Perference to the preparation of Broma, appeared in a late number of the Isoton Medical Journal:

"A few years since a great manufacturer of Broma cought the opinions of many medical gentlemen of distinction, for the purpose of having an unobjectionable food for invalids, and was assured that he had fully succeeded. Hospitals, infirmaries, and households generally, should always be provided with it. When gruel, arrownot, groats, barley, starch, rice, farina, and many other takings ordinarily resorted to for patients are of no utility, the Broma is sometimes reli-hed. It is believed that those who use it as a beverage will have manifest diatetic advantage over the consumers of tea and coffee. We see it stated that during the last snammer those individuals who were continually using Chocolate or Broma neither had attacks of choicea or dysenteric affections, while others of the same families, taking their daily potations in tea, soffee, or simple cold water, were the sufferers, if any—We cannot vouch for the truth of this, but it has recalled a mind the statement that the oil dealers in London have been free from Choicea or the choleroid symptoms. And it has been further observed that persons who were taking col liver oil for chronic difficulties, during the prevalence of the last epidemic, were not affected by it. Veretable oil in the liest instance, and animal oil in the last, taken internally, would appear, by these statements, to have seemed those who took them from the while to determine, whether the chocolate drinkers hasp been secure in other infected cities."

Mott's Broma has now been before the public for a

while to determine, whether the chocolate drinkers has been secure in other intected cities."

Moth Broma has now been before the public for a considerable period, and along with the commendations of the Medical Falculty of this and the neighbouring Provinces, it has received the approbation of all classes of consumers.—It is held to be an article of standard reputation, and the demand for it is constantly increasing.

## YOU MAY BE CURED YET! HOLLOWAY'S OINTMENT.

CURE OF BHECMATISM AND RHEUMATIC GOUT. Extract of a Letter from Mr. Thomas Brunton, Landlord of the Waterloo Tavern, Coatham, Yorkshire, late of the Life Guards, dated September 28th, 1848.

the Life Guards, dated September 28th, 1848.

To Professor Holloway,
Sia.—For a long time I was a martyr to Rheumatisin and Rheumatic Gout, and for ten weeks previous tousing your medicines. I was so bad as not to be able to walk. I had tried doctoring and medicines of every kind, but all to no avail, indeed I daily got worse, and felt that I must shortly die. From seeing your remedies advertised in the paper I take in. I thought I would give them a trial. I did so. I rubbéd the Ointment in as directed, and kept cabbage leaves to the parts thickly spread with it, and took the Pills night and morning. In three weeks I was enabled to walk about for an hour or two in the day with a stick, and in seven weeks I could go any where without one. I am now, by the blessing of God and your medicines, quite well, and have been attending to my business more than seven months, without any symptoms of the return of my old complaint.

the return of my old complaint.

Besides my case of Rheumatic Gout, I have lately had proof that your Pills and Ointment will heal any old proof that your Pills and Ointment will heal any oid wound or theer, as a married woman, his ing near me, had had a bad leg for four years, which no one could cure, and I gave her some of your Pills and Ointment, which soundly healed it when nothing else would do it. For your information I had the homour to serve my country for twenty-five years in the first regiment of Life Guards, and was eighteen years a corporal. I was two years in the Peninsular War, and was at the Battle of Waterhoo. I was discharged with a pension on the 2nd Seqtember, 1853. The Commanding Officer at that time, was Coloned Lygon, who is now a General. I belonged to the troop of Captain the Honourable Henry Baring.

CURE OF A BAD LEG OF TWENTY-ONE YEARS' STANDING. Extract of a Letter from Mr. Andrew Brack, Blacksmith, Evernouth, near Berwick, dated the 10th of August.

1848.
To Professor Holloway.
Sia.—With pleasure and graffinde I have to inform you that after suffering for 21 years with a bad leg, which yielded to no kind of treatment, although I consulted, at different times, every medical man of enumence in this part of the country, but all to no purpose. I was frequently unable to work: and the pain and agony I often endured no one can tell. My leg is now as sound as ever it was in my life by means of your I'lls and Ointment, which I purchased from Mr. I Davidson, Druggist, Berwick-upon-Tweed, who knows my case well, and will, I am sure, be happy to certify with me, if necessary, as to the truth of this wonderful cure.

AMPUTATION OF TWO TORS PREVENTED. Extract of a Letter from Mr Oliver Smith Jenkins, dated Falkirk, August 18th, 1848.

Falkirk, August 18th, 1848.

To Professor Holloreay,

Sta,—I was superintending, about six months ago, the erection of one of our Railway Bridges, and by the fall of a large stone my right foot was seriously brulsed, which ultimately got so bad, that I was advised to go to Edinburgh to consuit some of the eminent Surgeons, which I did, and was told that in order to save my foot, two of my toes must be taken off. In despair, I returned home to impart the melanchely news to my wife, intending to submit to the operation, it was then a thought struck me to try your gainable Ontonent and Fills, which I did, and was by their means in three weeks emblied to resume my usual occupation, and at this time my toes are perfectly cured. AN EXTRAORDINARY CURE OF A DESPERATE SKIN DISEASE.

On the 21st July, 1848, the Editor of the "Mofussilite" Newspaper, published in India, inserted the following Editorial article in his paper. "We know for a fact, that Holloway's Pills and Ointment act in a most wonderful manner upon the constitution, as an eccentric Coolie, cailed Eliza, employed in our Establishment, was affected with myriads of Ringworms, which defied all the Meernt Doctors, and promised to deven the poor man before he was under ground: we tried 'Holloway' upon him, and in a mouth he was perfectly restored to his former condition and cleanliness of skin. The effect was miraculous."

The Pills should be used conjointly with the Ointment in most of the following cases :-
