JAPANESE TREATY HAD ATTENTION YESTERDAY

Premier Introduces New Agreement With Mikado
CANADA CONTROLS HER IMMIGRATION

Laurier Criticizes the Arrangement but is Confounded With Statement that Fielding Favored Same Measure Now Introduced.

Special to The Standard.

Ottawa, April 2.—Consideration of the Japanese treaty took up practically all of today in the house. Shortly before six o'clock there was a short break in the debate to allow the attendance of the Commons at the bar of the Senate for the final stage of the supply bill and of such other legislation as has passed both houses. The royal assent was given by Chief Justice Sir Charles Fitzpatrick, as administrator in the absence of H. R. H. the Duke of Connaught.

Canada's adherence to the British treaty of commerce and navigation with Japan must be ratified at once under the terms of the treaty, and for that reason the bill was given precedence over other bills. There was an attempt by the opposition to criticize on one or two points. Under the arrangement made by the government, a decided departure from the old order of things.

Sir Wilfrid Laurier endeavored to show that the government made with its government and Japan, for the restriction of immigration by Japan, was being relied upon by the present government. Sir Wilfrid and Hon. Rodolphe Lemieux, both disapproved of the provision under which the eighth article of the treaty, providing for free entry of certain articles of Japanese manufacture was not to apply to Canada. H. H. Stevens, of Vancouver, however, pointed out that most of the articles of the schedule were admitted free already.

Premier Borden and Hon. W. T. White explained the treaty legislation to the house from the standpoint of both of commerce and of immigration. Mr. Borden stated that there was every reason to believe that the passage of the present law Japan would publish a declaration, similar to that given the United States, that the emigration of laborers would be restricted.

Hon. Frank Oliver wanted the treaty to read that no future immigration laws of Canada should be affected, but Premier Borden stated that his opinion no such provision was necessary.

Sir Wilfrid Laurier again raised the question of the exclusion of the article, whereupon Mr. White stated that Hon. W. S. Fielding had objected to this article on grounds with which the present minister agreed.

The conditions of trade applicable between Japan and the United Kingdom were not applicable between Canada and Japan. Moreover, under the proposed arrangement the Japanese market without extending to Japan favors which must, under existing treaties be also extended to other nations.

The house goes back into committee on the treaty tomorrow and will then take up the naval bill. The Liberals have not disclosed their intention in regard to the naval bill, but are talking of a resumption of the fight which waged before Easter. The government is quite ready for a struggle.

Before the house went into the committee of ways and means this afternoon E. M. MacDonald (Picton) wished to know if the government intended to take action this session concerning the fixing of the minimum provinces of Confederation. He understood there would be no redistribution bill this session and as the Hon. Mr. Hazen had suggested a conference. Continued on page 2.

PEARY URGES TRIPLE DASH TO ANTARCTIC

Discoverer of North Pole Says Three Expeditions Should be Undertaken to Travel by Different Routes.

Rome, April 2.—Rear Admiral Robert E. Peary speaking today before the international geographical congress urged that three Antarctic expeditions be undertaken, one directly to the south pole, a second around the pole, and a third to cross it. He expressed the hope that the United States would initiate these expeditions or that some other country could do so as the polar regions afforded room for the activities of all nations.

GERMANS BEG NEWSPAPERS FOR SECRECY

Request Press of Fatherland to Refrain from Publishing News About Military Airships.

Berlin, April 2.—A semi-official appeal to the German newspapers to refrain in the future from publishing news as to the voyages and evolutions of German military airships, is published in the Norddeutsche Allgemeine Zeitung today. They are asked not to record the advances made in aviation, and not to report bomb throwing and the machine gun experiments carried out by military airships. They are also requested to maintain silence generally as to developments in German military armament and equipment.

The government organ takes as its text the success of the British war office in concealing its supremacy in aviation and in the numbers of its military aeroplanes until Colonel Seely, the British Secretary of War, made his startling announcement in the House of Commons on March 19.

