THE CHRYSLER 300

For 1966, the Chrysler 300 series brings you a masterful blend of the practical and the prestigious. Long, low lines, accentuated by a massive gleaming grille, give the 300 a true "action look"—and it's a look that's not belied by the 300's husky power plant. Standard is a 383-cubic-inch 4-barrel carburetor V-8, while available as an option is a sporty "440 TNT" twin snorkel 440-cubic-inch engine, featuring a four-barrel carburetor and dual exhausts. Silent-shifting automatic Torque-Flite transmission, makes driving a breeze. Combined with Chrysler's famous Torsion-AIRE suspension, these mechanical advances give the 300 a smooth silent ride that's hard to match in any class. Roomy interiors, with carpeted floors, colour-co-ordinated and exclusive cloth-and-leather-like vinyl upholstery, bring luxury to life, and new dimensions of comfort to your motoring. To reach the ultimate in relaxation on the road, you can specify the optional bucket seat interior (except 4-Door Sedan) which features a truly adjustable reclining passenger seat equipped with a built-in adjustable headrest. These and many more fabulous features make the Chrysler 300 for 1966 one of the finest cars going.
