DYKES WERE EFFECTIVE.

Thos. Cunningham Says Little Damage Done-Ontario Nurserymen Violate Laws Respecting Diseases.

Thos. Cunningham, inspector of nursery stock under the department of agri-culture, was in the city on Tuesday, returning to Vancouver Wednesday. He has visited the flooded sections of the Fraser valley since the damage has passed with the object in view of reporting to the government upon what assistance would be necessary to those who had suffered. Mr. Cunningham says there has not been as great damage done as at first reported. Only a few settlers

would require assistance in consequence.

The dykes to his mind are proving eminently satisfactory, and are doing much for the cause of agriculture in British Columbia. By means of them some of the richest land anywhere to be found is being rendered fit for farming pur-

In connection with the importations of nursery stock this season, Mr. Cunningham says that there had been quite a quantity of diseased trees which had to be destroyed. Among the worst offenders were Ontario nurserymen. The peach tree borer was the general enemy to orchardists, which was detected, and Debald. led to the destruction of stock. The peach tree borer also attacks plum trees. In many instances the grafting of plum trees was done on peach stocks, which rendered the young trees doubly liable

to this enemy.

The past season has seen a very large addition to the orchards, he says. In H. Baker. very substantial additions made to the Married won. Bachelors vs. Benedicts-

his uniform, broke his sword, and as-sumed monkish attire. Instead of going through the usual period as a novice he observed the strictest rules from the beginning.

The cause of his withdrawal to a monastery has never been definitely ascertained. One version is a disappointment in love, another that youthful escapades weighed so heavily on his conscience that he resolved in a moment of acute remorse to do penance for life.

The atmosphere of the monastery did not suit him, and gradually he pined away and died at the age of 40, after ten 'ears' seclusion. Numerous other aristocrats are

among the Benedictines. The present abbot of the whole order, Hildebrand, was Count Hemptinne, an officer in the Belgian army; Prince Philip Hohenohe, and Count d'Avernas are also Benedictine monks.

The Benedictine nuns include Prin-

cess Schwarzenberg, Princess Liech-tenstein, niece of the reigning Prince lake: Liechtenstein, the Princess of Salm, and the Countess Hohenstein.

THE ANNUAL PICNICS WERE GREAT SUCCESS

Popular Resorts Thronged With Pleasure Seekers-Several Hundred Visited Vancouver and Duncans.

Dominion Day celebrations went off quietly in Victoria Wednesday, Early in morning picnickers began to wend their way to the different depots in order to spend the holiday in the country. The popular resorts—Oak Bay, Foul Bay, Sidney, Langford Plains and Goldstream -were thronged with pleasure seekers. The Sunday school picnics proved successful in almost every case. Only one thing marred the pleasure—the uncertain condition of the weather. Most of the time the day was beautiful, but an occasional shower kept the grass somewhat damp.

Many Victorians took advantage of the opportunity to visit Vancouver or Dun-cans. At both these places the day was Most of those who attended from here opportunity to visit Vancouver or Duncelebrated by the carrying through of excellent programmes. It is estimated that the steamer Yosemite and Charmer took as many as 700 excursionists from here on Tuesday evening, many of whom are extending their visit two or three days. was brilliantly illuminated. This city was also fairly well represented at Duncans, the regular morning train that thriving little town.

Three trains left the Victoria & Sidney depot in the forenoon, and each was crowded with passengers for Bazan Bay Park. Each of the prominent Methodist Sunday schools of the city were represented. Various games were in progress at different times during the day, and many enjoyed a boat ride on the bay. The baseball match announced to be played between the Centennial and Methodist school teams proved to be uneven, but interesting. Centennial school won out easily, the score being about 17 to 6. The programme of sports published in these lumns was undoubtedly the feature of the afternoon. Every event was most spirited. Following are some of the win-

vided for the children.
At Duncans the celebrations were carried through most successfully. Un-doubtedly the principal attractions were the baseball match between the Fern-woods, of this city, and a Duncans nine and the sports programme. The former resulted in an easy victory for the Victoria team. Sixteen to one was the score. It, was almost a shut out for the Duncans aggregation, their one run being made in the last inning with two men out. C. H. Dickie, ex-M. P. P., umpired the match, which was postponed for a time in the second inning owing to the rain. Several Victorians partic the races. The flower and dog show was "taken in" by many. The former was a credit to the district. In the latter a number of local fanciers competed suc

Particulars of the Vancouver celebraspent a pleasant day. Among the attractions were the lacrosse matches and a baseball match between Whatcom and Vancouver, which resulted in a victory

FERROZONE ASSURES HEALTH. THE LOOK AS A SONGSTED

The following instance of vocal ambition tween the original gramaphone and a Punch and Judy man. The whole performance was too ludicrous for words, for the bird seemed to be quite carried away with the beauty of its own song, for it kept bobbing up and down, spreading its tail, ing the day. A young lady happened to and moving its head from side to side in the most absurd manner. So excited did it than a foot deep) and several gallant get that it seemed quite fatigued. Howgentlemen plunged to the rescue, the ever, no sooner had it recovered than. with three loud caws, it began again. This must have gone on for nearly ten minutes, and then away it flew. Such antics on the Lossee and McMicking, were a complete part of rooks in spring are not uncommon though the performance described above was certainly a fine one of its kind. These attempts of the rook to make the most of a very limited range of voice, however, never fail to be amusing, and are well
