

Protect Your Buildings as Well as Insure Them!

Prevention of fires is vastly better than the partial redress which is all the best Fire Insurance Policy can give you. This prevention is easily secured by using

ASBESTOCEMENT Building Materials

ASBESTOSLATE Cement Shingles

make roofs that are handsome, *fireproof*, practically everlasting and moderate in price.

Linabestos Building Board

prevents inside fires from spreading. It is easily applied, and gives a permanent, attractive, yet inexpensive interior finish.

Asbestos Corrugated Sheathing

makes walls and roofs for Garages, Stables, Barns, Warehouses and Factories that are absolutely *weather and fire-proof*.

You build for all time when you build in Asbestocement.

Write for Booklet C.C., and state in which products you are particularly interested.
