

## LIBERAL PARTY APPARENTLY FACING GRAVEST CRISIS IN ALL ITS HISTORY

**Conscription Threatens to Rend Laurierites in Twain—Sir Wilfrid May Have to Swallow Promise to Quebec and Support Member**

## MANY ONTARIO LIBERALS FAVOR CONSCRIPTION

**Telegrams Pouring in to Liberal Leader from All Over Country Urging Him to Support Government.**

**Special to The Standard.**

Ottawa, May 21.—The Liberal party appears to be facing the gravest crisis in its history. Conscription threatens to rend the party in twain, and indications are that unless Sir Wilfrid Laurier can be induced to abandon his well known hostility to conscription he will find himself at the head of a small faction from Quebec, repudiated by the overwhelming majority of his followers from the Maritime Provinces, Ontario and the west.

"Old Cock" in Quandry.

Telegrams are pouring in upon Sir Wilfrid Laurier from all over the country imploring him to rise to the nation's necessity and support the government. Fred Pardee, chief Liberal whip, left Friday night for a trip through the Ontario constituencies to sound public opinion. Before going he is known to have confided to friends that he believed Sir Wilfrid could be got to support the government's proposals. A close canvas of Liberal members today and on Saturday reveals the fact that if the Liberal leader surrenders to Quebec influence he will hardly carry with him a

single Liberal west of the Ottawa river, with the possible exception of Edmund.

Confronted with the possibility of such a disaster to his party, it is thought by some that the Liberal leader will swallow his celebrated assurance to Quebec that "we will not have conscription" and endeavor to carry the French Liberals with him in support of such a measure.

**Grit Caucus Soon.**

A caucus of the party will be held some time this coming week, probably not until the draft of the bill has been submitted to the House.

What attitude the majority of the Nova Scotia and New Brunswick Liberals will adopt is not quite clear. Although it is known that privately most of them favor conscription it is thought that they would not be so liable as the western men to desert Sir Wilfrid in the event of his deciding to oppose the government's proposal.

K. MacLean, Halifax, is said to strongly favor conscription and to be prepared to support it regardless of his party's attitude.

The situation, everything considered, appears perilous for Sir Wilfrid Laurier's leadership. Support of conscription will weaken it hold on Quebec. Opposition to it will destroy him in Ontario and the west. The coming week will likely unfold some momentous political events.
