HAVE YOU MADE A MISTAKE

when we discover our mistakes the best thing we can do is to correct them with as little delay as possible. Many honest people have been induced to buy inferior cream separators because of false statements made by the manufacturers and their agents. Others have bought cheaply constructed machines for which great claims are made and which are advertised as being sold at a great reduction in price by mail order houses and others who have no reputation to sustain, and who have no interest in the separators. As a matter of fact these machines are sold at a higher percentage of profit than is asked for Tubular Separators. They are cheaply built and scarcely worth anything at all. To those who have been unfortunate enough to buy these inferior machines we offer relief. We want them to enjoy using the best separator made and will help them to do so. If you have an unsatisfactory separator and want a good one come to us for information regarding our exchange proposition.

And not only is it a man's duty to cure himself; it is also his duty to reinvigorate society and dissipate the fogs of the world by his serenity, cheerfulness and courage. Pessimism is a form of disease. rope and courage invigorate, reinspire, and evoke gallantry of spirit. If the facts of life were a great deal blacker than they are, and human conditions a great deal harder, it would still be the duty of men to crush despair under their feet and to infuse into the air of the time

This is perhaps the highest form of help a man can render to his fellows, because it helps them to help themselves. It is far better to put courage into a des-

and deeper consciousness of the sorrow of life, every man and woman ought to carry a brave spirit and make a generous contribution of good cheer to the fund of ommon feeling.