U. S. REVENUE CUTTER SENECA OFF TO WARN LINERS OF ICEBERGS

Washington, D. C., April 2.—The revenue cutter Seneca, commanded by Capt. Johnson, will sail from New York tomorrow for the ice fields of the North Atlantic to warn shipping against ice bergs as a precaution against a repetition of the Titanic disaster.

Capt. Johnson has received specific instructions from Washington to keep in close wireless touch with the transatlantic office of the navy with warnings of danger.

Within two weeks, the revenue cutter Miami will relieve the Seneca, and the latter will put into port for food and fuel.

A DRAW.
Calgary, April 2.—The Burns-Pelky fight resulted in a draw.

MONTENEGRINS CAPTURE FORT, KEY TO SCUTARI

Details of Fighting Tell of Desperate Bravery and Heroic Sacrifices.

Two Hundred Men Gave Up their Lives to Clear Way for Victors—Powers will Force Balkan Allies to Give Up Fruits of Victory—Preparing for Demonstration.

Cettinje, April 2.—The Great Tarabosch fort, which for months has held the allies of Scutari, is now practically in the hands of the Montenegrins, thanks to the sacrifice of 200 bomb throwers, every one of whom lost his life in a last desperate effort to clear the way to the town, for the possession of which Montenegro is ready to give up everything.

These bomb throwers were all picked men, chosen from several battalions. Clambering up the mountain side under a murderous fire from the Turkish guns, they cut the wire entanglements, and getting into close quarters, threw bombs among the Turks thus opening the way for the storming party.

Not one of the bomb throwers returned, but they had accomplished their object, and the Montenegrin infantry, following close upon them, charged the trenches. The Turks held their ground and a desperate and bloody hand-to-hand fight ensued, lasting an hour, and ending in a victory for the Montenegrins, who lost 300 men killed and wounded.

Tier and tier of entrenchments had to be taken, but the troops of the southern division under General Maritovitch, to whom the task had been assigned overcame all obstacles.

The tactics following particularly the use of the bomb throwers, were similar to those adopted in the capture of Adrianople, but in the advance on Adrianople the soldiers who cut and divided the wire entanglements surrounding the forts, were clad in cuirasses and provided with shields. At Tarabosch the rough mountain side made it necessary for the Montenegrins to dispense with all impediments.

The beginning of the end.
London, April 2.—Just as Montenegro has scored her first real success by getting a foothold at Tarabosch, the key to Scutari, the warships of the powers are gathering along the coast to complete the capture of the most precious fruits of five months' fighting.

After a series of desperate engagements the Montenegrins, led by the command of Tarabosch. Simultaneously with the arrival of this news came the further information that Austrian warships are ordered to give up the forts and that British and Italian warships are on their way to join them for the purpose of making a demonstration which is approved by all the powers, not excepting Russia.

Should the demonstration prove ineffective, it is understood that the Montenegrins will occupy Antivari and Dulcigno.

Serbia May Make Trouble.
When the Montenegrin trouble is out of the way it is likely that the powers will have to deal with Serbia. She has informed the British minister that it was impossible to withdraw her troops from Scutari, as Serbia had been signed, and that any drawing back at the present time would be the death knell of the Balkan alliance.

Serbia, too, is reported to be preparing for the permanent occupation of Durazzo. This action would be directly against the decision of the powers.

Everything Else Satisfactory.
Elsewhere matters are moving smoothly. An agreement has practically been reached with regard to the boundary between Turkey and Bulgaria, although Bulgaria is guarding against any slip in the peace negotiations, and is moving virtually the whole of her Adrianople army to Thessalia. The captured town will be left in possession of the Bulgarians. A partial agreement also is reported as having been arranged between Bulgaria and Roumania, the latter getting Silistria.

Austrian Ships on Scene.
Cettinje, April 2.—Four Austrian warships arrived in Montenegrin waters early this morning. They anchored about ten miles off shore between Antivari and Dulcigno.

OHIO FLOOD DEATH LIST INCREASING

Rescue Parties Continue to Find Bodies in Debris—Report Another Village Wiped Out—Water Receding.

