

# WATERLOO NEWS RECORD

Car of home-grown potatoes to arrive. No. 1 stock and keepers. Also car apples, Spys, Starcks and Bowns, and others, government inspected. Best buy in city. No more apples. S. H. Heesenauer, Phone 1254. 11-29-21.

Miss Elizabeth Rohn spent the week-end with friends in Tavistock.

Mr. F. Anderson of Hamilton spent Sunday with friends on town.

Mr. and Mrs. R. Anthony of Buffalo N. Y., have returned home after spending several days with friends in town.

Miss E. K. Gilboe and Mr. J. C. Hawkins were week-end visitors at the home of Mr. and Mrs. Hodgins, Waterloo.

## SATURDAY'S STORM DID CONSIDERABLE DAMAGE

Wind Attained Hurricane Proportions But no One Was Injured.

Waterloo was in the grip of one of the worst storms ever experienced in town on Saturday evening and it was only a miracle that the damage was not even greater than it was.

The storm broke between 7 and 8 o'clock and for several hours the wind played havoc throughout the town. Trees were uprooted, brick chimneys demolished, in several instances, parts of the roofs were torn from the rafters and strewn helter skelter. The Globe Furniture suffered to the extent that it will take about 12 squares to repair the damage done to the roof on the main part of the factory. The large chimney on the Harmonie Hall crashed through the roof of the adjoining dwelling but luckily no one was injured. Bauers' Limited, Huethers' Ice house, the tenement house on the corner of King and Young streets were among some of the places where parts of the roof were demolished.

It was remarkable the pranks the wind played especially in the Park when good healthy trees were razed to the ground while others that were liable to fall at any minute were left standing. During the height of the storm the fire alarm rang several times but there was no cause for alarm, the reason being a short circuit on the line. The brigades were called out about 10 o'clock to remove a large tree that had blown onto the wires on King street, just south of William street. It was necessary to remove the tree owing to interference with the alarm system. As was to be expected Hydro was on its bad behaviour for a considerable time but eventually took the interruption good naturedly. The streets were practically deserted, citizens preferring their own homes to taking a chance on the streets in such a storm. During the day it rained continually but along towards 10 o'clock at night it turned suddenly colder. It was a wild night and it was indeed fortunate that no serious fire broke out as there would have been no telling where it would end.

### AT ST. JOHNS LUTHERAN CHURCH

The pulpit of St. Johns Lutheran Church was occupied yesterday morning by the Pastor Rev. E. Bockelmann who through an affection of the throat has been unable to attend to his duties for some time and a large congregation turned out in spite of the inclement weather. In the evening Rev. Prof. Little Dean of the Seminary occupied the pulpit.

### REGULAR MEETING TO-NIGHT

The regular monthly meeting of the Town Council will be held to-night.

Miss Florence Wood is spending several days with friends in Toronto.

Miss Mary Froelich has returned home after spending several months with relatives in Reading, Pa., and other American cities.

### PRESENTED WITH HAND PAINTED VASE

A delightful surprise was given Miss Myrtle Thiel at her home on Foundry St., on Saturday evening, when a number of her friends came together at her home to celebrate the advent of her birthday. The evening was spent very enjoyably but all present in games and music, after which dainty refreshments were served. The hostess was presented with a beautiful, hand-painted, vase by her friends.

### HOLY BAPTISM AT EVANGELICAL CHURCH

Sunday was a day of special interest at the Evangelical church. At the morning service fifteen persons received holy baptism, and thirty-nine were received into church fellowship on profession of faith and by certificate. At the evening service the pastor gave an earnest message of warning and invitation to such who had not accepted Christ using as his text Eph. 4:17-19. The series of special meetings which have been held during the

last few weeks with good results closed Friday night, and the regular week night services on Monday and Wednesday will again have their place.

### POWER USERS NOT SERIOUSLY HANDICAPPED

The new power scheduled went into effect this morning and Waterloo's allotment has been cut down from 1250 h. p. to 1190 h. p. but even at that it is not expected that it will inconvenience users of power to the extent it was at first feared. One thing sure however, that will have to be curtailed for an indefinite time at least, will be the installing of electric stoves until more power is available, this necessity will have to be curtailed. It will not seriously affect domestic lighting and new services will be put in as usual up to a limited number.

