Louis Chicou Duvert, notary, of St. Charles - This is a claim in part for damages sustained by th injury done to the claimant's property by the Queen forces, on the capture of St. Charles on the 25t November last. Part of the claim is also for a com- pensation for imprisonment in the gaol of Montrea It does not appear that the claimant ever cartied hi- views of political reform beyond constitutional bound. He refused to concur in the resolutions drawn up b the special committee, to be submitted to the meetin of the five counties at St. Charles on the 23d October 1837, although he had previously accepted a nomina- tion as a member of that committee; and he left the room in which they were assembled, as soon as he be came acquainted with the nature of those intender resolutions. He refused the use of his premises for the purposes of that seditious meeting, and severel condemned his brother for having permitted it to b held on his ground. After the battle of St. Charles it is proved that he was mistaken for his brother, the vice-president of the society, who was absent, an under that impression was made prisoner by the troops, and conducted to Montreal, under encum- stances of great indignity. His claim for damage done to his property is 2701. 10 s., of which the Com-	s h l. s s y g T t e e d d y e e d d r r - e e d d r	200
