CHATHAM, - - - - JULY 21, 1881. HON, EDWARD BLAKE IN NEW

The greatest political demonstration that ever took place in St. John was the gathering in the Exhibition buildhear addresses from that gentleman, and Hon. L. S. Huntington, who acmain floor of the vast building were filled by men of both political sides before the hour of opening the meeting

leading men-many of them adherents of the Conservative party-including upon to make many speeches, and he representative men of different parts of the Province, with here and there a cursory manner with matters, each of prominent citizen of the other provinces. The building was decorated handsomely, and among the other attractions was music by the band of the 62nd Battalion. A few minutes after eight, the penditure, the Tariff, and the Developtwo distinguished visitors arrived, accompanied by Messrs. Geo. McLeodwho is so well known as one of the foremost business men of the Miramichi and Kent County-Hon. Mr. Burpee, M. P., Mr. C. W. Weldon, M. P., Ex-Mayor Ray and Mr. Thos. Gilbert. Their reception by the great audience was a perfect ovation and when the applause had subsided-

applause had subsided—
Mr. McLeod, as chairman of the meeting, introduced Messre. Blake and Huntington as two of the most distinguished men in political life in the Dominion of Canada. They would, he said, address the meeting on the political questions of the day. He intimated that Mr. Blake would occupy most of the time, while Mr. Hunt.ngton, owing to illness, would say but a few words. Their mission, continued Mr. McLeod, is not to set man against man or community against comtinued Mr. McLeod, is not to set man against man or community against community as has been stated by the Government organ. (Cheers.) Occupying prominent positions it is their desire, their object, their wish to ascertain the wants and wishes of the dwellers by the sea. They will explain the Liberal policy; they will explain wherein the present policy is detrimental to our country. It is important, it is desirable, that the public men tant, it is desirable, that the public men from the other Provinces should pay us visits, and become acquainted with the wants and resources of the country. It is the practice that is observed where representative institutions exist. It would be a dark day in our political history if any

the practice that is observed where representative institutions exist. It would be a dark day in our political history if any attempt should be made to deprive the people of a criticism of the policy of the day—whether it were a Liberal or a Conservative policy. The visit is of special interest, because it is the first time Mr. Blake will be a been here since he became the leader of the Liberal party. The Liberals—a majority of the electoral body—give him and his co-worker a hearty welcome, while cherishing the hope that those differing from us in politics—and being the minority—would also warmly welcome them. While differing on the merits of a policy, all stand unted in loyalty to the best interests of the country. Whoever compose the Government, the work of harmonizing conflicting interests is no easy task, but it is a privilege and a right to condemn the present Tariff as unfair and unequal, and to show that the adoption of the plan for the construction of the Pacific Railway places burdens on the people they are unable to bear. It may be asked why does the leader of the Opposition visit New Brunswick at this time. He (Mr. McLeod) would tell them the time is near at hand when Mr. Blake will resume the Government of this Dominioh. (Loud and continued applause.) Having more time at his disposal now than he will have then. at hand when Mr. Blake will result to the Government of this Dominion. (Loud and continued applause.) Having more time at his disposal now than he will have then Mr. Blake desires to know the wishes and wants of the people, so that when the time comes a readjustment worthy of the name will be made, and the interests of the people will be put above party.

Mr. Ray was then called on to read the ADDRESS.

O00,000 and in 1882 it will be \$26,500,000, without counting the supplementary estimates, or the \$300,000 item for Dominion lands formerly charged to ordinary expenditure, but now charged to eapital account. But that is not all; because of the obligations on railway and canal account, there will be charges of \$2,000,000 as year, so that in a few years, if things on as they are, the country will have

ADDRESS.

To the Hon. Edward Blake, M. P.—
Sir.—On this your first visit to New Brunswick, since you became leader of the great Liberal party of Canada, we bid you a most hearty welcome. You visit a portion of the Dominion rich in historic memories of loyal and self-sacriticing founders, with resources second to those of no ther part of Canada; whose people, strong in attachment to their Sovereign and the Dominion have shown their devotion to Liberal principles by the overwhelming majority of representatives whom they have elected to the present Parliament to sustain the party which you so admirably lead, a people who have earnestly desired to meet you face to face, and to hear from your own lips your views upon the great questions of the day.

That in this Dominion in which freedom order and progress should go hand and hand, no legislation should discriminate against any class or classes of the people, we hold to be an incontrovertible political principle; and we complain that this sound principle is violated by the party now in power, in the adoption of the present fiscal policy. By this policy so entirely opposed to the soundest principles of political economy and so inimical to the prosperity of the country taxation is made to bear most heavily on articles of consumption and use, more especially on such as are required was \$13,000,000 from excise. Instead of this \$18,000,000, you are

NAN ANNUAL EXPENDITURE.

AN ANNUAL EXPENDITURE.

of \$29,000,000 or \$30,000,000, as against \$13,000,000 when Confederation was entered into. The development of the country does not demand such an increase of expenditure.

The Government show a large surplus, and they claim a right to heavy expenditure on this ground. They do not consider that this surplus is due largely to the circumstance that it is

TAKEN LARGELY OUT OF OUR POCKETS.