### BAZAAR AND SALE PROCEEDS \$2900

The prize-drawing which was one of the main features at the recent Xmas Sale and Bazaar held last week in St. Louis R. C. Hall created no end of interest. At the conclusion of the drawing three valuable prizes were unclaimed but on Saturday the lucky ticket holders turned up.

The library table was won by Mrs. Herman Schnarr, Francis St. Kitchener the dresser by Miss Monica Winterhalt of Preston and the coffee Percolator by Mrs. Jacob Ball of Waterloo. It was one of the most successful events of the kind ever held in town and the efforts of the committee were rewarded in a magnificent way the proceeds amounting to \$2,900.

### ALL IN READINESS FOR BIG BOUT

Much interest is being taken amongst the sporting fraternity of Kitchener in the forthcoming battle between Jack Jarvis, formerly of Buffalo, now of Kitchener, and Fred Crompton, the rugged Toronto boxer, claimant to the Welter weight championship of Canada by his recent victory over Pete Scott. Jarvis is working hard for this contest as much depends on the result and a victory for either boxer, means quite a boost in their records. He can be seen each morning on the road in heavy sweaters, doing his heavy grind, as road work is the most valuable addition to conditioning a fighter. Crompton is working out in Toronto with Frankie Bull, the well-known boxer and latest reports are that he is in tip top condition and in sagging of success, so the fans are assured a good night's entertainment, the main bout is backed up by semi-final between the popular Bernese Schultz of Kitchener and Kid McKay. This should please the local supporters of each boy and should be one of the tid bits of the evening. Announcements will be made of full programme to-night. One interesting feature is that ladies are specially invited, as this item alone helps to conduct the game on clean refined lines.

### PRELIMINARIES SOON COMPLETED

Will Be Presented to International Great Waterways Commission.

Ottawa, Nov. 28.—Preliminaries are about completed for the reference to the International Commission of the question of deepening and canalizing the St. Lawrence route so as to permit of ocean navigation to the head of the Great Lakes. It is a joint proposal between the United States and Canada, relating not only to navigation, but also the development of immense water power.

### Big Power Problems.

The question involves largely engineering problems of overcoming obstacles which have been prepared by W. J. Stewart, Dominion Hydrographer, representing Canada, and Col. Keller, on behalf of the United States Government. The questions are now before the two Governments, and when approved will go to the International Commission, which will soon start its inquiry.

### An Ocean Waterway

The general idea is to construct an ocean waterway of the projected depth of the new Welland Canal and capable of enabling ocean going shipping, now stopping at Montreal, to go on to Toronto and thence up the lakes. Cargoes of merchandise could be carried to Port William or the American lake ports, and grain taken back. If the scheme is carried out it will mean much in the development of different ports and adjacent country along the route.

### 4,000,000 Horse-Power

The potential water power development is placed at four million h. p., of which 2,800,000 is wholly in Canadian territory, and 1,200,000 along the international part of the St. Lawrence. The development is planned to be joint, but it will introduce a question of the respective rights of the Dominion and the provinces, notably the Hydro of Ontario. There are various schemes both as to navigation and power development, and the commission will advise as to which of these are the most practical.

WANTED—Gentlemen roomers. All conveniences. Apply 26 Pearl Place. 12-1-21.

FOR SALE—Fort touring car in Al condition. Apply 23 Pequegnat Ave. 11-1-21.

HOUSE FOR SALE—Red brick 7 rooms, all conveniences, large garden, in North Ward. Apply 158 King St. W. 12-1-21.

## SOME PEOPLE YOU KNOW

Miss Emma E. Stoldt of Toledo, Ohio, is visiting her sister, Mrs. Richard Puffall, 166 David St.

Mr. and Mrs. Wm. Shantz left Sunday to attend the funeral of the latter's brother, Mr. E. B. Roepke, Jordan, Ont.

Miss Mollie Kaepfle, of Chicago, Ill., is spending a few weeks in the city with her aunt, Mrs. Rev. W. C. Boese.

Pte. J. N. Grabb, of the D. Orthopedic Hospital, Toronto, is visiting his brother and other friends in the city.

A Progressive Euchre was held on Friday night in the L.O.P. Hall. First prize winners were Mrs. R. Koebel, Mr. N. Gerth, Mr. S. Gofon.

