

Fuller details for the Records of the Fallen were generously supplied by the parents or next-of-kin or by friends, and to all these the Editorial Committee desire to express their sincere gratitude. The letters and other documents from which these Records were compiled, or copies of them, will be kept in the University archives, together with the completed questionnaires of the men who returned.

Great difficulty was experienced in securing the correct addresses of many past students, and in some cases it was impossible to do so. The records of a considerable number of such persons were supplied by the Department of Militia and Defence at Ottawa and by friends, and the editors wish to thank all those who have co-operated to give the present volume whatever degree of completeness it possesses.

The contents of each individual record are arranged chronologically, *i. e.*, details of service, honours received, etc., are shown in the order in which they occurred.

In the accounts of the Fallen, the rank shown immediately after the name is the rank held at the time of death.

Full rank is given throughout, and includes also temporary, lance and acting rank.

The word "France" is used for the whole Franco-Belgian Front.

In the case of award of honours, the date given is either that of the action in connection with which the honour was awarded or of the official gazette announcing the award — according to the information made available to the editors.

No special mention is made of the 1914-15 Star, General Service or Victory Medals, as the disposal of these awards is implied in the dates and locality of service.

The term "discharge" indicates removal from the Overseas Forces, and includes transfer to active or reserve militia units.

Anyone able to supplement the names contained in this volume is requested to send particulars to the Registrar, University of British Columbia, from whom copies of the prepared questionnaire may be obtained. Such additional information is earnestly desired for the archives of the University.
