIVES IN 82 YEARS

(American Machinist)
The Baldwin Locomotive Works, after eighty-two years of continuous operation, has completed its forty-thousandth locomotive. The first locomotive built by these works was completed in 1832, when locomotive building was in its infancy, while number 40,000 represents the latest type of motive power for high-speed passenger service. The five-thousandth locomotive was built in 1880, nineteen years later, during which period two important types of freight locomotives, the "Mogul" and "Consolidation" were introduced and widely adopted. The years 1889 to 1902, when locomotive number 20,000 was built, were characterized by the extensive use of compound locomotives and also the introduction of trailing wheels for the purpose of allowing increased boiler capacity without imposing excessive loads on the driving wheels. The average annual production for the five years beginning with 1902, was approximately 4,000 locomotives; and loco-

motive number 80,000 was built in 1907. Two notable features of this period were the introduction of American railways of the Mallet articulated compound locomotive and the extensive adoption of the Walshaerts valve motion.

Since the building of locomotive 80,000, there has been a material increase in the weight and capacity of locomotives used in all classes of service; and the period has been marked by the extensive use of superheaters, brick arches and other devices, while the mechanical stoker is another accessory developed during the past few years.
