A Safe Investment.

ONE of the safest investments of to-day is to place your spare cash in building lots. It will in a short time yield for you a large return. No fear of land depreciating in value. Pur-chase a lot as an investment if you do not want it for your olf, secure one for your wife or children as a sensible present, and watch it grow in value. Do not buy it for cash, pay for it by instalments. The easy pay-ments you will never miss. Call and see us, and we will explain the plan more fully.

"Our Style Supremacy is Unquestioned."

Charming Petticoats In Moirette, Silk and Satin.

The materials are beautiful, the tailoring is art—just what you would expect in WOODS' apparel, but there is something more—there is a "style atmosphere" that lifts them entirely out of the commonplace, and which radiates a distinctiveness and charm.

They conform to the narrow outlines, with sheath-like effect, and will impart a smart touch of elegance to any dress with which they may be worn. All trimmings are fiatly applied—flat ruckings and flat accordeon pleatings. Embroidered in contrasting colors. Among the ultrafashionable is the slashed models for wearing with the slashed skirts. In colorings they match and harmonize with all the autumn shades: Emerald, purples, greys in a variety of shades, roses, Copenhagen, ceries, peach, pink, sky, tan, browns, mustard, old gold, navy, mauve, saxe, white, cream, and black. Careful selection at home and abroad has produced a collection of which we have every reason to be justly proud.