Columbus, Ohio, April 2.—Slowly crawling toward the century mark, the total number of bodies recovered in west side debris left by the receding floods in the Scioto river had climbed tonight to 30, according to official morgue records.

Coroner Betker who has made a widespread investigation among the families, some members of which are among the missing, said tonight that he estimated that at least 125 bodies will be recovered. It is expected that other bodies that have been washed down the river may never be identified as Columbus victims. Of the 30 bodies that have been recovered up to this evening all but three have been identified.

Another Town Destroyed.
Salzwedel, Ill., April 2.—By boat to Dekoven, Ky.—All that is left tonight of Salzwedel, Ill., is a few substantial brick and stone buildings around the main levee, and they are considered unsafe. Less than 100 persons remain in the former town of 3,000, and they are perched in the second and third stories of Main street buildings, on the highest street in the town.

The water, rising some hours ago to the 57-foot level of the Ohio river. The 45 miles an hour gale lashed the broad Ohio into a rolling, tossing sea, until breakers dashed over the already submerged levees. A rift in the embankment rapidly enlarged and soon a swift current was rushing through the residential section, carrying all before it.

During the six hours' storm the big yaws of the naval reserve removed from the second stories of homes, previously considered on high ground, reports of families who had believed themselves safe.

There have been no fatalities, but many narrow escapes were heard of tonight. The property damage will now run into the millions, three millions being considered a conservative estimate.

Situation Worse.
Paduch, Ky., April 2.—The flood situation here is growing worse hourly. At seven o'clock tonight first floors of every wholesale store and many retail stores were flooded. The river rose a foot and a half today, going to a stage of 52.2 feet and the forecast is for four feet more of water. Should this occur only five blocks in the city will be out of water.

Small wooden buildings have been erected on the western edge of the city and are occupied as the water rises. Late today there were ration for ten thousand persons for ten days.

Flood at Height.
Cairo, Ill., April 2.—With the high the Ohio River tonight the city is at a state of expectancy never before experienced. At 6:20 o'clock stood 54.4 and rising a stage three tenths of an inch higher than any previous record. Nearly every hour brought reports of trouble in other cities, the verification of which was impossible from this isolated town.

One of the most thrilling of the stories to be told tonight was that of Captain S. A. Martin, regimental quartermaster and Captain H. A. Jamieson, of the sixth Missouri National Guard, who were rescued in a launch from a section of levee which broke away at Birpoint, Mo., just below here. Thirty-six of their men, they said, are now on the levee section which is 200 yards long and ten feet wide, and floating down the Mississippi.

Commander McMunn, of the naval reserves, at once arranged for a steam launch and started out to rescue the Missouri soldiers. A pilot who understands the river courses was taken along to guide the reserves.

Water Falling.
Cincinnati, Ohio, April 2.—The receding waters of the Ohio reached a stage of 69.1 feet here at 6 o'clock tonight and those persons in the flooded zone took on renewed energy, and made preparations to move back into their water-soaked residences and business houses.

Louisville, Ky., April 2.—The Ohio river was falling here tonight at the rate of a little more than one-tenth of a foot in twelve hours, and at seven o'clock the stage was 44.9, a fall of one-tenth of a foot since seven o'clock this morning.

MORGAN'S BODY FARES ROME ON LAST JOURNEY

Bill Before State of Maine Legislature to Stop Moose Hunting—Meets Strenuous Opposition.

Special to The Standard.
Augusta, Maine, April 2.—The belief is openly expressed by members of the Maine legislature at the state house here, that the passage of the pending act, changing the open season for hunting moose in this state, will result in a large increase in the number of hunters to visit New Brunswick this fall, and a consequent decrease of sportsmen here.

Cow moose and calves have been protected in this state for a number of years past, a fine of \$500 or imprisonment for six months being the penalty provided for killing the animals. Under the present law bull moose may legally be killed from Oct. 15 to Dec. 1, and cow moose from Oct. 15 to Dec. 1.