## SPECIAL EVENTS AT THE CHURCHES

At the morning anniversary services in Trinity Methodist church, the Rev. Samuel W. Falls, the new Book Steward of the Methodist church, preached. The official is an able and aggressive pulpit man and his addresses were impressive. Special music was provided by the choir and the Symphony orchestra. A special program of selections was rendered at 6:45 o'clock. The League of Intercessors met at 7:45 a.m. The first advent was observed in a number of the churches and the sermons delivered were based on First Advent which marks the beginning of a new church year.

At St. Andrew's Church a service of praise led by the children's choir, was held in the morning. Rev. Dr. J. K. Fraser of Galt conducted both services.

At 7 p.m. at Alma St. U.B. church Miss Scheifele of the Mennonite Brethren in Christ preached.

## HAVE RETURNED HOME AFTER ENJOYABLE TRIP TO ST. LOUIS

Mr. and Mrs. Isaiah Wildfang have returned home after spending two weeks with their son, Floyd, in St. Louis, Mo.

They had the pleasure of seeing the N. C. seaplane that crossed the Atlantic and also of attending the Trades Congress of the world which was in session. They report there is a scarcity of sugar. One is able to buy only 2 cents worth at a time and at that one must buy 50 cents worth of groceries at the same time. Half of the factories are closed on account of coal shortage. There is only a supply of six days and then everything will stop. The weather was fine, but it was damp and cold.

They also witnessed the sham-battle with soldiers and tanks and smoke screens, and the throwing of 400 bombs and sky signals, showing the different colors of signals, the throwing of hand grenades, and the bombing of a city. These were witnessed by over 30,000 people. They also saw the art museum, which is considered the finest in the world.

Alfred Henry, of Bridgeburg, Michigan killed a new York Central train.

Sarita does working overtime vaccinating people who want to enter the United States.

## Statuary for Xmas Gifts

Just received large shipment of pleasing statuary very suitable for Christmas gifts. See the

## The Mason & Risch PHONOGRAPH

IT IS a really unusual Phonograph. Hear it—come to our Store, and we will play your favorite Music. Then you will admit that the musical performance of the MASON & RISCH PHONOGRAPH stands out as a thing distinct, unique and unusual, that it is a definite, positive QUALITY of musical execution uncommon among Phonographs!

IF EVER you have heard Caruso, Elman, Farrar, Gallucci, Melba or other present day musical notables, you will agree that the MASON & RISCH sustains the test of direct comparison with living singers and instrumentalists—that a Record played on a MASON & RISCH PHONOGRAPH is identical with the "master pattern" from which it is made!

IT IS A NEW Phonograph—but it has been many years in the crucible of creation—a fact which explains the high artistic conscience behind this wonderful Phonograph! As to its outward appearance, the attractive lines of the different models will be apparent to you at a glance.

AS A superb Christmas present, get a MASON & RISCH PHONOGRAPH and a collection of Victor Records. Together, they represent the highest point that can be reached in the reproduction of musical tones.

## RESOLUTION AT THE CONFERENCE

Town Planners Met At Hamilton. NUMBER LESS THAN USUAL

The town planning conference at Hamilton held its first business session yesterday morning. The report of the resolutions committee was presented. The conference approved of a resolution from Barton township requesting that the Ontario municipal act be amended so that rural municipalities will have the same jurisdiction over the opening and regulation of gravel pits as cities have. Mansard Roofs. The Women's Independent Labor party of Hamilton asked the conference to endorse a resolution requesting a change in the city by-laws whereby plans of apartment houses with mansard roofs should be first passed on by the board of health before a permit for such building is issued. The conference approved.

To Study Citizenship. The resolutions committee presented a resolution calling upon the provincial department of education to make "citizenship" a compulsory subject in public, separate and high schools, and create facilities of government and citizenship in the universities.

Several members objected to the resolution on the ground that it was not germane to the subject of town planning. Chairman Main defended the resolution. After the resolution had been put to a standing vote and carried, P. Maehuro Slenders, secretary of the Windsor chamber of commerce, hastily protested.

"That resolution has altogether too wide a scope for this conference. We're wandering all over the map. We came here to discuss town planning, but it's very little talk of town planning I've heard since I've been here."

Another resolution passed called upon the fire chiefs of every municipality to lecture to the school pupils on fire prevention. Municipal Accounting. A resolution calling upon the government to standardize the sys-
