The Annual Report of U. S. Postmaster General Shows Developments and Innovations of Service for the Year.

Washington, Dec. 9.—A surprise of \$2,842,851 in post office operations for the fiscal year 1919 was announced in the annual report today of Postmaster General Burleson. The figures are subject to some adjustment which would increase the surplus, Mr. Burleson said, adding that this was the sixth time in the seven years of the present post office administration that revenues had exceeded expenditures.

An aggregate surplus of more than \$35,000,000 as compared to an aggregate deficit of more than \$39,000,000 for the preceding seven year period is shown in an appended table. "The cause of the change is immediately apparent," the report says of this comparison. "Whereas the revenues under this administration increased \$737,597,818 or at the rate of 50.63 per cent, compared with the seven year period prior to the time it assumed office, the expenditures increased only \$643,335,795, or at the rate of 42.49 per cent. The difference between the increase in expenditures and the increase in revenues, less losses, equals the amount of the net change in favor of the Public Treasury."

Much of the criticism leveled at the department's financial policy, Mr. Burleson said, "was due to lack of complete and accurate information." "The facts, as presented," he added, "tell a story of achievement. They do not call for explanations or apologies and none are given. The administration stands squarely on its record."

Discussing improvements in the service, Mr. Burleson said nothing had been left undone within his authority "to effect readjustments in the interest of all the people and not in that of any special class," adding: "Because of the curtailment of what may be termed 'special class' postal facilities there has grown up strenuous hostility upon the part of a limited number of 'special interests,' the expense of whose private business was largely paid by the Government instead of by themselves. This has particular reference to the modifying of the second-class mailing privileges which had until the advent of the present administration been grossly abused."

Improvements made are summarized as follows: "Inauguration of the air-mail service; establishment of the 'space system' in determining the compensation of railroads for carrying the mail; readjustments of railway mail service in the interest of both improvement and economy; readjustments of organizations in post offices, methods of service, and distribution of supplies, on a basis of sound business principle; inauguration of rural and city motor vehicle service and village delivery service; extension of box and collection service and postage-stamp, money-order and registry facilities to patrons on star routes; improvements in the registry system, insured parcel post, and methods of handling dead letters; readjustment of rural delivery service, providing more equitable distribution of facilities to patrons already served and extensions of facilities to those citizens who had theretofore been denied any service at all; complete reorganization of the equipment and supply services through the extension of the following list: suitable gifts for men folks."

## DOM. EMPLOYMENT SERVICE REPORT

Maritime Province Firms Reported Nominal Decrease During Week Ending Nov. 22 — Anticipated Increase in Following Week.

The Dominion Employment Service, summarizing the returns at the end of November from the Maritime Province firms, reported a nominal decrease during the week ending November 22nd, but anticipated an increase of 127 persons, or .3 per cent, during the week ending November 29th. The decrease was accounted for by reductions in lumbering of 1.3 per cent; food, drink and tobacco, 1.5 per cent; vehicles, 1.3 per cent; quarrying and mining, .3 per cent, and railway construction, .3 per cent. All other groups registered increases, metals making a gain of 1.5 per cent; building and construction, 2.9 per cent; commercial and mercantile, 3.6 per cent, and railway operation, 5 per cent. Railway operation expected a gain of 9.0 per cent, accounting for the large anticipated increase for the groups as a whole, and more than offsetting a reduction of 3.7 per cent, in the food, drink and tobacco group.

## TORONTO SMALLPOX SITUATION FAR FROM ABATING

Seventy-Six New Cases Reported in Forty-Eight Hours — 1,702 Under Quarantine

Toronto, Ont., Dec. 15.—Seventy-six new cases of smallpox within forty-eight hours, with forty-four patients discharged in that period, is the smallpox record here today. "There are now in the city 651 cases, with a total of 1,702 persons under quarantine. Local health officials say that there is no indication that the epidemic is abating."

tion of operation and economy of production, and the introduction of modern shop methods, equipment and appliances, effecting substantial savings and improvement in the service; the partial adjustment of the postage rates on second class mail matter, effecting a saving of over \$15,000,000 annually; reduction of letter postage between the United States and several foreign countries; large extension of international parcel post, and the increase in weight and size of parcels permitted in the mails."

Mr. Burleson again asked repeal of legislation permitting affiliation of organization of postal employees with labor organizations "which sanction recourse to the strike or boycott to enforce their demands." "I again call the attention of Congress to the impropriety of Government employees owing allegiance to any organization which might stand between them and the Government, and to the actual menace to governmental authority which is involved in such affiliation," Mr. Burleson said.

The avowed purpose of labor organization is not alone to advance the social and economic welfare of members of their order but to exercise a coercive influence upon the employer to compel submission to their demands.

## A WOMAN JUDGE.

The children of any home are commiserated if so unfortunate as to be brought up without the well-balanced training of a father's and mother's united interest in their welfare. The children of the community who by reason of our wretched social and economic conditions are "erring angels" and commit offences beyond the corrective agencies of the home or the school, are not granted the consideration of anything but the masculine point of view, however fatherly that might chance to be, writes Mrs. Elizabeth Becker in the current number of the Women's Century.

In the average home the father's system of correction is usually more punitive than reformative, but the mother's influence adds the necessary element. In our juvenile courts it is no less necessary to have the combined fatherly and motherly point of view, if these courts are to serve the only purpose that justifies their existence, that of settling erring feet upon the right path.

In different parts of Canada broad-minded men have seen the need of the woman's judgment in dealing with young offenders, and have had a woman judge in the juvenile court, and the plan has worked admirably. The extreme West and the Province of Quebec have the credit of this progressive movement. In the Montreal juvenile court cases are investigated by an English woman or a French woman, who stand beside the judge, and no decision is given by him until he confers with the one who understands the conditions and expresses an opinion as to the best course to follow to set the child right. Then in a truly fatherly spirit, he talks to the child and the parent of what must be done to prevent wrongdoing being repeated.

Toronto says The Toronto Telegram, has felt very strongly that a woman as co-judge in our juvenile court is much needed, but the requests to the Board of Control have been refused. It certainly must be done in time, but why delay a wise move?

A Fair-Minded Woman.

"I forgot myself and spoke angrily to my wife," remarked Mr. Meekton. "Did she resent it?"

"For a moment. But Henrietta is a very fair-minded woman. After she had thought it over she shook hands with me and congratulated me on my bravery."

## STANDARDIZATION OF WAGE OFFER TO BRITISH RY. MEN

Secretary of the National Union Sees in it the Settlement of the Wage Question

London, Dec. 15.—J. H. Thomas, general secretary of the National Union of Railwaymen, announced today that the government had made a new wage standardization offer to the railwaymen. He said he was unable to pledge acceptance of the proposition, but declared he believed it contained a germ which would result in the settlement of the wage question. The offer is to be discussed with the government on Wednesday.

Mr. Thomas repudiated rumors that there would be a suddenly called railway strike before Christmas.