For the past few years seem to indicate that the moose are growing less plentiful and with the idea of remedying conditions and giving the animals a chance to increase, a bill has been introduced here this winter which provides for a close time on all moose during the month of November. The measure proposed that both bulls and cows may be shot during that month.

The first bill presented provided for a close time on all moose for four years. It met with such strenuous opposition from camp and hotel proprietors, guides and other sportsmen interested in the coming of the sportsmen, that the present compromise law was finally agreed upon by the warring factions. Although it has not yet been given its final passage, there is every indication now that it will go through in a few days without further opposition.

Members who are in close touch with the game situation in the state, feel that the new law which limits the open season will result in increasing the number of hunters who will flock through Maine and go to New Brunswick where the moose are more plentiful. They declare, however, that the law will ultimately benefit Maine and cause a marked increase in the number of moose within the state during the next four years.

NEWS FROM THE CAPITAL

Large Sum Realized from Sale of Crown Land Timber Berths on Patepedia—Other Items.

Special to The Standard.
Fredericton, April 2.—Rev. Dr. J. H. McDonald, who has accepted the pastorate of McPhail Memorial church Ottawa, left tonight for Boston with Mrs. McDonald to spend a short vacation before taking up his new duties.

Premier Flemming, who was here today, leaves tomorrow for St. Stephen to spend a day there.

Upwards of \$3,450 was realized at a sale of crown land timber berths on the Patepedia at the Crown Lands office today.

The Dalhousie Lumber Company bid in two square miles at \$21 a square mile; D. Champoux, of Campbellton, bid in six miles at \$400 a mile, and ten miles at \$21 a mile; J. L. Wires, of Campbellton, bid in two square miles at \$400 per mile.

Ald. E. G. Hobbs, Ald. W. G. Clark, Ald. H. Rogers, and F. W. Porter, of this city, and F. D. Swim M. L. A., of Doaktown, are applying for incorporation to spend a short vacation before taking up his new duties.

DR. FRIEDMANN WILL PROCEED WHEN INCUBATOR IS REPAIRED
New York, April 2.—Dr. Friedrich Friedmann announced tonight that he would proceed with his promised government clinic, at which he will treat one hundred patients with his tuberculosis vaccine as soon as his incubator has been repaired.

Etteral City Pays Last Tribute to Great Financier

FUNERAL PROCESSION TO DEPOT IMPRESSIVE

Message of Condolence From German Emperor—Many Magnificent Floral Tributes From Nations Placed on Coffin.

Rome, April 2.—The Eternal City gave its last farewell to J. Pierpont Morgan, whose body was conveyed to the railway station and there placed aboard a train for Havre. It will be transported to the United States by a steamer, probably the France, sailing for New York on Saturday.

The German emperor sent a message of condolence to Mrs. Morgan as follows: "Accept the expression of my sincerest sympathy for your great bereavement. Your husband's death is a loss not only for you, your family and your country, but his many friends in all parts of the world shall never forget him."

The funeral procession to the depot was impressive in its simplicity. The hearse was followed by carriages in which drove Mr. and Mrs. Herbert L. Satterlee, the American ambassador, Thomas J. O'Brien, the staff of the embassy, the attending physicians, Dr. Nelson, of the American Church, and a few friends. Platons of municipal guards acted as an escort.

The people in the streets raised their hats as the cortege passed.

Many Floral Tributes.
The coffin was placed on a special car, covered with black velvet draperies, with silver fringe. The floral tributes from the members of the family, the German Emperor, the municipality of Rome, and the American ambassador were placed around the coffin.

Shortly before the departure of the train the French consul arrived, bringing a beautiful silver wreath from the city Aix-les-Bains. It bore the French tri-color and an appropriate inscription.

The physicians who were in attendance on Mr. Morgan, issued the following statement today: "When Mr. Morgan left New York he was a very tired man, physically and mentally. Digestion and the work of his heart were impaired. He had no organic disease. His appetite, however, failed and consequently his strength and weight did not improve.