Their resources, however, are of a fluctuating character, and are more likely to go down in a few years than go up, and the party now in the administration of affairs, that your taxes would not b to Mr. Blake. It was as follows:-

ed by the middle and poor classes of the community.

It is our belief that the manufacturing industries of the country would obtain a more healthy growth by avoiding the taxation of the raw material and other articles which enter into them, than by a high customs duty which, while it increases the price to the consumer, and seriously interferes, with the export trade of the country, does not always confer corresponding advantages upon the manufacturer, and never on the exporter.

We thank you for the stand taken by you in your place in Parliament against the unnecessary expenditures and enormous and excessive grants of land and exemptions from taxes, which the masses have to bear, involved in the bargain made between the Government of Canada and the Canada Pacific Railway Syndicate, and we are firmly convinced that the authors and abettors of that reckless bargain will, at the proper time, be condemnated that the state of the majority of the

gain will, at the proper time, be condemn-ed by the votes of the majority of the

blessings of honest and economical Government. In your efforts to secure these peaceful and beneficent triumphs, which must greatly influence the future progress, prosperity and contentment of our great Dominion, we feel able to assgre you that you may rely upon the implicit confidence and hearty support of the Liberals of St. John and the Province generally.

Signed on behalf of and in accordance with the unanimous direction of the Liberals of St. John at a meeting especially convened for the purpose. ly convened for the purpose.

Dated at St. John, N. B., the 15th day
of July, A. D. 1881.

I. ALLEN JACK. (Signed,) CHARLES R. RAY, Chairman. Three cheers for Mr. Blake were promptly and heartily given, and the Leader of the Opposition, having bowed in acknowledgment, proceeded to address

the meeting. He expressed the pleasure he felt in being able to fulfil his promise to visit the Maritime Provinces, with a view of becoming better acquainted with the country and its people, and rejoiced in ing there, on Friday evening last for the prospect of expounding to the the purpose of presenting an address to latter his views of the public questions Hon. Edward Blake, leader of the of the day. It was natural that his Liberal-Reform party of Canada, and to visit should commence at the commercial capital of the Province-a Province which alone did its duty at the last companied him. All the seats on the general election. The Province is known as the banner Province, but Ontario will try to take away the banner the next time. It was natural that arrived, while the ladies also turned out he should come here, as a quarter in in force and graced the galleries. On which the Liberal party received not the large platform were hundreds of alone quantity, but quality in support of Liberal principles. He would be called would, therefore, have to deal in a which would require a speech to itself. What, he asked, are the great issues before the country to-day? They are connected with the Revenue and Exment of the country. The three principal questions are the Pacific Railway, the general Financial Policy of the country and the Fiscal Policy of the country with respect to restriction and protection. He first dealt with the Pacific Railway question as transcending all others in its magnitude. He briefly traced its history from its inception to its being made, a statutory responsibility of Canada, by the Conservatives, against the earnest protest of the whole Liberal party. touched upon the attempts made by the Conservatives to oblige the Liberals to share in the odium of the burden imposed upon the people, and stated the position of his party on the question. The terms of the different proposals and contracts for the construction of the road were summarised in a

> masterly and truthful manner. He next dealt with the financial condition of Canada and the Tariff. We do not propose to give even a

go on as they are, the country will have
AN ANNUAL EXPENDITURE.
of \$29,000,000 or \$30,000,000, as against
\$13,000,000 when Confederation was
entered into. The development of the
country does not demand such an increase
of expenditure.

The Government show a large surplus,
and they claim a right to heavy expenditure on this ground. They do not consider that this surplus is due largely to
the circumstance that it is

TAKEN LARGELY OUT OF OUR POCKETS.

NOW PAYING TWENTY-TWO MILLIONS. NOW PATING TWENTY-TWO MILLIONS.

This gentleman also stated that he was in favor of a re-adjustment of the tariff favorable to all classes. So was the hon speaker, but he didn't think that the other gentleman knew the way to do it. (Applause.) It is to be hoped the people will give us an opportunity of doing it.

Mr. Blake quoted from Mr. Tilley's nomination speech, and then proceeding, said:—let, that only \$18,000,000 were required for customs and excise, while we are now paying \$22,500,000. If the former sum was all that was required why are we asked to pay \$22,500,000? If it is not wanted why is it taken out of our pockets? Lait possible to reconcile these views enunciated by that gentleman before the election with his policy after election, which has
INCREASED THE TAXATION of the country 40 per cent, more than it

of the country 40 per cent, more than it was previously. What is to prevent the Government having a surplus under these circumstances? But it is a fair question to ask, have our resources increased in proportion to the increase in the taxation. The speaker unhesitatingly said, no. The new country opening up around us will be found to be a very heavy burden. Look around and tell us where these expectations of prosperity are to come from. was previously. What is to prevent the Government having a surplus under these circumstances? But it is a fair question to ask, have our resources increased in proportion to the increase in the taxation. The speaker unhesitatingly said, no. The speaker unhesitatingly sa
