Noxon Patent Out-
Throw Disc Harrow
is the only Disc Har-
row possessing an
adjustable **SPRING**
PRESSURE.

Noxon Spike Tooth
Harrow

is unapproachable for
Simplicity of Con-
struction and contains
valuable features not
found elsewhere.

Noxon Steel Hoosier
Drills

are everything that
can be desired and
work perfectly.

Noxon Front-Cut
Mowers

are of lighter draft and
stronger than those of
our competitors and
can be absolutely **DE-**
PENDED UPON.

Noxon Victoria
Binders

are exceedingly strong
and simply construct-
ed, being of very light
draft, and are essen-
tially a Two-Horse
Machine.

Noxon Spring Tooth
Cultivator

is perfect and con-
tains many original
and valuable features.

Noxon Lever Spring
Harrow

is built entirely of
steel and is un-
doubtedly the best
eradicator of weeds
in the market.

Noxon Spring Tooth
Cultivator and
Seeder

has more admirable
features than any
other cultivator made.

Noxon Rear Cut
Mower Bar can be
adjusted to any angle
required.

Noxon Rakes can
always be depended
upon when wanted—
they are built of only
the best material.

The following regarding the material used in our Implements is quoted from the *Ingersoll Chronicle*, Nov. 6, 1900

"The steel is bought regardless of price nothing but the very **best quality** being acceptable;
out of 31,000 teeth tested only 5 had been broken."

This should absolutely convince every farmer that

—Noxon Machines Are Always Reliable—