"Mr. Morgan contracted a severe cold while in Egypt, which further weakened him. A state of mental depression and feebleness developed. He arrived in Cairo in a very run down condition, but during three weeks in Cairo he improved mentally and physically. His powers of concentration and memory showed no impairment. The trip to Rome did not harm him and he continued to gain slowly for ten days.

"A week before his death his strength began to fail. He was put to bed Wednesday afternoon, March 26; he became delirious and extreme exhaustion followed. This continued until Sunday evening, when he passed into a state of coma. He died at 12:05 p. m., Monday."

(Signed) GIUSEPPE BASTIANALLI, M. ALLEN STARR, GEORGE A. DIXON.
INSURANCE MEN INDICTED.
New York, April 2.—Two more insurance men were indicted today by the grand jury (that has been investigating "arson trust operations.") They were W. I. Lebovski and Leo Dauch, the former a member of a fire insurance adjusting firm and the latter an employee.

MEMBERS OF RUSSIAN DUMA OBJECT TO POLICE METHODS

St. Petersburg, April 2.—The Russian government has shown itself capable only of following Austria's triumphal car, said Deputy Savenko, a nationalist, in introducing in the chamber of deputies today an interpellation regarding the action of the police in charging the crowds and using whips to suppress the pro-Slav demonstrations on Monday. These popular demonstrations were held in honor of the victories gained by the armies of the Balkan allies over the Turks.

ENGLISH FARMERS BUY BIG PROPERTY NEAR SALISBURY

Cuthbert Jones Farm Sold for \$8,000—To Be Used as a Stock Raising Ranch

Form Boosting Club.

Special to The Standard.
Moncton, April 2.—S. L. T. Harrison of Moncton today completed the purchase for eight thousand dollars of the Cuthbert Jones farm at Salisbury. This property it is understood has been purchased with an English farmer, and the purchase of other farms is in view.

SHORTAGE IN LOBSTERS IS DUE TO GALES

Boston Market Was Completely Bare Yesterday—Lobsters Selling Wholesale at 75 cents Per Pound.

Boston, April 2.—"Gales down east" have caused a shortage in the lobster supply with a jump in the prices. Not a single crustacean was offered in the whole market today, and demands from New York restaurants could not be filled.

The late consignment, a small one, sold to a New York concern a few days ago for 75 cents a pound. The normal price is about 25 cents.

Storms during the past few weeks have destroyed the pots of lobstermen on the Maine and Nova Scotia coast. Steamers from Yarmouth and Halifax, usually loaded to the guards with lobsters, have carried only a crate or two.

NEW SECT OF HOLY ROLLERS

Ontario Police Discover Rebohomites—Woman Enthusiastic Over Religion Deserts Children.

London, Ont., April 2.—Rebohomites is the name of a new sect which has made its advent into London and which will shortly be reported as having been arranged between Bulgaria and Roumania, the latter getting Silistria.

As a result of their coming to the city, Inspector Sanders, of the Children's Aid Society, has been asked to make an investigation in the case of Mrs. Doan, of 76 Douglas Ave., a widow with two small children, who became so enthusiastic about the new religion that she has left the children in the care of relatives and sold her furniture, with the idea of making the pilgrimage to the holy city. Relatives in the city had their first intimation of Mrs. Doan's decision to make the pilgrimage, when she tried to make arrangements to leave her children with them.

The originators of the sect are a man whose real name is said to be McKnight, and a woman calling herself his wife. They will not acknowledge that their names are McKnight, insisting that they are Rebohom, the elect of the Lord, priests of the order of Melchizedek.

A boosting club was organized in Moncton tonight with George A. Robertson as president, and J. A. Harvin, formerly of St. John, vice-president. Some thirty or forty leading business men have joined.

WILL ATTEND ROYAL WEDDING

London, April 2.—King George and Queen Mary have accepted the invitation of the German Emperor to attend the marriage of Princess Victoria Louise and Prince Ernest August of Cumberland at Berlin, May 24.
